

**DANIEL ANDRADE NUNES**

Mr Daniel Nunes holds a Bachelor's degree in Electrical Engineering and a Master's degree in Telecommunications, both from the National Institute of Telecommunications (Inatel). He has over five years of experience as a technical instructor for national and international courses and has worked on projects related to AMPS, DAMPS, CDMA, and CDMA 2000 cellular systems for Ericsson, a multinational company. He has also worked as a technical instructor at the Inatel Competence Center (ICC), teaching wireless communications courses regarding GSM, WCDMA, LTE and 5G NR standards.

Furthermore, he has experience in leading technical teams and managing mobile networks rollout projects for both Ericsson and Nokia. He has also conducted research in the areas of 4G and 5G mobile networks at the INATEL CRR (Center for Radiocommunication Reference). Also, he is a professor for both undergraduate and postgraduate courses at Inatel, as well as a consultant and developer of training solutions.

Currently, he is pursuing an online Master's degree in Instructional Design and Technology from UMGC: University of Maryland Global Campus.
