الموضوع: **الحدث متعدد الجوانب "كاليديوسكوب" لعام 2022 الذي ينظمه الاتحاد الدولي للاتصالات - الواقع الموسع - كيفية تعزيز جودة التجربة وقابلية التشغيل البيئي، أكرا، غانا (7-9 ديسمبر 2022)**

حضرات السادة والسيدات،

تحية طيبة وبعد،

1 في إطار سلسلة مؤتمرات كاليديوسكوب، وهي مبادرة للاتحاد الدولي للاتصالات (ITU) تهدف إلى زيادة التعاون مع الهيئات الأكاديمية ومؤسسات البحوث، يسرني إفاذكتم بعقد الحدث الرابع عشر في سلسلة المؤتمرات الأكاديمية المتطلعة إلى المستقبل والرامية إلى تحديد التطورات المستجدة في مجال تكنولوجيا المعلومات والاتصالات (ICT)، وخصوصاً المجالات التي تستدعي معايير دولية للمساعدة في تحقيق التنمية المستدامة لعالمنا الموصول. تطور مجتمع المعلومات على أسس سليمة. وسيُعقد حدث كاليديوسكوب لعام 2022 - **الواقع الموسع - كيفية تعزيز جودة التجربة وقابلية التشغيل البيئي**، في أكرا، غانا في الفترة 7-9 ديسمبر 2022.

2 ويدعو حدث **كاليديوسكوب 2022** إلى تقديم ورقات أكاديمية أصلية تتضمن رؤى بشأن المشاريع والبحوث الجارية ذات الصلة بتطوير الواقع الموسع واعتماده على نطاق واسع، إضافة إلى الإمكانيات الجديدة والتحديات ذات الصلة البادية في الأفق **ويشجع هذا المؤتمر بشكل خاص تقديم مساهمات عن الكيفية التي يمكن أن تساعد بها المعايير في تعزيز جودة التجربة وقابلية التشغيل البيئي في الواقع الموسع**. ويمكن الاطلاع على النص الكامل للدعوة إلى تقديم الورقات في **الملحق 1**. ويطلب والموعد النهائي لتقديم الورقات **6 يونيو 2022**.

3 وباب المشاركة مفتوح أمام الدول الأعضاء في الاتحاد وأعضاء القطاعات والمنتسبين والمؤسسات الأكاديمية وأمام أي شخص من بلد عضو في الاتحاد يرغب في المساهمة في العمل. ويشمل ذلك أيضاً الأفراد الأعضاء في منظمات دولية وإقليمية ووطنية. والمشاركة في الحدث مجانية.

4 ونشجع جميع أعضاء الاتحاد على الترويج لهذا الحدث في المجتمعات البحثية في بلدانهم.

5 وستُتاح معلومات تفصيلية حول التسجيل واللوجستيات في الصفحة الخاصة بهذا الحدث: <http://itu.int/go/K-2022> في وقت أقرب من موعد المؤتمر. ويُرجى ملاحظة أن التسجيل المسبق للمشاركين في هذا الحدث سيجري على الخط حصراً. وتفضلوا بقبول فائق التقدير والاحترام.

(توقيع)

هولين جاو
الأمين العام

14TH ITU ACADEMIC CONFERENCE

ITU KALEIDOSCOPE ACCRA2022

*Extended reality – How to boost
quality of experience and interoperability*

7-9 December 2022
Accra, Ghana

CALL FOR PAPERS

Hosted by

aiti ADVANCED
INFORMATION
TECHNOLOGY
INSTITUTE
GHANA-INDIA KOFI ANNAN CENTRE OF EXCELLENCE IN ICT

Organized by

ITU KALEIDOSCOPE

Kaleidoscope 2022 “Extended reality – How to boost quality of experience and interoperability” is the fourteenth in a series of peer-reviewed academic conferences organized by ITU to bring together a wide range of views from universities, industry and research institutions. The aim of the Kaleidoscope conferences is to identify emerging developments in information and communication technologies (ICTs) and, in particular, areas in need of international standards to aid the sustainable development of our interconnected world.

Call for papers

Theme

In a world where digital transformation continues to expand, immersive technologies that merge physical and virtual worlds are becoming more popular for their potential to improve our quality of life, explore new social and cultural dimensions, and unlock new business opportunities.

These technologies are known under the umbrella term of extended reality (XR), which includes forms of augmented reality (AR), mixed reality (MR), and virtual reality (VR). The promise of the metaverse, a term that recently gained attention, is to allow an even greater overlap of our digital and physical lives.

Despite remarkable technological advances, current XR applications are a largely individual and local experience. To deliver a widespread adoption of XR type of services and applications and achieve the vision of a metaverse, communication networks have a key role to play.

Which new technological advances in wireless network communications are needed to meet the low latency and high reliable requirements to support these immersive applications and services, and to ensure the best quality of experience for users in these conditions? Which solutions would be required to address power consumption and power-saving considerations? Which network communication standards and protocols can bring a significant contribution to foster interoperability among different platforms and providers? These are some of the questions that this conference aims to address.

Objective

Kaleidoscope 2022 calls for original academic papers sharing insight into ongoing projects and research relevant to the development and widespread adoption of extended realities, as well as new possibilities and associated challenges appearing on the horizon. Particularly, **this conference encourages submissions on how standards can help boost quality of experience and interoperability in extended realities.**

Audience

Kaleidoscope 2022 targets specialists in the fields of ICT and socio-economic development, including researchers, academics, students, engineers, policymakers, regulators and innovators.

Date and venue

Kaleidoscope 2022 will be held from 7-9 December at the Ghana-India Kofi Annan Centre of Excellence in ICT, Accra, Ghana.

Suggested (non-exclusive) list of topics

-
- Track 1:** Network infrastructure and architecture enabling ubiquitous communications
- Design, requirements, architectures and protocols for immersive systems
 - System architectures for augmented reality (AR), mixed reality (MR), virtual reality (VR), extended reality (XR), and immersive live experience (ILE)
 - Future mobile and wireless communications (5G and beyond)
 - Networking and multimode connectivity
 - Integration/exchangeability of processing storage and communication
 - Real-time performance and network latency aspects
- Track 2:** New applications and services
- Ubiquitous communications in arts, gaming, leisure, sports and in the media
 - Immersive live experience in business, education, information, healthcare, commerce and entertainment
 - Evolution of manufacturing and industrial production systems
 - Urban/geo planning and ecosystem services
 - Applications and services of new Web technologies (Web3.0)
- Track 3:** Enabling technologies
- Artificial intelligence (AI) and machine learning
 - Data processing and management
 - Interoperability
 - Video coding and streaming
 - Omnidirectional, 360-deg, immersive video, spatial audio
 - Conversational and speech interfaces
 - Visualization techniques, display technologies (e.g. head-mounted displays, eyewear, smart watches, projectors)
 - Touch, tangible and gesture interfaces
 - Digital twins, spatial computing
 - Multimodal input and output, localization, spatial registration and tracking
 - Quality of experience (QoE) aspects and assessment
- Track 4:** Security, privacy and trust
- Security architectures, trust, identity management, privacy protection mechanisms
 - The ergonomics of cyberattacks and security threats
 - Emerging privacy and security threats in cyber spaces
 - Threat models and attack strategies
 - Security applications and management
 - Distributed ledger technology, non-fungible token (NFT)
- Track 5:** Socio-economic and ethical aspects
- Standards, regulations and policies
 - Evolution of standardization for AR, MR, VR, XR, ILE
 - Ethical and legal issues in the new realities
 - Socio-economic implications

Submission of papers

Prospective authors from ITU Member States are invited to submit full, original papers. The submission should be within eight pages, including a summary and references, using the template available on the conference's website. All papers will go through a double-blind peer-review process. Submission must be made electronically; see <http://itu.int/go/K-2022>, author's corner, for more details on online submission (EDAS). Paper proposals will be evaluated according to content, originality, clarity, relevance to the conference's theme and, in particular, **significance to future standards**.

Deadlines

- Submission of full paper proposals: **20 June 2022**
- Notification of paper acceptance: **30 September 2022**
- Submission of camera-ready accepted papers: **21 October 2022**

Awards

A prize fund totaling CHF 6 000.- will be shared among the authors of the three best papers, as judged by the Steering and Technical Programme Committees. Authors are strongly recommended to make explicit in their paper, and in their presentation at the conference, how their research work is relevant to the conference theme and to future standards, as these criteria carry more weight in the award selection. Young authors of up to 30 years of age presenting accepted papers will receive Young Author Recognition certificates.

Keywords

Information and communication technologies (ICTs), standards, interoperability, quality of experience (QoE), digital transformation, 5G and beyond networks, ultra-low latency, resilience, reliability, augmented reality (AR), mixed reality (MR), virtual reality (VR), extended reality (XR), immersive live experience (ILE), spatial computing, smart systems, cyber physical systems (CPS), digital twins, metaverse, avatars, data privacy, information security, cyber threats and attacks, trustworthiness, blockchain.

Publication and presentation

Accepted and presented papers will be published in the Conference Proceedings. In addition, extended versions of selected papers might be considered for publication in international journals.

Technical Programme Committee

- Chairman: **Mostafa Hashem Sherif**, Consultant, United States

The Technical Programme Committee is composed of international ICT experts. Details are available at: <https://www.itu.int/en/ITU-T/academia/kaleidoscope/2022/Pages/techprogcom.aspx>.

Additional information

For additional information, please visit the conference website: <http://itu.int/go/K-2022>. Inquiries should be addressed to Alessia Magliarditi at kaleidoscope@itu.int.

General Chairman

- **Collins Yeboah-Afari**, Director-General, Ghana-India Kofi Annan Centre of Excellence in ICT (AITI-KACE), Accra, Ghana

Steering Committee

- **Christoph Dosch**, ITU-R Study Group 6 Vice-Chairman; ARD, Germany
- **Eva Ibarrola**, University of the Basque Country, Spain
- **Kai Jakobs**, RWTH Aachen University, Germany
- **Gyu Myoung Lee**, Liverpool John Moores University, United Kingdom
- **Tiziana Margaria**, University of Limerick, Ireland
- **Mitsuji Matsumoto**, Waseda University Emeritus Professor, Japan
- **Roberto Minerva**, Télécom SudParis, France
- **Mostafa Hashem Sherif**, Consultant, United States

Host Committee

- **Fred Yeboah**, Ghana-India Kofi Annan Centre of Excellence in ICT (AITI-KACE), Accra, Ghana
- **Yaw Okraku-Yirenkyi**, Ghana-India Kofi Annan Centre of Excellence in ICT (AITI-KACE), Accra, Ghana
- **Kwame Baah-Acheamfuor**, Ministry of Communications and Digitalisation, Accra, Ghana
