

RESOLUTION ITU-R 22-5

Improvement of national radio spectrum management practices and techniques

(1990-1997-2007-2012-2015-2019)

The ITU Radiocommunication Assembly,

considering

- a)* that the administrations of many developing countries need to strengthen their national radio-frequency management organization in order to effectively carry out their responsibilities at both the international and the national level;
- b)* that administrations of developing countries take into account the guidelines indicated in relevant ITU documents, including the ITU-R Handbooks on National Spectrum Management, Spectrum Monitoring and Computer-aided Techniques for Spectrum Management (CAT);
- c)* that Radiocommunication Study Group 1 continues the efforts to provide ITU-R Recommendations, Handbooks and Reports on national frequency management including the use of computer-aided spectrum management,

resolves

- 1 that Radiocommunication Study Group 1 should continue to take into account the special requirements of national spectrum management organizations from developing countries, as identified in Resolution 9 (Rev. Buenos Aires, 2017) and Resolution 10 (Rev. Hyderabad, 2010) of the World Telecommunication Development Conference, and devote particular attention to these matters during the regular meetings of the Study Group and its Working Parties;
- 2 that such meetings shall be aimed at developing practices and techniques to improve spectrum management and include discussions concerning the establishment of computer-aided spectrum management systems;
- 3 that personnel involved in spectrum management from developing and developed countries and representatives from BR are particularly invited to participate in the spectrum management studies of Study Group 1.
