

VADIM DORONIN

Associate Director, Access Partnership

Vadim Doronin is an Associate Director in the Space & Connectivity Practice at Access Partnership, based in London, where he advises corporate and government clients on telecommunications regulation and policy. He supports clients in shaping telecommunications, space, and spectrum policy in line with their business strategies.

Vadim has over 15 years of experience in the ICT sector, with deep expertise in telecommunications law and regulation, cybersecurity, data protection, spectrum policy, and market access frameworks across six continents. He has successfully obtained market access in over 100 countries for clients, navigating complex regulatory environments across diverse jurisdictions. In his most recent role, he advised a satellite operator on global cross-border regulatory and licensing matters. Prior to that, he worked at several consultancies and law firms, primarily advising clients on telecommunications and regulatory compliance issues.

Vadim is a published author, including the peer-reviewed article "Lawful Interception – A Market Access Barrier in the European Union" (Computer Law & Security Review, 2023), reflecting his expertise at the intersection of regulatory compliance and market access policy.

Vadim holds an LL.M. from Queen Mary University of London
