**Subject: AI for Good Global Summit
(21-24 June 2027, Palexpo, Geneva, Switzerland)**

Dear Sir/Madam,

It is my pleasure to invite your delegation to participate in the [AI for Good Global Summit](#) which will take place from 21 to 24 June 2027 at Palexpo, in Geneva, Switzerland. As the leading United Nations (UN) platform on Artificial Intelligence (AI), the Summit is organized by the International Telecommunication Union (ITU) in partnership with 53 UN partners and co-convened with the Government of Switzerland.

The mission of AI for Good is to unlock AI's potential to serve humanity. As a multi-stakeholder platform, AI for Good identifies innovative AI applications to solve global challenges, empowers people with the tools and knowledge to thrive in the AI era, and explores the evolving role of emerging AI technologies and standards in supporting policy frameworks and innovation. These activities are guided by Resolution 214 (Bucharest, 2022) of the ITU Plenipotentiary Conference, amplified by the landmark Resolution A/78/L.49 of the UN General Assembly (New York, 2024), and endorsed by the World Telecommunication Standardization Assembly (WTSA) Resolution 101 (New Delhi, 2024) which further emphasizes ITU's mandate and AI for Good's role in establishing trusted AI standards and providing capacity development to member states.

The [Geneva AI Summit 2027](#), organized by the Federal Department of the Environment, Transport, Energy and Communications (DETEC), in collaboration with the Federal Department of Foreign Affairs (FDFA), will be hosted back-to-back with the AI for Good Global Summit 2027, as well as the World Summit on the Information Society (WSIS).

Next year's edition will mark a special milestone — 10 years of AI for Good — and will commence with exhibitions, networking, and curated activities, ahead of the Summit's official opening on Wednesday, 23 June. From there, two action-packed days of programming will unfold across multiple stages, complemented by expert-led workshops and a broad range of opportunities to learn, exchange ideas, and collaborate.

I have the honour to invite your distinguished delegation to participate in the high-level discussions and networking engagements. The programme offers a dedicated opportunity for Heads of State or

Government to address the audience, and for senior government representatives to contribute to thematic panel deliberations. Additionally, if your country or organization would like to showcase its AI innovations, solutions, or thought leadership, we offer sponsorship opportunities including tailored events (workshops, networking lunches) and thematic, regional, or national AI pavilions. Download the 2027 Sponsorship and National Pavillion brochures at the following [link](#). Discounts are available on select packages for ITU Members from LDCs, LLDCs and SIDS.

I warmly invite you to take note of these opportunities and to encourage interested parties within your networks to participate in the 2027 edition of AI for Good Global Summit.

For any additional information the team remain at your disposal at ai@itu.int.

Yours faithfully,

(signed)

Doreen Bogdan-Martin
Secretary-General
