

Prototype of New MOU Reporting

CWG-FHR : January 2024

Mandate / Decisions

- PP22 decided to maintain the decision of the PP18 to instruct the Secretary-General to continue “*to submit to the ordinary session of the Council for prior approval the MoUs that have substantial financial and/or strategic implications*”.
- PP22 further decided that “*a report on the other MoUs entered into by ITU during the relevant period will continue to be submitted*”.
- C23 invited the Secretary-General to **make improvements to the MoU dashboard based on the recommendations contained in Document C23/69.**

Prototype of New MOU Reporting

- As per the C23 outcomes, taking into account the contribution from Australia (C23/69), the Secretariat is preparing a new dashboard of MOUs / agreements
- For illustrative purposes, this presentation shows a prototype of the reporting in development.
- The format is being reviewed, along with categories or types of agreements etc, so the slides are prepared for illustration purposes only, and changes are to be expected before the version to be reported to C24 is ready.
