INTERNATIONAL EXPERIENCE

Since 1963 to the eighties participated in the activities and meetings of the OSS. It was a regional telecommunication organization in Eastern Europe, dealing with the radio spectrum management and EMC issues.

During term in COMECON Institute in Moscow acquired knowledge, and experience in international standardization. Supervised international projects in radio spectrum management and EMC issues.

Since 1990 takes part in the activities of the European Radiocommunications Committee ERC whose purpose is to foster pan-European solutions in radio spectrum management and engineering. The Committee is a body of the CEPT² an all-European regional telecommunication and postal organization. In 1997 chosen ERC v-chairman, and kept this position to 2001, participating in the work of the steering team of the Committee.

As v-chair of the ERC chaired, from 1997 to 1998, the so called Reflection Group which successfully revised the mission and strategy of the Committee, and adopted them to rapidly changing regulatory and market conditions.

From 1998 to 2000 participated in a Special Group which, in the wake of the convergence phenomenon and quickly changing technical and legal environment, worked out the reorganization of the CEPT. Chaired one of the Project Teams of this Group.

Since 1992 joined the ITU activities, participating in the meetings of RAGs, RAs and WRCs, as a member of national delegation.

Accumulated a broad knowledge and wide experience in the radio spectrum management and EMC problems, and is fully aware of the urgent and complicated tasks the ITU is facing, especially in the field of radio spectrum management in the era of convergence, growing demand, and spectrum scarcity.

¹ COMECON - Council for Mutual Economic Assistance.

² CEPT - European Conference of Posts and Telecommunications Administrations.
