

AMANDA MACARTHUR

Head of Strategic Partnerships and Communications, Nexleaf Analytics

As the Head of Strategic Partnerships and Communications, Amanda leads her team to grow the impact of Nexleaf through innovative partnerships and impactful storytelling. She strives to build long-term, mutually beneficial relationships that leverage each partner's unique attributes to solve complex societal challenges.

Amanda has over twenty years of experience catalyzing and shepherding cross-sector and multi-stakeholder partnerships across the public, private, and social sectors in more than 30 countries and across six continents. Before joining Nexleaf, Amanda was the Chief Program Officer at PYXERA Global, where she built and led a global team to implement social impact partnerships involving multinational corporations, government agencies, and grassroots organizations. She has designed and facilitated award-winning partnerships for John Deere, IBM, Pfizer, and USAID, among others.

NELIMA OTIPA

Senior Technical Advisor, Nexleaf Analytics

Nelima has over 10 years of experience in Research, Monitoring & Evaluation, and Project management, working in the implementation of projects in Reproductive Health, HIV, Maternal and Child Health, and Non-Communicable Diseases, as well as research projects in these program areas. She has worked in different capacities that have highlighted the importance of data and, in turn, shaped her interest in telling data stories. Nelima is passionate about using technology to improve efficiency and data to inform decision-making.
