Global platform to engage on cybersecurity best practices: the case of the GFCE
Coordination for the future

Ambiguities in cybersecurity coordination

Challenges

- Practice of sharing and exchanging information?
- The issue of trust?
- Uncoordinated efforts?
- Multistakeholder set up?

An international response to a global challenge

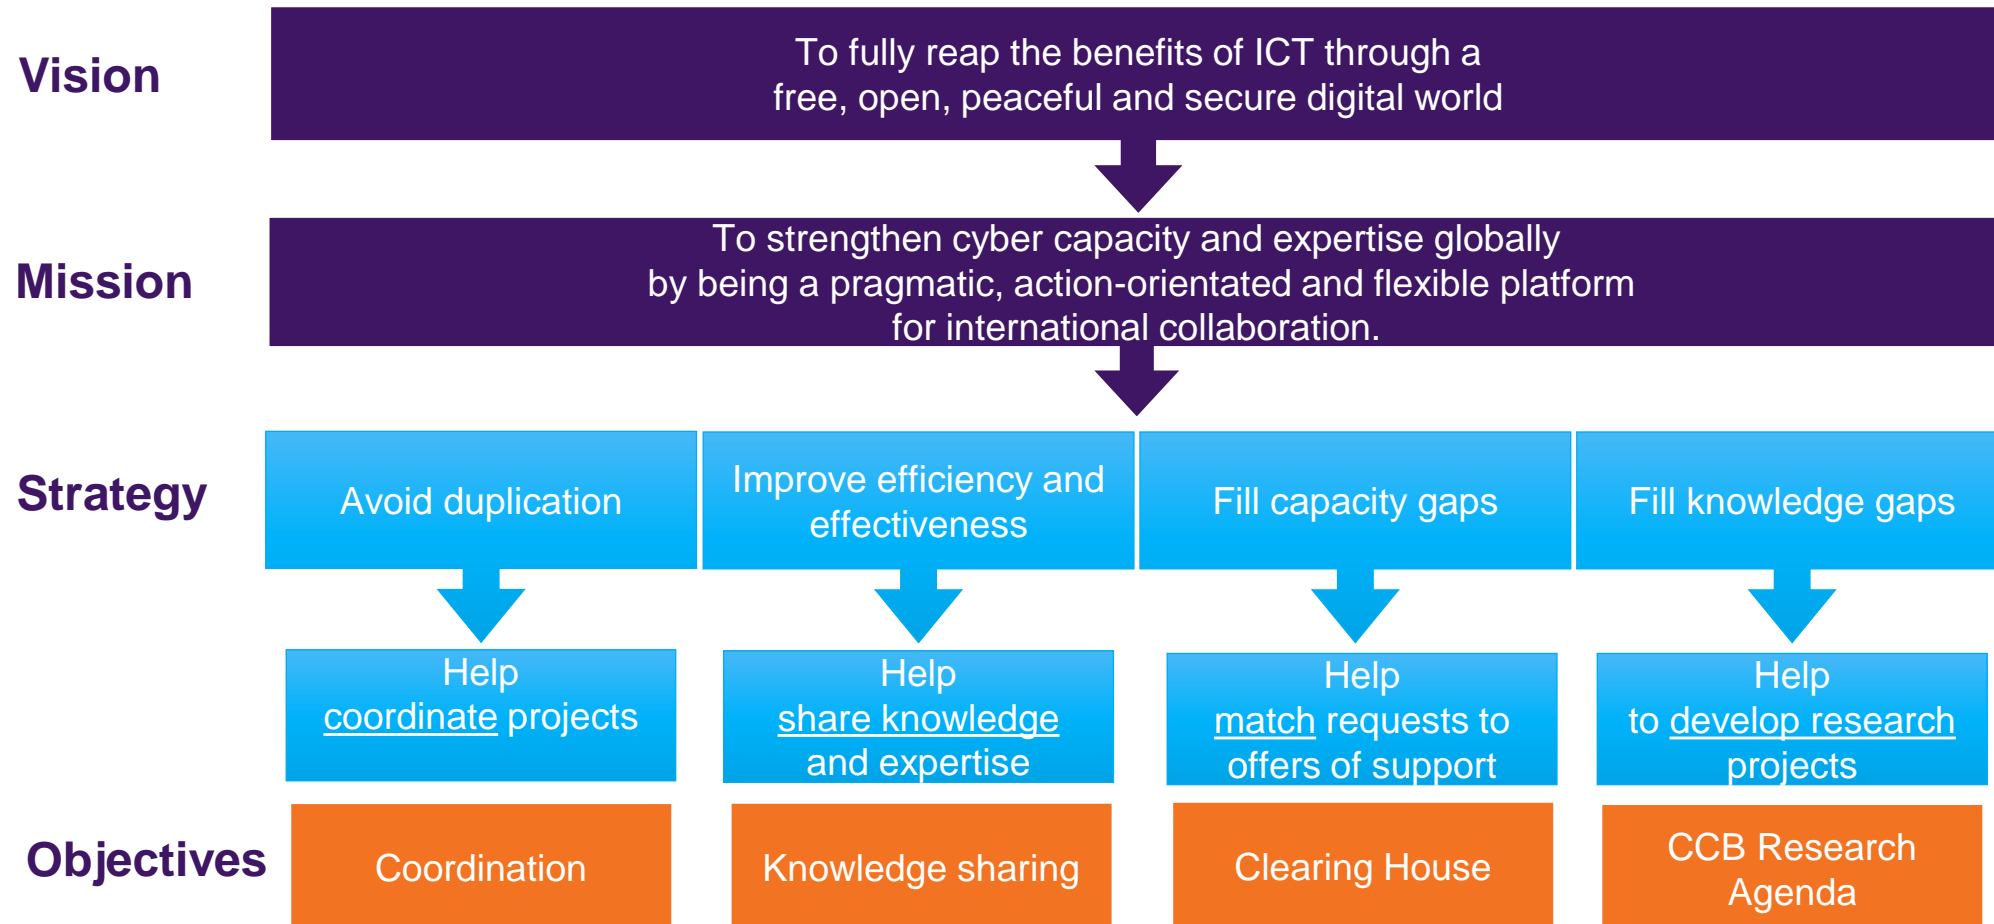

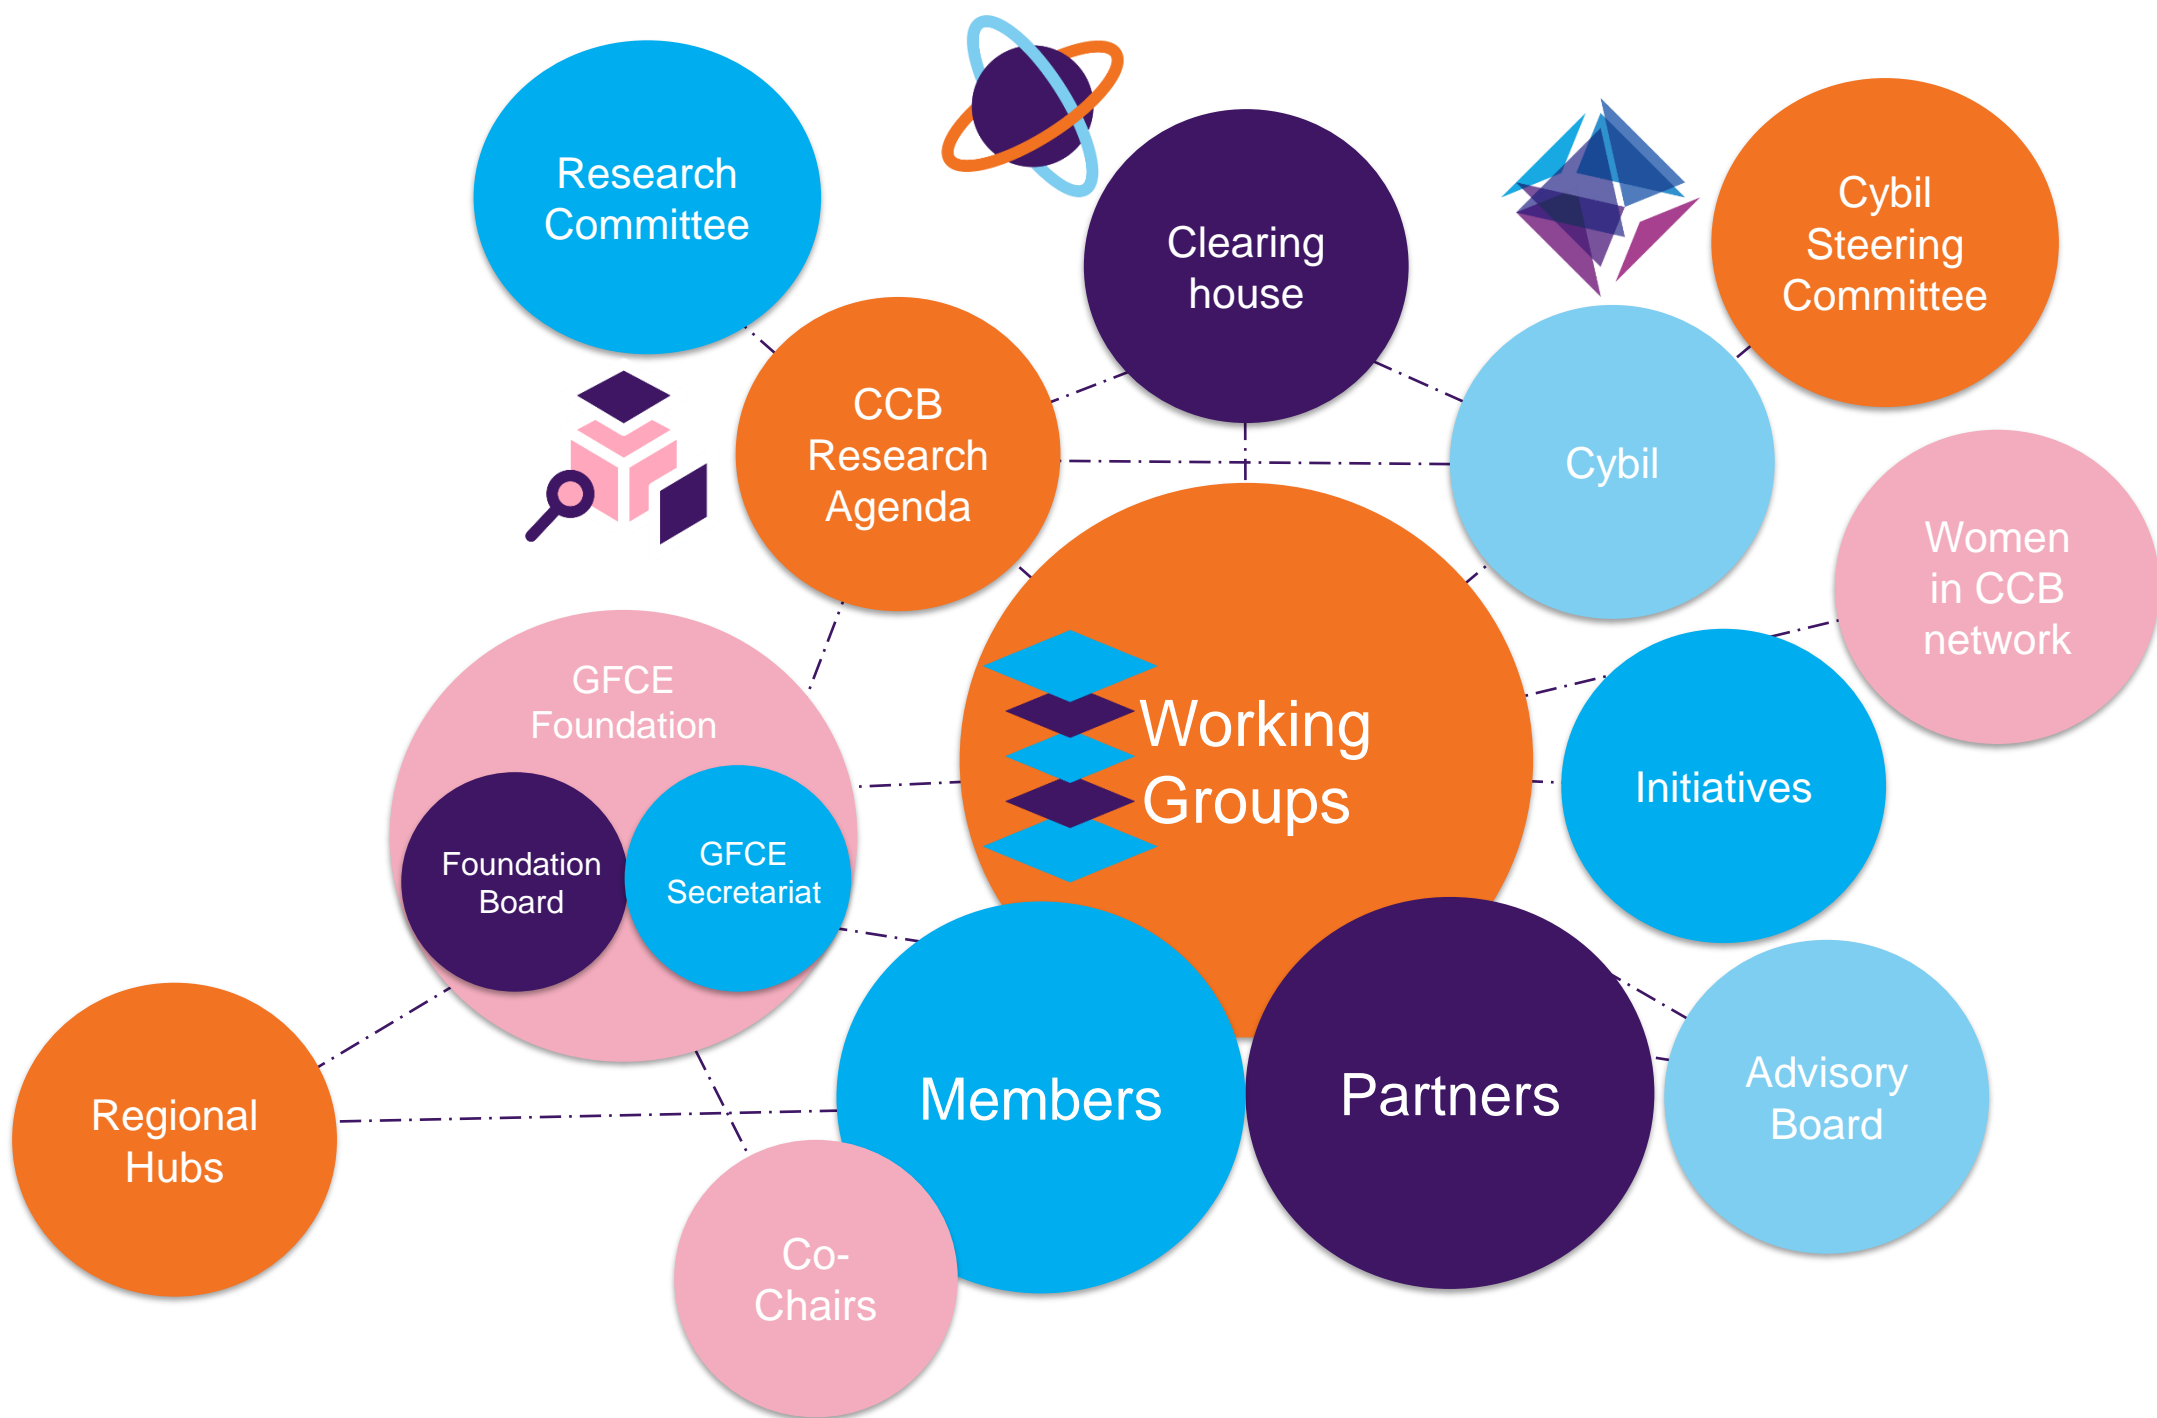

The GFCE:

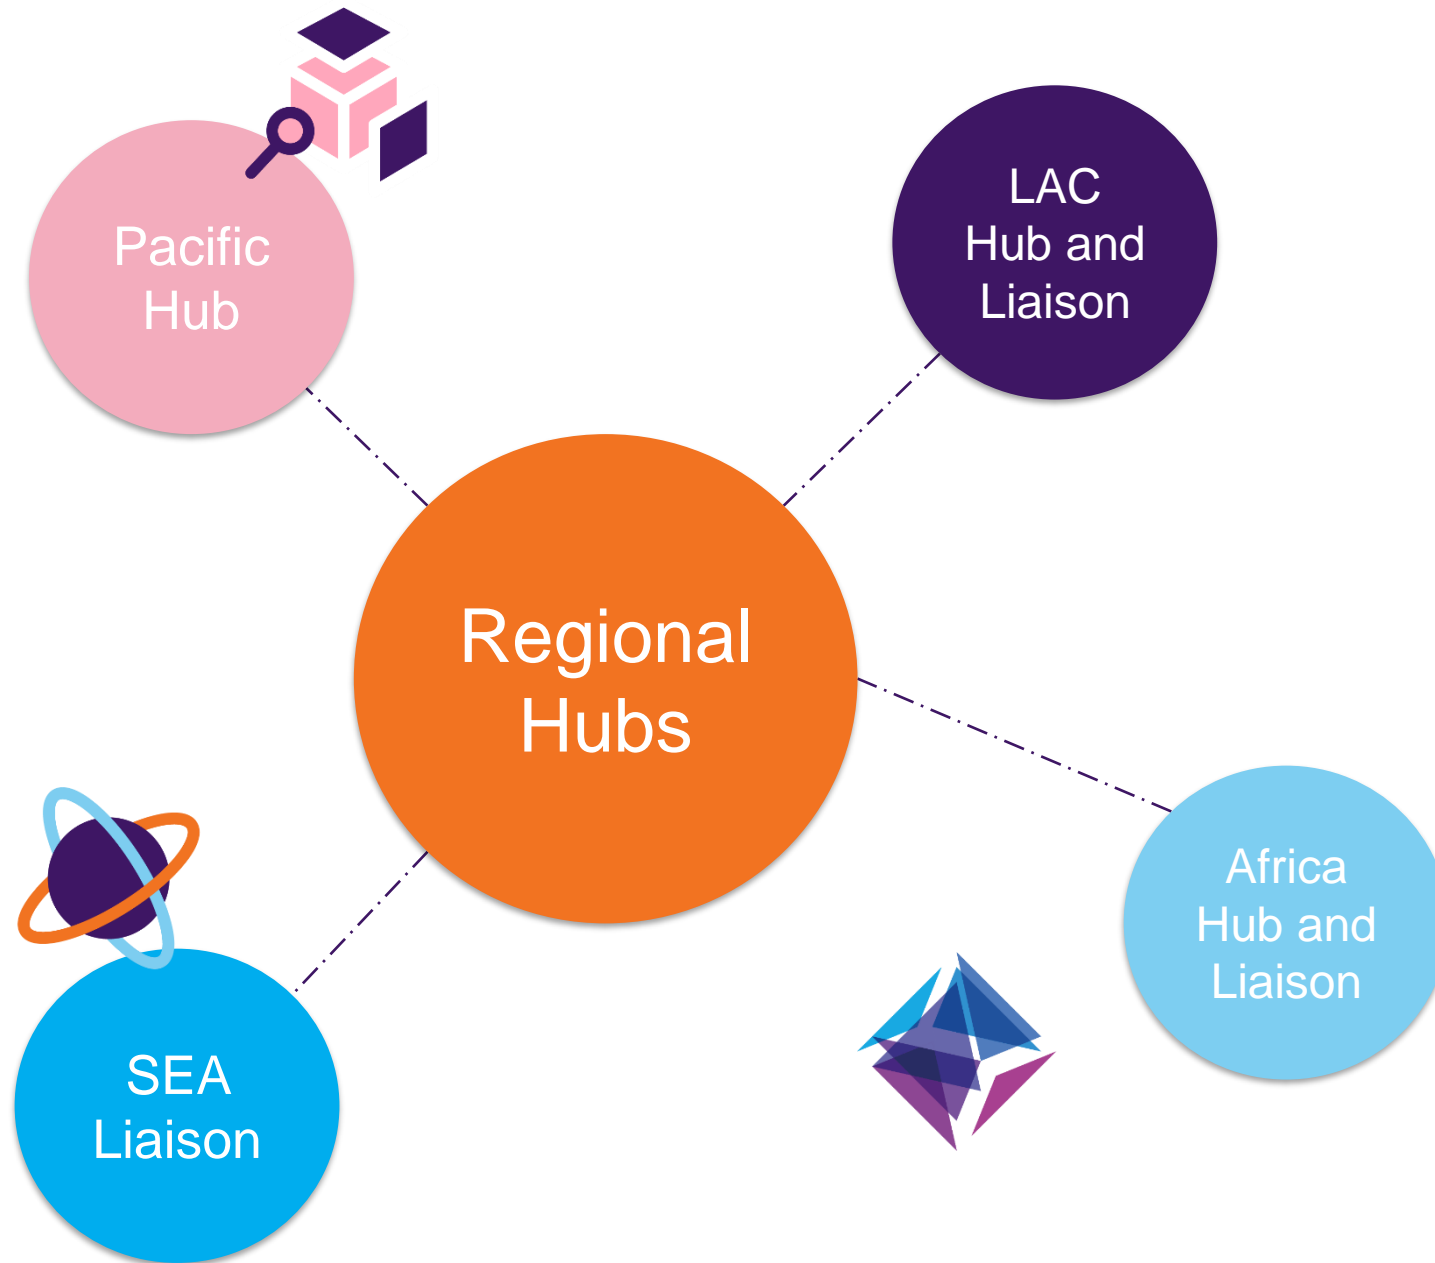

- 1** Is the **international platform** to find and support the partnerships and solutions that will **close the cyber security capacity gap**;
- 2** **Helps countries / organisations** put in place the foundational building blocks to increase their **cyber resilience**;
- 3** **Identifies** successful policies, best practices and ideas and multiply these on a global level.
