**Administrative Circular
CAR/318**

23 June 2011

To Administrations of Member States of the ITU

Subject: Radiocommunication Study Group 6 (Broadcasting service)

- **Proposed adoption of 1 draft revised Recommendation and its simultaneous approval by correspondence in accordance with § 10.3 of Resolution ITU-R 1-5 (Procedure for the simultaneous adoption and approval by correspondence)**
- **Proposed suppression of 2 Recommendations**

At the meeting of Radiocommunication Study Group 6, held on 23 and 24 May 2011, the Study Group decided to seek adoption of 1 draft revised Recommendation by correspondence (§ 10.2.3 of Resolution ITU-R 1-5) and further decided to apply the procedure for simultaneous adoption and approval by correspondence (PSAA), (§ 10.3 of Resolution ITU-R 1-5). The title and summary of the draft Recommendation is given in Annex 1. Furthermore, the Study Group proposed the suppression of 2 Recommendations which are listed in Annex 2.

The consideration period shall extend for 3 months ending on 23 September 2011. If within this period no objections are received from Member States, the draft Recommendations shall be considered to be adopted by Study Group 6. Furthermore, since the PSAA procedure has been followed, the draft Recommendations shall also be considered as approved. However, if any objection is received from a Member State during the consideration period, the procedures given in § 10.2.1.2 of Resolution ITU-R 1-5 shall apply.

After the above-mentioned deadline, the results of the PSAA procedure shall be announced in an Administrative Circular (CACE) and the approved Recommendations published as soon as practicable.

Any ITU member organization aware of a patent held by itself or others which may fully or partly cover elements of the draft Recommendation(s) mentioned in this letter is requested to disclose such information to the Secretariat as soon as possible. The Common Patent Policy for ITU-T/ITU-R/ISO/IEC is available at <http://www.itu.int/ITU-T/dbase/patent/patent-policy.html>.

- ITU-R Associates participating in the work of Radiocommunication Study Group 6
- ITU-R Academia

Annex 1

Title and summary of the draft Recommendation

Draft revision of Recommendation ITU-R BT.1888

Doc. 6/337(Rev.1)

Basic elements of file-based broadcasting systems

The draft revision of Recommendation ITU-R BT.1888 includes the description of a newly developed file-based broadcast system as a new informative Appendix.

Although Recommendation ITU-R BT.1888 was approved in March 2011, WP 6B believes that the proposed revision conforms to § 6.1.2 of Resolution ITU-R 1-5 since it is intended to complement the information rather than to change the normative specifications.

Annex 2

(Source: Documents [6/362](#) and [6/367](#))

List of Recommendations proposed for suppression

Recommendation ITU-R	Title
BT.1382	Assessment of the picture quality of multi-programme services
BT.811	The subjective assessment of enhanced PAL and SECAM systems
