Circular Telegram

27 June 2025

CTITU/A25

11M(SSS)O-2025-001930

**To Administrations of Member States of the ITU
(Gensel76 SSD)**

Subject: Application of Nos. 11.44/11.44.1 of the Radio Regulations, Resolution 49 (Rev. WRC-23) and/or Resolution 552 (Rev. WRC-23), to satellite networks for which 7-year regulatory period will expire between 1st January and 30th June 2026

1. The Radiocommunication Bureau hereby draws the attention of all administrations to the provisions of Nos. **11.44** and **11.44.1** of the Radio Regulations and the related Rules of Procedure as well as to §11 of Annex 1 of Resolution **49 (Rev. WRC-23)** and/or §8 of Annex 1 of Resolution **552 (Rev. WRC-23)**.
2. These provisions stipulate that the assignments included in a request for coordination shall be cancelled by the Bureau unless:
 - the assignments in question have been brought into use,
 - the complete first notice for recording of these assignments under No. **11.15** has been received by the Bureau, by the end of the 7-year regulatory period as from the date of receipt of the relevant information under Nos. **9.1** or **9.2** for Advance Publication and **No. 9.30** for request for coordination, and
 - where applicable, the complete "due diligence" information submitted in accordance with Resolution **49 (Rev.WRC-23)** or in accordance with Resolution **552 (Rev.WRC-23)** has been received by the Bureau no later than 30 days following the end of the 7-year regulatory period.
3. No. **11.48** further stipulates that the corresponding Special Sections published under Nos. **9.2B** and **9.38** shall be cancelled.
4. In this context, the Bureau has prepared two lists of networks with an indication of their respective API date of receipt and 7-year regulatory period expiry date, which falls between 1st January and 30th June 2026 (inclusive), as follows:
 - 4.1. Annex 1 contains the list of networks for which no notification information seems to have yet been received by the Bureau (see also §5 below), with an indication where the Bureau does not seem to have yet received the "due diligence" information.

- 4.2. Annex 2 (see also §6 below) contains the list of networks for which notification information, having been received:
- a) is under examination, or
 - b) was returned to the administration as the result of an unfavourable finding, or
 - c) was recorded in the MIFR as the result of a favourable finding.

Annex 2 also contains an indication where the Bureau does not seem to have yet received the “due diligence” information in accordance with Resolution **49 (Rev.WRC-23)** or Resolution **552 (Rev.WRC-23)** for those networks.

5. The Bureau requests your Administration to kindly verify the attached lists and submit the notification information under No. **11.15**, if not yet done, before the indicated expiry of the 7-year regulatory period, either with all the required agreements obtained (No. **11.32**), or with a statement that coordination with some administrations could not be successfully completed and it is requested to apply the provisions of Nos. **11.32A**, **11.35** or **11.41** subject to provision No. **11.41.2**, as appropriate, with respect to certain missing agreements. Please also note that when application of No. **11.32A** is requested, it is possible to capture the status of coordination at satellite networks level to obtain more accurate C/I results, and to inform other administrations of these obtained agreements.

6. With respect to the notification information received and considered under a), b) or c) of §4.2 above, no action may be needed, nevertheless, similar or additional notification information may still be submitted before the indicated expiry of the 7-year period, in order to cover all the frequency assignments included in the request(s) for coordination or for advance publication information, according to the case.

7. Your Administration is also kindly requested to check further whether any of its networks, not listed in the Annexes, also fall into the above category and, if so, to submit the notification information as mentioned in §5 and 6 above for the corresponding assignments still at the coordination stage or published as an advance publication information, according to the case, and for which the 7-year regulatory period will expire between 1st January and 30th June 2026.

8. The attention of your Administration is also drawn to the fact that, for the networks identified with an “X” in the Annexes, the Bureau does not seem to have received the “due diligence” information, which, for networks subject to *resolves* and §1 of Annex 1 to Resolution **49 (Rev.WRC-23)** or *resolves 1* of Resolution **552 (Rev.WRC-23)**, is to be provided no later than 30 days following the end of the 7-year regulatory period referred to above.

9. For networks for which the “due diligence” information has already been received, your Administration is also kindly requested to check whether these networks contain frequency assignments in frequency bands not covered by that “due diligence” information and, if so, to submit the completed “due diligence” information before the expiry period.

10. Please note that this communication is to be considered as the Bureau’s advance notice referred to in Nos. **11.44/11.44.1** and in §10 of Annex 1 to Resolution **49 (Rev. WRC-23)**.

11. The Bureau trusts that your Administration will provide the required information as indicated above. In the event that the assignments are not brought into use or the notification or “due diligence” information are not received by the Bureau within the specified period, the Bureau will initiate the cancellation of the relevant assignments under No. **11.48**.

12. The Bureau remains at your disposal for any further information and clarifications that may be needed in respect to this matter. The contact person concerning this matter is Mr. Jorge Ciccorossi, telephone: +41 22 730 5324, fax: +41 22 730 5785, e-mail: brmail@itu.int.

A handwritten signature in black ink, appearing to read 'Vallet', with a stylized flourish at the end.

Alexandre Vallet
Chief, Space Services Department
