

ITU publication NOTICE

Geneva, 4 March 2025

No. 282-25

BR International Frequency Information Circular (BR IFIC) Terrestrial Services 2025

The BR International Frequency Information Circular (BR IFIC) Terrestrial Services is a consolidated regulatory publication issued once every two weeks by the Radiocommunication Bureau, pursuant to the Radio Regulations (Nos. **20.1** to **20.6** and No. **20.15**) and various regional agreements. It contains information on the frequency assignments/allotments submitted by administrations to the Radiocommunication Bureau for recording in the Master International Frequency Register and in the various regional or worldwide Plans. The information published corresponds to the recorded assignments/allotments as well as the notifications in process. The BR IFIC (terrestrial services) may be consulted directly online (<https://www.itu.int/ITU-R/terrasys/>) or from an ISO file (<https://www.itu.int/pub/R-SP-LN.IT-2025>). The BR IFIC contains the query software TerRaQ, the program TerRaNotices for creation and validation of electronic notices and the Preface in PDF format.

The BR IFIC (Space Services) is published at the same time.

Member State administrations benefit from free access to the BR IFIC Online and the BR IFIC ISO files, accessible with TIES account.

Users who are not from Member State administrations shall designate a user for each subscription.

General conditions of sales

PRICES

The prices quoted in the ITU Catalogue of Publications, as well as in Publication Notices (distributed free of charge and visible on the ITU website at the following address: www.itu.int/publications), are in Swiss francs (CHF) and are subject to change without notice.

Discounts of 15 per cent are granted to ITU Member State Administrations, Sector Members and Associates. A non-cumulative discount of 80 per cent on all Publications is granted to Member State Administrations of Least Developed Countries (LDCs) and Academia Members, while a non-cumulative discount of 80 per cent is also granted to libraries of educational institutions with respect to Subscription Services and CD-ROM/DVD-ROM Publications only.

Catalogue prices of electronic publications (on CD-ROM, DVD-ROM, USB key and online) are given for single users. For corporations and institutions, multi-user licences are granted taking into account the number of authorized users. Please refer to the corresponding Publication Notices on the web. Please note that the minimum price for a publication bought from the Electronic Bookshop is twenty Swiss francs (CHF 20.–).

FORMS OF DISPATCH

The catalogue price includes the cost of dispatch by non-registered economy-class mail or the means of carriage most advantageous to ITU. Dispatch can be requested in other forms: i.e. airmail, DHL, Federal Express, TNT, or diplomatic pouch. If one of these alternative methods is chosen, the dispatch cost will be added to the quote. Clients may choose to provide the ITU with their own valid Fedex/DHL/TNT account number for shipping at his expense. If a freight forwarder is designated by the client, this client assumes all transport charges. The costs of shipping via registered mail have been added to the economy-class costs. Customer may refuse these conditions but, in this case, ITU will not be held responsible for the replacement of any undelivered orders dispatched by mail that has not been registered. Customs duties and other taxes or dues levied on imported goods are not borne by ITU. ITU accepts no responsibility for delay, loss or damage in shipment. Any claim must be made as quickly as possible, and at the latest within six months of dispatch of the publication(s).

RETURN OF PUBLICATIONS

Where a publication found to be faulty is returned to ITU, the latter's responsibility shall be limited to replacement of the publication and payment of the costs arising from such replacement. Any publication returned to ITU must reach it within one (1) month from the date of its dispatch to the customer, subject to ITU's prior agreement. A minimum charge of fifty Swiss francs (CHF 50.–) will normally be invoiced to the customer by ITU for return of the publication to stock.

No exchange or refund is available for purchases made directly at the ITU Bookshop.

In the case of electronic publications (CD-ROM, DVD-ROM, USB key and online), these general conditions shall apply, subject to the specific derogation provisions contained in the Licence Agreements. The placing of an order implies full acceptance of these general conditions of sale.

None of the provisions of these general conditions of sale shall be interpreted as constituting a derogation or renunciation of the privileges, immunities and facilities enjoyed by ITU in accordance with the international agreement applicable to it, in particular the Headquarters Agreement concluded with the Swiss Federal Council on 22 July 1971, as well as the Swiss law or any other relevant national legislation.

Licence agreement and disclaimer of warranty

1. The publications of the International Telecommunication Union ("ITU") are protected by copyright law. The publication contained herein ("Publication"), or any part thereof, may not be reproduced, by any means whatsoever, without the prior written authorization of ITU.

2. ITU hereby grants you a non-exclusive, non-transferable right to use the Publication, such use constituting your agreement with the terms and conditions of the present Licence Agreement.

3. The Publication may be placed on an internal network or internal website provided that access to the Publication is limited to the number of Authorized Users indicated in your order and that payment of the applicable fee is made to ITU. The Publication may not be placed on an external network or external website.

4. This product is provided without warranty of any kind. In particular, ITU does not warrant or make any representations regarding the use, or the results of use, of this product in terms of correctness, reliability or otherwise. Under no circumstances shall ITU be held liable for any direct or indirect damages arising out of the use of, or inability to use, this product.

RR5 Table of Frequency Allocations Software

2024

The ITU RR5 Table of Frequency Allocations Software (aka RR5 Software) is a stand-alone application that runs on individual user's PC and requires neither network nor Internet connection. It provides a mechanism to electronically use, query and analyse the Table of Frequency Allocations and its associated footnotes, as they appear in the Article 5 of Radio Regulations. The 2024 version, launched in October 2024, incorporates Radio Regulations 2024 and Rules of Procedure 2021 (Rev. 4 - 08/03/2024). The software is equipped with various tools and utilities that allow, among others, for the tracing and comparison of the evolution of the Article 5 Main Table and its associated footnotes and for the extraction of the Frequency Allocations "International Plan" for a given geographic area (country).
