

**Ms Naomi Ng'ang'a**

Naomi Ng'ang'a is a Data manager at Kenya Redcross society. She has a passion for data and digital transformation. At Kenya Red Cross, Naomi leads a team of data scientists that support the national society in being data ready through creating data products and services that help to improve speed, efficiency and cost-effectiveness of humanitarian aid in times of disaster. She has over 7 years of experience in data analytics and research work. Naomi holds an MSC in Social Statistics from the University of Nairobi and she is currently pursuing a masters programme in International Development at Radboud University.
