

YUKIHIKO OKUMURA

Senior Technology Architect, R&D Strategy Department, NTT DOCOMO, INC.

Since 1992, Yukihiro Okumura has been consistently engaged in research on broadband digital mobile radio communication technologies, international standardization, commercial equipment development, and application service creation at NTT DOCOMO in Japan, promoting the actualization of mobile communication systems from the 3rd to the 5th generation, and he is a Leader of the 5G Trial Promotion Group under Japan's Fifth Generation Mobile Communications Promotion Forum (5GMF) from 2016 to 2021. He is currently engaged in the development of various 5G terminals and is promoting creation/PoC of advanced solutions and services that apply 5G.

Yukihiro Okumura received his Ph.D. degree in engineering from the Tohoku University, Japan. He is a Fellow of the IEICE and a Senior Member of the IEEE.
