

Document WSIS/PC-2/9-E
3 January 2003
Original: English/French/Spanish

Note by the WSIS Executive Secretariat

ACCREDITATION OF NGOS, CIVIL SOCIETY AND BUSINESS SECTOR ENTITIES TO THE WORLD SUMMIT ON THE INFORMATION SOCIETY

1. UN General Assembly resolution A/RES/56/183 encouraged effective contributions and the active participation of all relevant UN bodies, in particular the ICT Task Force, and encouraged other intergovernmental organizations, including international and regional institutions, non-governmental organizations, civil society and the private sector to contribute to, and actively participate in, the intergovernmental preparatory process of the Summit and the Summit itself.
2. At PrepCom-1, Governments adopted Arrangements for accreditation (WSIS/PC-1/DOC/11 Annex 3 (see http://www.itu.int/wsis/docs/pc1/official/arrangements_accreditation.doc).
3. According to the Arrangements for accreditation, requests for accreditation have to be submitted by mail or by fax to the Executive Secretariat. The deadline for submitting accreditation applications is six weeks before the start of each Preparatory Committee meeting. The Executive Secretariat, with the assistance of the United Nations Non-Governmental Liaison Service (NGLS), is asked to review the relevance of the work of the applicants on the basis of their background and involvement in information society issues and to make recommendations to the Preparatory Committee for its decision on the accreditation of those NGOs, civil society and business sector entities which are considered competent and whose activities are relevant to the work of the Summit. The Executive Secretariat is to circulate the list of entities recommended for accreditation to Member States two weeks before the start of each Preparatory committee meeting.
4. The Executive Secretariat has received and evaluated the completed applications received by 5 January 2003. The present document contains in **Annex 1** the list of NGOs and civil society entities and in **Annex 2** the list of business entities recommended by the Executive Secretariat for accreditation at this stage. Included in these lists are the entities for which provisional accreditation had been granted at PrepCom-1 and who fulfill the conditions set down in the Arrangements for accreditation.

5. The Arrangements for accreditation stipulate further that those non-governmental organizations currently in consultative status with ECOSOC, that wish to attend the Preparatory Committee meetings and the Summit must inform the Executive Secretariat and register to participate. As a rule, they shall be considered as accredited. The list of such non-governmental organizations is to be circulated to Member States two weeks before the session of the Preparatory Committee. Therefore, **Annex 3** contains the list of those NGOs which are currently in consultative status with ECOSOC and who have expressed their wish to participate in the Preparatory Committee meetings and the Summit.

ANNEX I

NGOs and civil society entities recommended by the Executive Secretariat for accreditation to the World Summit on the Information Society

The Communications and Information Commission of the Argentine Chamber of Deputies is active in the approval process for legislation on any issue or project concerning licensing, regulatory regime, government and works, private or State systems, relating to internal or external communications of the nation, posts, telecommunications, broadcasting, television, social communication media and related activities, and any issue or project associated with the automatic processing of information by IT systems. The Commission has been active in the development and management by parliament of the draft laws on digital signature, computer crime, e-mail protection, and promotion of the software industry. Currently, the Commission is analysing the development of draft laws on e-commerce and establishment of the national information society system.

jovank@diplomacy.edu, www.diplomacy.edu
2002

The main goal of Diplo Foundation is to assist all countries, especially those with limited human and financial resources, to participate meaningfully in international affairs.

We try to achieve this goal through the use of information technology. IT-based tools offer possibilities for effective communication and interaction, and for the creation and dissemination of information and knowledge for diplomacy and international relations.

maike.sippel@yois.de www.yois.de

2000

YOIS is a youth organization independent of party politics. We are lobbying for the rights and interests of today's youth and future generations. Our focus is on young people for they are the most affected by the decisions taken today and mostly don't have a say or a lobby in today's decisionmaking. At the same time they will be the decisionmakers of tomorrow and therefore need to develop capacity to face the challenges of our world.

Youthful Initiatives for Economic, Environmental, Educational and Large-scale Development (YIELD)
