

Mr Mohamed Ba

*Senior Coordinator, Digital Innovation Ecosystem, BDT
International Telecommunication Union (ITU)*

Moe Ba leads the Innovation Programme for the Development Sector at the International Telecommunication Union, the UN specialized agency for ICT/Telecommunication. His role is to help strengthen ITU Membership capacity to accelerate digital transformation. His passion is to help communities unlock their potentials through stakeholder empowerment and connecting opportunities to resources. Prior to joining ITU, Mr. Ba spent several years in the private sector including working in Silicon Valley and internationally. He is an expert on innovation policy and the development of platforms focused on innovation, ICT and telecommunication.
