Youth Profiles

Questions going forward

Question 5/1- Telecommunications/ICTs for rural and remote areas

Where are the existing 'digital spaces' that are used by youth?

What type of the digital skills do the different 'youth profiles' need and for what purposes?

Question 6/1- Consumer information, protection and rights: Laws, regulation, economic bases, consumer networks

How do we 'demystify' the digital space?

How do we build trust in the digital space?
