

# Co-creation, Key to Digital Transformation

---

Speaker: Ms. Damaris MABEYA  
Founder & CEO, Aminia Dada Innovations (KENYA)

# Kenya Digital landscape

- Dissect the dynamics of development solutions that are well intended, but the lack of co-creation stalls down incubation and acceleration projects that could scale beyond communal adoption.
- Dissects prototype designs redundancy in grassroots areas at the end of funding cycles (beyond implementation).
- Way forward on complexities for the vulnerable, marginalized and traditionally secluded groups.

# Incubation

- Emerging technologies vs innovation legislation

<https://www.ca.go.ke/about-us/statutes-regulations/sector-policy/>

# Acceleration

- Humanitarian innovation vs Dignified solutions
- Humanization of ICTs

# Upscaling

- **Scaling and replicating vs Joint Ventures**

<https://www.ca.go.ke/industry/universal-access/ict-access-gap-study/>

# Kenya's Legal Framework

- Capacity building and the new regulatory environment
- Digital humanitarian solutions i.e. Digital Identities

# Way Forward

- Viable sustainability models of deployment with potential for high returns whilst reducing project redundancy in marginalized areas
- Deliberate forecast-based financing and its implementation towards bridging the gender digital divide
- Promoting and accelerating the participation of women in the digital economy spanning from basic ICT training to advanced social innovation through digital technologies
- Linking Science, Technology, Engineering and Mathematics (STEM) to Science, Technology, Engineering, Arts and Mathematics (STEAM) as jobs of the future
