الموضوع: الحدث متعدد الجوانب "كاليدوسكوب" لعام 2024 الذي ينظمه الاتحاد الدولي للاتصالات - الابتكار والتحول الرقمي من أجل عالم مستدام، نيودلهي، الهند (21-23 أكتوبر 2024)

حضرات السادة والسيدات،  
تحية طيبة وبعد،  
في إطار سلسلة مؤتمرات كاليدوسكوب، وهي مبادرة للاتحاد الدولي للاتصالات (ITU) تهدف إلى تعزيز الحوار بين الهيئات الأكاديمية ومؤسسات البحث والتطوير، يسرّى إفادتكم بعقد الحدث الخامس عشر في سلسلة المؤتمرات الأكاديمية المتطلعة إلى المستقبل والرامية إلى تحديد التطورات المستجدة في مجال تكنولوجيا المعلومات والاتصالات (ICT)، وخصوصاً المجالات التي تستدعي معايير دولية للمساعدة في تحقيق التنمية المستدامة لعالمنا الموصول. وسيعقد حدث الابتكار والتحول الرقمي من أجل عالم مستدام في نيودلهي، الهند، في الفترة من 21 إلى 23 أكتوبر 2024 بالتزامن مع الجمعية العالمية لتقسيس الاتصالات لعام 2024 (WTS-24).

ويدعو حدث كاليدوسكوب 2024 إلى تقديم ورقات أكاديمية أصلية تستكشف آثار الابتكار التكنولوجي والتحول الرقمي على السياسات واللوائح والأطر القانونية والأخلاقية والاقتصاد والمجتمع. ويتم التركيز على كيفية مساهمة المعايير الدولية لتكنولوجيا المعلومات والاتصالات في تحقيق أهداف التنمية المستدامة للأمم المتحدة. ويمكن الاطلاع على النص الكامل للدعوة إلى تقديم الورقات في الملحق 1. والموعود النهائي لتقديم الورقات هو 29 أبريل 2024.

وباب المشاركة مفتوح أمام الدول الأعضاء في الاتحاد وأعضاء القطاعات والمنتسبين والمؤسسات الأكاديمية وأمام أي شخص من بلد عضو في الاتحاد يرغب في المساهمة في العمل. ويشمل ذلك أيضاً الأفراد الأعضاء في منظمات دولية وإقليمية ووطنية. والمشاركة في الحدث مجانية.

ونشجع جميع أعضاء الاتحاد على الترويج لهذا الحدث في المجتمعات البحثية في بلدانهم، بما في ذلك الجامعات، والهيئات الأكاديمية، ومؤسسات البحث والتطوير والشركات الناشئة. وسيتضمن البرنامج أيضاً جلسة خاصة تركز على الشباب والتقييس.

5 وستتاح معلومات تفصيلية حول التسجيل واللوگستيات في الصفحة الخاصة بهذا الحدث: في وقت أقرب من موعد المؤتمر. ويُرجى ملاحظة أن التسجيل المسبق للمشاركين في هذا الحدث سيجري عبر الإنترنت حصراً.

وتفضلا بقبول فائق التقدير والاحترام.

ANNEX

15<sup>TH</sup> ITU ACADEMIC CONFERENCE

# ITU KALEIDOSCOPE NEW DELHI 2024

*Innovation and digital transformation  
for a sustainable world*

21-23 October 2024  
New Delhi, India

---

## CALL FOR PAPERS

Hosted by

Organized by

# ITU KALEIDOSCOPE

## NEW DELHI 2024

**Kaleidoscope 2024: Innovation and digital transformation for a sustainable world** is the fifteenth in a series of peer-reviewed academic conferences organized by ITU to bring together a wide range of views from universities, industry and research institutions. The aim of Kaleidoscope is to foster collaboration and discussion on emerging trends in technologies for a digital and sustainable transformation that can benefit humanity.

## CALL FOR PAPERS

### Preamble

The United Nations (UN) 2030 Agenda for sustainable development, which includes the 17 Sustainable Development Goals ([SDGs](#)), recognizes that “*the spread of information and communication technology and global interconnectedness has great potential to accelerate human progress, to bridge the digital divide and to develop knowledge societies, as does scientific and technological innovation across areas as diverse as medicine and energy*”.

The UN Secretary-General’s vision on the future of global cooperation puts forward an upgraded UN that can offer more relevant, system-wide, multilateral and multi-stakeholder solutions to better respond to humanity’s most pressing challenges, focusing significantly on innovation and digital transformation.

Sustainable digital transformation and universal connectivity are ITU’s main goals, as indicated in the Union’s Strategic Plan, which put forward a clear vision for “*an information society, empowered by the interconnected world, where telecommunication/information and communication technologies (ICTs) enable and accelerate social, economic and environmentally sustainable growth and development for everyone*”.

### Theme

The theme of the fifteenth edition of the ITU Kaleidoscope academic conference captures the ongoing global efforts to harness the power of technology for positive and sustainable change.

The landscape of innovation and digital transformation is evolving at an unprecedented pace, influencing every aspect of our lives, and profoundly impacting global development. As we strive to achieve the SDGs and address pressing societal and environmental concerns, the role of ICTs becomes pivotal.

The conference invites contributions that delve into cutting-edge research, transformative technologies, and innovative practices that underpin the digital revolution with a focus on sustainability and standardization. From the fundamental restructuring of network infrastructures to the applications shaping sustainable development, and the enabling technologies driving these advancements, we seek to explore the multidimensional facets of innovation and digital transformation.

## Objective

The fifteenth Kaleidoscope conference calls for original, academic papers exploring technological innovation and digital transformation's implications for policy, regulation, legal and ethical frameworks, the economy, and society. **Emphasis is placed on how international ICT standards contribute to achieving the UN SDGs.**

## Audience

Kaleidoscope 2024 targets specialists in the fields of ICT and socio-economic development, including researchers, academics, students, engineers, policymakers, regulators, and innovators.

## Date and venue

21-23 October 2024, in conjunction with the World Telecommunication Standardization Assembly 2024 (WTSA-24), 15-24 October - [www.itu.int/wtsa/2024/](http://www.itu.int/wtsa/2024/)

## Submission of papers

Submission of full, original papers should be within eight pages, including a summary and references, using the template available on the event website. All papers will go through a double-blind peer-review process. Submission must be made electronically; see <http://itu.int/go/K-2024> for more details on online submission (EDAS). Paper proposals will be evaluated according to content, originality, clarity, relevance to the conference's theme and, in particular, significance to future standards.

## Deadlines

Submission of full paper proposals: **29 April 2024**

Notification of paper acceptance: **12 July 2024**

Submission of camera-ready accepted papers: **2 August 2024**

## Publication and presentation

Accepted and presented papers will be published in the Conference Proceedings.

## Awards

A prize fund totalling CHF 6,000 will be shared among the authors of the three best papers, as judged by the Steering and Technical Programme Committees. In addition, young authors of up to 30 years of age presenting accepted papers will receive Young Author Recognition certificates.

## Keywords

Artificial intelligence, cloud computing, digital transformation, extended reality, green communications, human-oriented technologies, Internet of Things, machine learning, metaverse, mobile and wireless communications, regulation and standardization, security and privacy in cyberspace, technological innovation, UN agenda for sustainable development

## Suggested (non-exclusive) list of topics

### Track 1

Technology, next-generation network architectures

- Future mobile and wireless communication networks and network infrastructures (5G and beyond)
- Energy-efficient cloud computing and sustainability
- Cyber-physical systems for environmental monitoring and management
- System architectures for extended Reality (XR), metaverse, and Immersive Live Experience (ILE)
- Security, privacy, and trust in decentralized and distributed systems
- Edge computing and fog computing for real-time applications
- Machine learning and AI-driven optimization in sustainable solutions: Quality of Service (QoS), Quality of Experience (QoE) and performance
- Network resilience in disaster relief and recovery systems
- Quantum communication for secure and resilient networks
- Optical and wireless communication convergence system
- Long-distance and ultra-high-speed transmission network systems (terabit, exabit)
- Efficient communication and design in IoT and sensor networks
- Circular economy approaches in ICT waste management

### Track 2

Applications and services for sustainable development

- AI-driven personalized e-services for health and well-being
- IoT applications for water quality monitoring and sanitation
- Sustainable energy services
- Smart transportation and urban mobility applications
- Data analytics for monitoring and assessing development goals
- Robotics and drones for eco-friendly applications
- Technology for aging in place and ambient assistive living
- Sustainable smart cities and communities
- Provision of adequate security and privacy services

### Track 3

Enabling technologies

- Data processing, management and analytics
- Interoperability in decentralized and distributed systems
- Next-generation human-computer interaction
- Location-based services and spatial registration technologies
- Semantic computing and communications
- Service chaining, orchestration and federation
- Technology convergence: computing network convergence, IT/OT (operational technology) convergence, etc.
- Modelling and simulation for digital twins and digital humans
- Emerging AI techniques and algorithms including Generative AI
- Edge intelligence with on device AI
- Blockchain/distributed ledger technologies with incentive and consensus mechanisms
- Technologies for quality and sustainable online education
- Alternate technology options for rural connectivity
- Integration of existing mechanisms to provide for security and privacy

## Track 4

Social, economic, environmental and policy aspects for sustainable development

- Standards and regulations for sustainable development and sustainable ICT solutions
- ICT strategies for sustainable development
- Regulatory mechanisms under the convergence paradigm
- Environmental implications of cloud computing services
- Accessibility and usability in technology solutions
- Engineering education for sustainable development
- Modelling of the role of technology in society
- Intellectual property rights in the digital era
- Conformance and interoperability for global technology adoption
- Regulation to enforce adequate security and privacy mechanisms
- Generating a sustainable echo-system for the Startups

## Steering Committee

**Christoph Dosch**, Former Chairman of ITU-R Study Group 6; ARD, Germany

**Debkumar Chakrabarti**, Ministry of Communications, India

**Eva Ibarrola**, University of the Basque Country, Spain

**Kai Jakobs**, RWTH Aachen University, Germany

**Gyu Myoung Lee**, Liverpool John Moores University, United Kingdom

**Tiziana Margaria**, University of Limerick, Ireland

**Mitsuji Matsumoto**, Waseda University Emeritus Professor, Japan

**Roberto Minerva**, Télécom SudParis, France

**Vishnu Ram OV**, Independent Consultant, India

**Mostafa Hashem Sherif**, Consultant, United States

**Atul Sinha**, Ministry of Communications, India

## Technical Programme Committee

**Mostafa Hashem Sherif**, Consultant, United States

The Technical Programme Committee is composed of international subject-matter experts. Details will be available shortly at <http://itu.int/en/ITU-T/academia/kaleidoscope/2024/Pages/progcom.aspx>.

## Additional information

For additional information, please visit the conference website: <http://itu.int/go/K-2024>. Inquiries should be addressed to Alessia Magliarditi at [kaleidoscope@itu.int](mailto:kaleidoscope@itu.int).
