Subject: Short Regional Radiocommunication Conference for the revision of the Stockholm 1961 Agreement

Dear Madam/Sir,

At its 2004 Session (9-18 June), the ITU Council adopted Resolution 1225 (see Annex hereto), which resolves:

- to convene a short Regional Radiocommunication Conference associated in time and place with the second session of the RRC, to revise the ST61 Agreement, with a view to harmonizing the parts of that Agreement that relate to the use of the frequency bands 174-230 MHz and 470-862 MHz by the broadcasting service with the agreement adopted by the second session of the RRC;
- that this conference will be held in Geneva, Switzerland, in the period between 15 May and 16 June 2006, for one and a half days spread over the indicated period, with the agenda included in the Resolution.

The precise place, the exact dates of the Conference, as well as its agenda, are subject to the concurrence of a majority of the Member States concerned (see Nos. 42 and 138 of the ITU Convention respectively).

Concerned Member States are all Member States of the Union belonging to the European Broadcasting Area. These Member States are, therefore, invited to inform the Secretary-General of their agreement of the place, dates and agenda of the Short Regional Radiocommunication Conference for the revision of the Stockholm 1961 Agreement, preferably by fax:

(+41 22 730 6675), by 15 September 2004 at 23h59 UTC, at the latest.

Highest consideration

Yoshio UTSUMI
Secretary-General
