TURHAN MULUK

Turhan Muluk joined Intel in 2006. He is representative of Intel to the ITU-D Sector and works on telecommunication policies for International Government Affairs Group.

Before joining to Intel, he worked 14 years for Turk Telekom on different wireless broadband projects and led to different projects (including nationwide Wi-Fi Hotspot and mobile network projects). He also involved with ETSI, ITU, IEEE studies and worked as Vice Rapporteur at different ITU-D Questions. Turhan has also organized different joint activities together with ITU. He participated to many global and regional events as speaker and panelist.

He was the chairman of WiMAX Forum for the Middle East and Africa. Turhan Muluk is graduated from Electrical and Electronics Engineering Department of the METU in Turkey and a member of IEEE.
