SUMMARY

Mr Ki-Soo LEE has worked in the ITU Radiocommunication Bureau for more than 21 years and has an in-depth knowledge of the Radio Regulations and the Rules of Procedure in the various fields of the radiocommunication services through his extensive working experience within ITU. Before he retired from ITU at the end of September 2002, he was a leader of the Broadcasting-Satellite Service Plans Team (Appendices 30 and 30A of the Radio Regulations) and acting Head of the Space Notification and Plans Division of BR during the period of 1 May - 10 December 2001. At the WRC-2000 Conference (Istanbul), he played an active role as a member of the Broadcasting-Satellite Service Replanning Team of the Radiocommunication Bureau for the successful revision of the Broadcasting-Satellite Service and the associated Feeder-link Plans and inclusion of the Lists of Regions 1 and 3. He has participated in the work of the various study groups and conferences within ITU. He was also involved in the preparation of draft new or revised Rules of Procedure which are directly connected to the work of the Radio Regulations Board. On the basis of his extensive working experience within ITU and his considerable professional knowledge of the Radio Regulations and the Rules of Procedure, he will be able to make a valuable contribution to resolving the issues addressed to the Radio Regulations Board.
