

ITUPP
DOHA2026

Plenipotentiary Conference (PP-26)
9-27 November 2026 - Doha, Qatar

PLENARY MEETING

Document 17-E
26 January 2026
Original: English

Note by the Secretary-General

CANDIDACY FOR THE POST OF MEMBER OF THE RADIO REGULATIONS BOARD (RRB)

Further to the information published in Document 3, I have the pleasure in transmitting to the Conference, in annex, the candidacy of:

Dr Jongmin Park (Korea (Republic of))

for the post of member of the Radio Regulations Board.

Doreen BOGDAN-MARTIN
Secretary-General

Annex: 1

KGV/18/2026

The Permanent Mission of the Republic of Korea to the United Nations and Other International Organizations in Geneva presents its compliments to the International Telecommunication Union (ITU) and has the honor to inform the latter that the Government of the Republic of Korea has decided to present its candidature for a seat on the ITU Council for the term 2027-2030 and the candidature of Dr. Jongmin PARK for the member of Radio Regulations Board (RRB) for the same term at the elections to be held during the ITU Plenipotentiary Conference in Doha, Qatar, from 9 to 27 November 2026.

In this regard, a nomination letter from H.E. Dr. Kyunghoon Bae, Deputy Prime Minister and Minister of Science and ICT, presenting the candidacy of the Republic of Korea to the ITU Council and the candidacy for the member of the RRB, along with Dr. Jongmin PARK's curriculum vitae and vision statement, is attached.

The Permanent Mission of the Republic of Korea to the United Nations and Other International Organizations in Geneva avails itself of this opportunity to renew to the International Telecommunication Union (ITU) the assurances of its highest consideration.

26 January 2026

Enclosed: As stated

International Telecommunication Union (ITU)

Ministry of Science and ICT
Republic of Korea

H. E. Ms. Doreen Bogdan-Martin
Secretary General
International Telecommunication Union (ITU)
Place des Nations, CH-1211 Geneva 20, Switzerland

January 8, 2026

Your Excellency,

It is a great honor to formally inform you that the Republic of Korea has decided to present its candidature for the next ITU Council.

As you are well aware, ever since joining the Union in 1952 and becoming a Council Member for the first time at the 1989 Nice Plenipotentiary Conference, Korea has been significantly contributing to the development of ITU.

In addition, Korea has been making continuous efforts toward the development of ITU and the global ICT sector by expanding its contribution to ITU, carrying out joint MSIT-ITU cooperative projects, and hosting the 2014 ITU Plenipotentiary Conference and ITU Telecom World 2017.

Korea has decided to seek re-election to the next ITU Council to further strengthen and continue its efforts to contribute to the international community in this challenging time. It pledges to do its best as a Council member.

I also would like to inform you that Korea has decided to present the candidature of Dr. Jongmin Park for a position on the Radio Regulations Board (RRB).

Dr. Park has devoted himself to the radiocommunication sector for over 25 years, with particular focus on satellite network registration and spectrum management,

Ministry of Science and ICT
Republic of Korea

including the regulatory frameworks. He has attended World Radiocommunication Conferences (WRCs) since 2000, with responsibility for agenda items relating to both terrestrial and space services. In support of these Conferences, he has contributed actively to ITU-R Study Groups, Asia-Pacific Telecommunication (APT) preparatory groups, and Conference Preparatory Meetings (CPMs) in various capacities, including national delegate, Sub-Working Group Chair, and CPM Vice-Chair.

Thanks to his long experience in radiocommunication regulation and technical matters, Dr. Park is resolved to uphold the mandate of the RRB through three essential commitments: the consistent application of the radio regulations in accordance with the fundamental principles of ITU, the maintenance of technical integrity grounded in factual and documented evidence, and the provision of equitable treatment for all Member States. I am certain that Dr. Park possesses the necessary qualifications and experience to serve with distinction as a member of the RRB. His detailed curriculum vitae is enclosed herewith.

The Korean government is convinced that Dr. Jongmin Park will significantly contribute to the development of ITU and the global ICT sector, and is committed to providing fullest support during his term as a member of the RRB.

Your kind support will be greatly appreciated.

Yours Sincerely,

Kyunghoon Bae
Deputy Prime Minister and
Minister of Science and ICT
Republic of Korea

JONGMIN PARK

Candidate for Member of the Radio Regulations Board
Region E: Asia and Australasia

VISION STATEMENT

The Radio Regulations Board (RRB) ensures the fair and consistent application of the Radio Regulations. With rapid developments in radiocommunications-such as the expansion of non-geostationary satellite systems and the growing interconnection of space and terrestrial networks- the Board's role has become more vital than ever. Drawing upon more than 25 years of experience in frequency management, satellite coordination, and international regulatory work, I am committed to serving the Board with impartiality and technical expertise, while upholding equitable access to spectrum and orbital resources for all Member States.

Consistent Application of the Radio Regulations

The Board's effectiveness relies on consistent and transparent interpretation of regulatory provisions.

I will support efforts to clarify procedures, enabling administrations to plan and coordinate their networks with greater confidence. Where appropriate, I will promote practical measures to assist administrations-particularly those with limited resources -in applying the regulations efficiently and effectively.

Technical Assessment of Interference and Coordination

The Board addresses issues related to interference, coordination, and the equitable use of spectrum and orbital resources.

My technical background will contribute to decisions grounded in verifiable evidence and objective technical criteria. I also recognize the differing levels of technical capacity among administrations and will work to ensure that regulatory processes remain accessible and comprehensible to all.

Equitable Access to Spectrum and Orbital Resources

The ITU Constitution emphasizes that spectrum and orbital resources shall be used efficiently and equitably by all Member States.

I will support fair and transparent decisions aligned with this principle, taking into account the unique challenges faced by developing countries and ensuring that every administration can exercise its rights on an equal basis.

Contribution to Conference Preparation

The Board's experience in applying the Radio Regulations provides valuable insight for the work of World Radiocommunication Conferences.

I will contribute to this process by identifying issues requiring clarification or revision in the Radio Regulations and the Rules of Procedure, ensuring that such discussions consider the practical realities of all Member States.

Cooperation Among Member States

The Board's effectiveness rests upon the confidence of Member States in its impartiality and competence.

I will approach every case with objectivity, transparency, and respect for all parties. The Board must serve as a trusted forum where technical expertise and fair procedures converge to resolve disputes and clarify regulatory requirements.

Commitment

If elected, I will perform my duties with diligence, impartiality, and respect for all Member States.

As technology evolves, the Radio Regulations must also adapt while preserving the principles of fairness, clarity, and balance that underpin international cooperation.

CURRICULUM VITAE

JONGMIN PARK

Candidate for Member of the Radio Regulations Board
Region E: Asia and Australasia

PERSONAL INFORMATION

- **Name** Jongmin PARK
- **Date of Birth** 25 February 1969
- **Nationality** Republic of Korea
- **Marital Status** Married, two children
- **Languages** Korean (mother tongue), English (fluent)
- **Current Position** Principal Researcher, Electronics and Telecommunications Research Institute (ETRI)
- **E-mail** jongmin@etri.re.kr

EDUCATIONAL BACKGROUND

- Ph.D. in Radio Sciences and Engineering, Chungnam National University, Republic of Korea (2010)
- M.Sc. in Communication and Control Engineering, Chungnam National University, Republic of Korea (1993)
- B.Sc. in Electronic Engineering, Chungnam National University, Republic of Korea (1991)

PROFESSIONAL EXPERIENCE

1993-2000

Senior Researcher, Agency for Defense Development (ADD), Republic of Korea

- Provided engineering support for electro-optical tracking and instrumentation radar systems
- Developed radar cross section measurement technique

2000-Present

Principal Researcher, Electronics and Telecommunications Research Institute (ETRI)

Terrestrial Services

- Conducted feasibility studies on High Altitude Platform Stations (HAPS) including system simulation, antenna prototype development, interference analysis and regulatory framework development

- Performed technical and regulatory studies on HAPS for international standardization (ITU-R)
- Conducted studies on coordination procedures for terrestrial radiocommunication systems between neighbouring countries

Space Services

- Conducted studies on satellite transmission technologies for IMT-2000 and its enhancement
- Conducted satellite network coordination and regulatory studies supporting the GSO networks and non-GSO systems of the Republic of Korea
- Represented Korea (Rep. of) in international coordination meetings with multiple administrations to secure orbital and spectrum resources for Korean satellite networks

National Spectrum Policy

- Conducted national policy advisory work on frequency planning for terrestrial and space services in alignment with ITU-R regulatory framework

ITU AND INTERNATIONAL EXPERIENCE

2001–Present

Active participant in ITU-R activities

World Radiocommunication Conferences (WRC)

- WRC-03, 07, 12, 15, 19 and 23 — Delegation member with primary responsibility for HAPS and satellite agenda items including agenda item 7
- Chairman, Sub-Working Group 5C-1.8 (WRC-07)

Conference Preparatory Meetings (CPM)

- CPM-02, 07, 11, 15, 19 and 23 — Delegation member with primary responsibility for HAPS and satellite agenda items including agenda item 7
- Chapter Rapporteur for CPM-23 (2019–2023)
- Vice-Chair of CPM-27 (2023–Present)

ITU-R Study Groups and Working Parties

- Active participation in JTG 6-8-9, Working Parties 9B, 4-9S, 8D/F, 5A/C/D, 7C, 4A/B/C and Special Committee (SC-WP)
- Authored and co-authored more than 130 contributions to ITU-R on spectrum sharing, interference criteria and regulatory studies, contributing to the development

of new Recommendations and the revision of existing Recommendations and Reports

- Notably, served as author or co-author of new Recommendations ITU-R M.1641 (2003), F.1764 (2006), SF.1843 (2007) and M.2164 (2023)
- Chairman, Drafting Group 5C-3a (WP 5C, 2008)

APT Conference Preparatory Groups (APG)

- APG-03, 07, 12, 15, 19, 23 and 27 — Topic Coordinator and Drafting Group Chair for HAPS agenda items; delegation member with primary responsibility for HAPS and satellite agenda items including agenda item 7

AWARDS AND RECOGNITION

- Minister's Award, Ministry of Information and Communication, Republic of Korea (2003)
- Minister's Award, Ministry of Science, ICT and Future Planning, Republic of Korea (2014)
- Minister's Award, Ministry of Science and ICT, Republic of Korea (2020)
- ICT International Standardization Maestro, Ministry of Science and ICT, Republic of Korea (2025)
