

SUSANNA KALLIO

Susanna Kallio works as the Head of Sustainability Standardization in Nokia, coordinating Nokia's efforts in external sustainability standardization.

Susanna holds a co-chair position in ITU-T group responsible for E-waste, circular economy, and sustainable supply chain management. She is also the editor & rapporteur for environmental impact of AI topics as well as active contributor in that area.

Susanna has a long career in standardization – working more than 25 years in different international standardization organizations, like 3GPP, ETSI, ITU-T, ISO, CEN/CENELEC, etc. For past 15 years, she has been active in telecom specific sustainability standardization in ETSI, ITU-T, and CEN/CENELEC. Her main areas of expertise include environmental impact assessment, Life Cycle Assessment methodology, circularity, and environmental impact of AI systems.

Susanna received her master's degree in electrical engineering from the Technical University of Espoo, Finland.
