Allocations of savings achieved in 2023 budget implementation and exhibition working capital fund

The ITU Council,

having considered

the savings achieved in the implementation of the 2023 budget (result) that amount to CHF 1 423K plus CHF 1 734K on account of savings from previous year not used to balance the 2023 budget implementation,

having further considered

the balance of the Exhibition Working Capital Fund (EWCF) and the report by the Secretary-General on the status of the Information and Communication Technologies Development Fund (ICT-DF),

resolves

to allocate the 2023 budget surplus to the implementation of the World Radiocommunication Conference (WRC-23) decisions (CHF 1 423K), to allocate savings from previous years to the implementation of the transformation roadmap including the roadmap for website improvement, the Young Professional Programme (YPP), and the preparation of the World Telecommunication/Information and Communication Technology Policy Forum (WTPF-26) (CHF 1 734K), and to transfer the amount of CHF 465K from the EWCF to the ICT-DF.

RESOLUTION 925 (C-1985, last amended C19)

Financial conditions for the participation of the United Nations, the specialized agencies and other international organizations in the conferences, assemblies and meetings of the ITU

The Council,

recalling

that the agreement between the United Nations and the ITU provides for that body to be invited to participate in all conferences and assemblies of the Union, as well as in meetings of ITU Sector advisory and study groups and working bodies and all other meetings convened by the Union,

considering

a) that the Council, under the terms of No. 80 (Article 4) of the ITU Convention, is responsible for the coordination with all international organizations having related interests and activities, as referred to in Articles 49 and 50 of the Constitution;

b) that it is in the general interests of the specialized agencies in relation with the United Nations to cooperate within the limits of their powers in solving their common, related or complementary problems;

c) that under the terms of No. 476 (Article 33) of the Convention, the Council may exempt “subject to reciprocity” certain international organizations from any share in defraying the expenses of ITU conferences, assemblies and meetings;

d) that the only criterion in such cases should be the benefits and advantages that both the ITU and the organization in question may derive from their participation in the activities concerned,

having regard to

relevant resolutions of the United Nations General Assembly dealing with the question of liberation movements,

resolves

1 that the United Nations shall be exempted from all contributions to defraying the expenditure of ITU conferences, assemblies and meetings in which it participates;

2 that, subject to the provisions of Articles 23, 24 and 25 of the Convention and the General Rules of conferences, assemblies and meetings of the Union, the specialized agencies of the United Nations, the International Atomic Energy Agency and other organizations referred to in Nos 269A–269E (Article 23) of the Convention, shall be invited to take part in conferences, assemblies and meetings of the Union in an advisory capacity;

3 that, provided they accord reciprocity to the Union, the specialized agencies, the International Atomic Energy Agency and other organizations in accordance with Nos 269A–269E (Article 23) of the Convention shall be exempted from all contributions to defraying the expenditure of any ITU conferences, assemblies and meetings in which they participate;

4 that liberation organizations, recognised by the United Nations, in accordance with Resolution 6 (Kyoto, 1994) may attend at any time ITU conferences, assemblies and meetings as observers and shall be exempted from all contributions to defraying the expenditure of such ITU conferences, assemblies and meetings;

5 to instruct the Secretary-General:

5.1 in accordance with Nos 3 and 4 above, to establish and update, as required, a list of organizations exempted from all contributions to defraying the expenditure of ITU conferences, assemblies and meetings, comprising the following sections:

- regional telecommunication organizations;
- intergovernmental organizations operating satellite systems;
- regional and other international organizations;
- specialized agencies of the United Nations and the International Atomic Energy Agency;

5.2 to present the list of organizations, in accordance with No. 5.1 above, to the Council for consideration and approval;

5.3 to make publicly available on the ITU website the list of organizations, as approved by the Council;

5.4 to report to the Council on measures to implement this Resolution;

6 To maintain the list of organizations referred to in Section 4 of Resolution 925 (C-1985, last amended C-01) until the adoption by the Council of a replacement list in accordance with *decides* 5.2 of the present Resolution.

*** Definition of category for coordination (C) and notification (N)**

The category for coordination (C1, C2, C3) and for notification (N1, N2, N3) is related to the number of forms of coordination applicable to a particular satellite network coordination request or notification submission, as follows:

- C1 and N1 correspond to a satellite network filing referring to only one cost-recovery form of coordination (A, B, C, D, E or F). Both categories also include cases for which no form of coordination applies as a result of unfavourable finding under No. **11.31** of the Radio Regulations for all frequency assignments of the submitted filing, or cases including frequency assignments published for information only.
- C2 and N2 correspond to a satellite network filing referring to any two or three cost-recovery forms of coordination amongst A, B, C, D, E or F.
- C3 and N3 correspond to a satellite network filing referring to any four or more cost-recovery forms of coordination amongst A, B, C, D, E or F.

DECISION 545 (C07)

Non-payment of cost recovery fees relating to satellite network filings

The Council,

considering

- a) the revision of the methodology and scale of charges for cost recovery of the processing of space notices established in Decision 482 modified by the Council at its 2002 session;
- b) the need to provide some corrective measures regarding the deviations of the charging methodology for the processing of space notices as set out in Decision 482 (C02) for certain networks, leading to large invoices which may not be in line with the amount of work;
- c) that in Decision 513 the Council, at its 2003 session, agreed on the need to address the above issue on a temporary basis, pending a review of the charging methodology by the Council at its 2004 session;
- d) that the application of Decision 513 still resulted in some invoices having values significantly higher than CHF 100 000;
- e) that the Plenipotentiary Conference (Marrakesh, 2002), through its Resolution 88 (Rev. Marrakesh, 2002), has approved the principle of cancellation of a filing when the corresponding cost recovery payment has not been effected in due time and has set the date of 1 August 2003 to implement the corresponding provisions of the Radio Regulations;
- f) that in accordance with the Financial Regulations, all decisions concerning write-offs of debts of Member States shall remain the exclusive purview of the Plenipotentiary Conference;
- g) that the cancellation of the satellite network filing does not result in cancellation of the invoice issued by ITU;
- h) that Council 2005 established a revised mechanism for cost recovery of satellite network filings now included in Decision 482 (modified 2005) which has been so far satisfactory to the ITU membership,

taking account

that the Plenipotentiary Conference (Antalya, 2006) adopted Decision 10 on the implementation of additional correctives measures relating to cost recovery on satellite network filings; and

it authorized the Council to decide on the payment or non-payment of fees in respect of satellite network filings cancelled as a result of non-payment,

recognizing

that the Radiocommunication Bureau has carried out a considerable amount of work in order to process these networks and published them in a relevant BR IFIC before being cancelled as a result of non-payment,

recognizing further

that the Union is currently facing severe difficulty as a result of, on the one hand, maintaining zero growth in the contributory level and, on the other hand, reductions in the number of contributory units and increases in expenditures,

decides

1 that for satellite network filings cancelled as a result of non-payment pursuant to the relevant provisions of the Radio Regulations, the following fees shall apply:

– 50 per cent of the original fee on the pending invoices (Decision 10 (Antalya, 2006));

2 that the payment of revised invoices shall not reinstate the regulatory rights of any network which has been cancelled due to non-payment in accordance with the relevant provisions of the Radio Regulations;

3 that upon payment of the revised invoices, the cost recovery fees for the invoiced satellite network filings shall be considered satisfied;

4 to withdraw the necessary amount from the Reserve Account, that shall under no circumstances exceed the amount of CHF 2 760 000,

further decides

1 that the *decides* 1 and 2 above shall also apply to the satellite networks filings for which the payments have been received after the cancellation of the filings in accordance with the relevant provisions of the Radio Regulations;

2 that the above *decides* 1 to 2 shall only apply to cancelled satellite network filings received before 1 January 2006,

instructs the Secretary-General

to conclude repayment schedules with any Member States that so request following the revision of invoices relating to the implementation of cost recovery for satellite network filings concerned by this Decision in the light of Resolution 41 (Rev. Antalya, 2006).

DECISION 613 (C19)

General Audit Following the Case of Fraud at a Regional Office

The Council,

expressing its deep concerns

with respect to the misappropriations recently exposed, in particular their magnitude, ease of perpetration and of the weak detection mechanisms in place,

acknowledging the need

for effective oversight and audit mechanisms, effective people, processes, policies and procedures systems, clear delegation of authority on all processes and approvals, in order to enable timely, appropriate action to address concerns such as these, including through best practices that reflect the independence of the investigation process, strong ethics functions, and a corporate culture that encourages identifying and addressing institutional shortcomings,

recognising

the commitment, quality of work and integrity of the staff of the Union,

recognising further

the whistle-blower whose conduct allowed the uncovering of these misappropriations, and that further action is needed to strengthen whistleblower protections at the organization,

expressing its gratitude

to the Government of the Kingdom of Thailand for its willingness to assist with further investigation of the recently uncovered misconduct in the ITU Regional Office for Asia and the Pacific,

recalling

that the reputation of the Union relative to the diligent, careful, and efficient management of the funds put at its disposition by the contributing members and donors is of paramount importance,

having considered

the special report and recommendations by the External Auditor to address an instance of fraud at the ITU (Document [C19/106](#), the Secretary-General's response and Document [C19/108](#)), including all audit recommendations, in particular recommendations 9 and 11 and point IV in the executive summary of Document C19/106,

intending

to investigate all activities of the Union where misappropriations might have taken place, ensure that Council members have oversight of the reform process, and identify whether further reforms are needed,

decides to instruct the Secretary-General

- 1 to mandate an external enterprise specialized in financial crime investigations with carrying out a forensic audit of the International Telecommunication Union in order to identify any instances of fraud or other financial misconduct over the course of the past 10 years;
- 2 in consultation with IMAC, prior to tendering, to prepare the Terms of Reference for the external enterprise, to ensure that it takes into account vulnerabilities of the organisation to fraud, including but not limited to those already identified in ITU internal auditor, external auditor and IMAC reports and recommendations;
- 3 to ensure that the audit should determine in fact whether the organisation has suffered further loss or injury in addition to the known case of fraud in the ITU Regional office for Asia and the Pacific;
- 4 to recover funds lost and take action, including legal proceedings against the perpetrator and any other entities, as necessary;
- 5 to present the final report of the above-mentioned enterprise at the 2021 session of Council; such report including recommendations on strengthening ITU internal controls and management accountability; and interim reports shall be provided at the CWG-FHR meetings, to IMAC and Council-20 to take necessary action as appropriate,

further decides

that an initial amount of CHF 1.1 million be allocated to fund this forensic audit from the 2018 budget implementation savings in accordance with relevant Council Decisions; the financial allocation could be reviewed by Council-20,

further instructs the Council Working Group on Financial and Human Resources

based on conclusions of the audit, and in consultation with the Ethics Office and the Internal Audit Unit, to recommend actions for ITU Council to strengthen the independence of ITU oversight and audit functions, ethics framework, and investigation procedures in view of UN system-wide best practice and UN Joint Inspection Unit recommendations as appropriate, and to the extent prudent, to advise the UN Joint Inspection Unit with respect to any relevant matters,

invites the membership, the management, the staff, the experts and the service providers currently and previously under contract with the ITU

to co-operate fully and provide all necessary support to the endeavour of restoring the trustworthiness of the Union,

encourages

other potential whistle-blowers knowledgeable of possible wrongdoings damageable to the Union to come forward.

taking into account

the ITU Financial Regulations and Financial Rules (2018);

decides

to appoint the UK's National Audit Office as the external auditor of the ITU for auditing its 2022, 2023, 2024 and 2025 financial statements,

The Council,

considering that when ITU staff are given leave for military service, no matter how long their period of military service may be, the salaries of that staff together with any other expenses in connection with the calling-up order, shall be borne by the country on behalf of which the military service is performed,

resolves that the Union shall bear no expenses in relation to its staff called up for military service,

invites the Secretary-General to comply with this decision.

Ref.: Document 1606/CA9 (1954).

RESOLUTION 261 (C-1952)

Position of families of Union officials liable to mobilization

The Council,

considering

- a)* Resolution 260;
- b)* the position of ITU staff in two World Wars;
- c)* that internationalization of the staff of the ITU has brought the nationals of distant countries to Geneva;
- d)* the position which might arise for their families if ITU officials were mobilized,

resolves that, provisionally, the following action may be taken:

- 1 the Union to bear the cost of repatriating the family of a mobilized official to its country of origin if the competent authorities of the country in question cannot repatriate them;

2 if repatriation of the family proves impossible, the Union to pay the family half the basic salary of the official concerned;

RESOLUTION 626 (C-1968, last amended C-1984)

Advertisement of vacancies

The Council,

in view of

a) the provisions of Resolution 58 of the Plenipotentiary Conference, Nairobi, 1982, instructing the Council to keep the question of the geographical distribution of Union staff under review in order that the objective of a wider and more representative distribution be achieved;

b) the difficulties which candidates from developing countries may experience in connection with the language requirements prescribed in the grading standards approved by the Council at its 33rd session, although they may be otherwise adequately qualified,

resolves to authorize a relaxation of the requirements of the grading standards so that, when candidates from such countries possess a thorough knowledge of one of the working languages of the Union, their applications may be taken into consideration,

instructs the Secretary-General to inform Members accordingly in circular-letters advertising vacant posts.

RESOLUTION 685 (C-1971, last amended C-1981)

International recruitment procedure

The Council,

considering pertinent provisions in the Staff Regulations and Rules,

having examined the report by the Secretary-General concerning the international recruitment of Union staff,

invites the Members of the Union to cooperate to the fullest extent possible with the Secretary-General in helping to secure for the Union the services of staff possessing the highest standards of efficiency, competence and integrity.

RESOLUTION 792 (C-1977, last amended C-1981)

Proposed amendments to Staff Regulations and Staff Rules

The Council,

having considered the reports of the Secretary-General on proposed amendments to the Staff Regulations and Staff Rules for Elected Officials and the Staff Regulations and Staff Rules applicable to appointed staff,

authorizes the Secretary-General to amend the Staff Regulations and Staff Rules for Elected Officials and/or Staff Regulations and Staff Rules applicable to appointed staff in the future, without seeking prior approval of the Council in respect of those amendments which are necessary to delete obsolete references or to make minor changes in editing which do not entail changes in substance.

RESOLUTION 1004 (C-1990)

Privileges, immunities and facilities related to activities of the Union

The Council,

being aware of the fact that many activities of the Union, such as conferences and meetings (including regional telecommunication exhibitions and forums), seminars, regional representations and missions as well as services related to the implementation of technical assistance and cooperation projects are carried out not only at the seat of the Union, but also to a large extent in the territory of various Member States of the Union,

mindful of Article 17 of the International Telecommunication Convention, Nairobi 1982, which provides that “the Union shall enjoy in the territory of each of its Members such legal capacity as may be necessary for the exercise of its functions and the fulfilment of its purposes”,

considering that it is essential that the Union’s activities referred to above be carried out under the available privileges, immunities and facilities,

recalling that the “Convention on the Privileges and Immunities of the Specialized Agencies”, approved by the General Assembly of the United Nations on 21 November 1947 and accepted by the Union, precisely provides for such privileges, immunities and facilities needed by the Union, as one of the specialized agencies of the United Nations, for carrying out its activities,

recalling also its Resolution 193 on the latter Convention as well as its Decision 304 on the “Participation of the Delegations of Members of the Union in Conferences and Meetings of the Union”,

noting, however, that quite a considerable number of the Members of the Union, i.e. almost half of them, have either not acceded at all to the latter Convention or have acceded thereto, but not with regard to the Union,

convinced that it is, in the interest of the Union, indispensable that the activities of the Union such as the ones referred to above be carried out in the territory of Member States of the Union having either become Parties to the latter Convention in respect of the Union or formally declared that they will apply the provisions of the said Convention to those activities of the Union, or otherwise having accorded sufficient privileges and immunities,

resolves

1 to urge hereby all the Members of the Union not having done so yet to accede to the Convention on the Privileges and Immunities of the Specialized Agencies of 21 November 1947 in respect of the International Telecommunication Union (see Section 41 of the said Convention) and to urge all those Members, which have acceded thereto, but not in respect of the Union, to do so by communicating a “subsequent written notification to the Secretary-General of the United Nations”, in which they “undertake to apply the provisions of this Convention to” the International Telecommunication Union (see Section 43 of the said Convention);

2 to call upon hereby any Member of the Union, which has not yet acceded to the said Convention, or communicated the subsequent written notification referred to in paragraph 1 above, in respect of the Union, to ensure that the competent governmental authority formally declares that the provisions of the Convention on the Privileges and Immunities of the Specialized Agency shall apply to those activities of the Union, which are to be carried out in its territory, or otherwise accord equivalent privileges and immunities;

3 to reconfirm hereby its Resolution 193 and its Decision 304 referred to above, the provision of which shall continue to be applied,

instructs the Secretary-General

1 to bring the present Resolution immediately to the attention of all the Members of the Union;

2 to do everything in his power to ensure the appropriate implementation of the provisions of the present Resolution and to keep the Council informed, as appropriate, of any practical difficulties encountered by him in this respect, including of any measures he had to take in respect of any non-compliance with those provisions, in particular with regard to those activities of the Union, for which he cannot await any decision by the Council at its annual session prior to their being carried out or not.

RESOLUTION 1142 (C-1999)

The Council,

having regard to Resolution 97 (Minneapolis, 1998) on occupational illness, adopted by the Plenipotentiary Conference,

resolves to instruct the Secretary-General

- a)* to ensure that the safety, health and environmental standards in force in the host country of the Union are applied at ITU and to report on the matter to the Council at its 2000 session;
- b)* to continue to study the issue of covering the risks of illness occurring by reason of prior employment with ITU and affecting former staff members of the Union, and to submit a report to the Council for its possible decision at its 2000 session.

resolves

to approve the amendments to the Staff Regulations applicable to appointed staff contained in Annex to this Resolution.

Investments of funds of the ITU staff superannuation and benevolent funds

The Council,

considering

- a) that apart from being morally responsible for the funds which in 1960 still remain entrusted to the Management Board (after transfer to the United Nations Joint Staff Pension Fund), the ITU has given its financial guarantee to the staff as regards the retirement and other pensions to be paid from the funds kept in the Staff Superannuation and Benevolent Funds (Articles 1, 2 and 84 of the Regulations for the Staff Superannuation and Benevolent Funds, 7th edition);

recommends that the Management Board keep the funds of the Staff Superannuation and Benevolent Funds from which retirement and other pensions are liable to be paid, in current account with the Swiss Confederation or in the form of debentures backed by the Swiss Confederation, and abstain from any investments which do not offer the same degree of security.

RESOLUTION 105 (C-1948, last amended C-1952)

Issue of United Nations laissez-passers to officials of the ITU

The Council,

having considered the arrangement concluded between the Secretary-General of the Union and the Secretary-General of the United Nations concerning the procedure to be followed for the issue of the United Nations laissez-passers to officials of the ITU, which arrangement it approved at its 3rd Session,

considering that it would be convenient to treat the arrangement as permanent subject to denunciation at six months notice by either party,

resolves

- 1 to approve the new text of the Arrangement which is reproduced below;
- 2 that the Secretary-General may request a laissez-passer for any official (permanent, temporary or supernumerary) of the General Secretariat, of the IFRB, or of the CCIs, absent on official duty or on leave.

ARRANGEMENT CONCERNING THE ISSUE OF UNITED NATIONS LAISSEZ-PASSER TO OFFICIALS OF THE ITU

- I. The Secretariat of the United Nations will issue United Nations laissez-passers to officials of the International Telecommunication Union under the following conditions:
 - 1 All members of the personnel of the International Telecommunication Union will be considered as officials of the International Telecommunication Union in the meaning of Section I, with the exception of those recruited locally and paid by the hour.
 - 2 Request for issuance of laissez-passer shall be made by the Secretary-General of the International Telecommunication Union or by such person as he shall designate. Such requests, which will state that the official is about to travel on official duty or home leave, must be accompanied by:
 - a) a form, copy of which is attached, which shall be filled in and signed by the official for whom the laissez-passer is required and the contents of which shall all have been verified and certified as correct by the Secretary-General of the International Telecommunication Union or his designated representatives;
 - b) two photographs of the applicant.
 - 3 Requests for the issue of laissez-passer shall be addressed to the Section of Passports and Visas (Transportation Service of the United Nations, 405 East 42nd Street, New York, NY). However, in cases of urgency, such requests may be addressed to the Office of the United Nations in Geneva which may, in such cases, issue the laissez-passer.
 - 4 The Secretary-General of the International Telecommunication Union shall forward to the Section of Passports and Visas (Transportation Service of the United Nations), specimens of the signatures of such officials as shall have received authority to certify as correct the information given on the application form under Section 3.

- 5 The issuance of United Nations laissez-passer to officials of the International Telecommunication Union shall also be subject to such other conditions as may apply to the issuance of the laissez-passer to officials of the United Nations.

The Secretary-General of the United Nations shall immediately notify these conditions to the Secretary-General of the International Telecommunication Union.

- 6 The laissez-passer issued to officials of the International Telecommunication Union shall make mention of the official's rank. They shall contain a statement in the five languages to the effect that the laissez-passer is issued to a member of a specialized agency, in accordance with Section 28 of the Convention on Privileges and Immunities of the United Nations and with the relevant section of the Agreement bringing the organization into relation with the United Nations.
- 7 Upon the request of the Secretary-General of the International Telecommunication Union or that of such person as he shall designate, the Secretariat of the United Nations shall, if this arrangement is still in force, renew such laissez-passer issued to officials of the International Telecommunication Union as shall have expired.
- 8 The Secretariat of the United Nations shall transmit as quickly as possible the laissez-passer for which issue or renewal has been requested to the designated representative of the International Telecommunication Union who shall acknowledge the receipt thereof.
- 9 The International Telecommunication Union agrees to take all necessary administrative precautions to prevent the loss or theft of such laissez-passer. It shall immediately notify the Section of Passports and Visas in the event of any loss or theft of a laissez-passer, giving particulars of the conditions under which such loss or theft occurred.
- 10 Such a laissez-passer shall, unless renewed, expire at the end of one year from the date of issuance. The International Telecommunication Union agrees to return immediately to the United Nations all laissez-passer issued to its officials:
- a) on the expiration of the validity of the laissez-passer, unless renewal has been authorized;
 - b) if the holder ceases to be an official of the International Telecommunication Union within the meaning of paragraph 1.

II. This arrangement shall be deemed to have come into force on 1 August 1949, and it will remain in force until denounced in writing by either party. Such denunciation shall take effect at the expiration of a period of six months from the day of receipt of its notification by the other party, that is to say by the Secretary-General of the United Nations or the Secretary-General of the International Telecommunication Union, as the case may be.

3 CONFERENCES AND MEETINGS

3.1 General

RESOLUTION 83 (C-1948, last amended C-1990)

Organization, financing and liquidation of the accounts of conferences and meetings

The Council,

considering

- a)* that all conferences and meetings of the Union should be uniformly organized, as regards both the material provisions and the accounting and liquidation of accounts;
- b)* that the conferences and meetings referred to the Numbers 107 to 109 of the Nairobi Convention, 1982, should not exceed the expenditure authorized by the Council;
- c)* that every effort should be made to reduce the expenditure of conferences and meetings and in the case of conferences the expenses of which are not included in the annual budget to accelerate the recovery of participants' contributory shares;
- d)* that it is advisable to include, in the agreements to be concluded with inviting governments for the preparation of conferences or meetings, provisions covering cancellation, postponement or change of venue, so that such eventualities should not cause unnecessary prejudice to the Union,

resolves that the following provisions shall be applied for all conferences and meetings organized under the aegis of the Union:

A Organization of conferences and meetings when there is an inviting government

- 1 At such time as he deems appropriate, the Secretary-General shall negotiate an agreement with the inviting government on the arrangements to be made by both the General Secretariat of the Union and that government, in order to supply the conference or meeting with the necessary material means for the satisfactory progress of the work;
- 2 this agreement, which shall specify the respective functions of both parties, shall be based, as regards its principles, on the arrangements described in Document 166/CA3. It may deviate from them to take into account the views of each inviting government and, in particular, the services which that government is in a position to offer free of charge;
- 3 in order, however, that the General Secretariat shall not be implicated in matters for which it does not have to assume responsibility, the agreement to be concluded should not deal with any question concerning the application of the Convention, which falls exclusively within the competence of the conference or meeting, or of the inviting government;

4 in particular, the agreement shall include no stipulation concerning the right of administrations in the matter of participation in the conferences, or concerning the Rules of Procedure of the conferences.

B Financing of conferences and meetings when there is an inviting government

The agreement to be reached with the inviting government should in so far as possible, be based on the following data:

5 where it does not cover the expenses itself, the inviting government shall advance the necessary funds for the renting and preparation of premises, the reproduction and distribution of documents, the payment of salaries of the Secretariat personnel recruited locally, the purchase of supplies, the purchase or renting of office equipment and any other equipment, deemed necessary for the work of the conference or meeting;

6 these expenses shall be refunded as soon as possible to the inviting government by the General Secretariat of the Union;

7 the inviting government shall bear the expenses pertaining to a Reception Committee and, if the occasion arises, the entertainments and other diversions organized for the delegates;

8 for all other expenses, the Secretary-General shall also endeavour to obtain the advance of the necessary funds from the inviting government; these funds shall be refunded as soon as possible by the General Secretariat;

9 no conference or meeting may be held under Nos. 107 to 109 of the Nairobi Convention, 1982, unless the Council has provided the appropriate credits for the year or years in question. As far as possible, when the Council authorizes such credits, it shall be in possession of the agreement entered into with the inviting government but, in exceptional circumstances, it may authorize these credits subject to the later conclusion of this agreement by the Secretary-General. The provisions of the agreement and the amount of the credits available must always be brought to the notice of the Budget Control Committee referred to in Nos. 475 to 479 of the Convention, at the first meeting of this Committee;

10 for conferences and meetings organized under No. 115 of the Nairobi Convention, 1982, the agreement and draft budget shall be submitted to the Council if the Council holds a session before the conference or meeting begins. If it holds no session, approval must be given by the budget control committee at its first meeting, at the same time as the agreement and draft budget are referred to it;

11 the agreement with the inviting government must contain provisions covering cases where conferences or meetings are cancelled or postponed, or their meeting place is changed, as a result of a decision by the Union, adopted by its competent organs:

11.1 in general, it shall be clearly established that in such an eventuality the Union shall be responsible to the inviting government only for its commitments or actual expenditure in preparation for the conference – provided the government has not agreed to bear such expenses itself – and only in so far as they are indispensable and cannot be cancelled or reduced;

11.2 if the cost of preparing premises to house the conference is to be borne by the Union, the agreement shall stipulate the details of the work to be done and its cost, and the maximum economy shall be sought compatible with satisfactory organization of the conference;

11.3 except in very special cases, the reservation of accommodation for delegates, staff, etc., must not entail any financial commitment for the Union;

(3.1 – Conferences and meetings/General)

12 if the inviting government, instead of convening the conference or meeting, announces that it cannot receive the conference at the agreed place or time, the Union shall not be responsible for the expenses incurred by the inviting government in preparation for the conference or meeting;

13 on request by the inviting government, and if exchange conditions are suitable, contributions owed to the Union by that government may be accepted in local currency in such a proportion as will enable the conference expenses to be settled in that currency to be met.

C Settlement of the accounts of conferences the expenses of which are not included in the annual budget

14 So as to reduce, as far as possible, the total interest of any sums advanced by the Government of the Swiss Confederation, it is important that the contributory shares of participants in these conferences should be recovered without delay. To this end:

14.1 when a conference covers a period running into the next financial year, the Secretary-General shall forward to the administrations or organizations concerned an account of their share of the expenses incurred during the current financial year;

14.2 if, at the close of a conference, it appears that the final accounts cannot be drawn up within one month, the Secretary-General shall immediately forward to the participants a provisional account of their share of the expenses on the basis of the statement of expenditure approved by the closing plenary meeting; an additional account shall be subsequently forwarded if, when the accounts are finally closed, a balance remains to be recovered.

D Limit of the prerogatives of conferences in financial matters

15 A conference has no power to arrange for future sessions of the same conference after the termination of the original session, or for further conferences, except by the procedure prescribed in article 54 of the Nairobi Convention, 1982;

16 no conference other than a plenipotentiary conference has the power to authorize the Secretary-General to ask the inviting government to advance funds or to request the advance of funds from the Government of the Swiss Confederation. The Secretary-General can only act in this matter in accordance with the prescription of the Convention and the directives of a plenipotentiary conference, or of the Council;

17 administrative conferences and plenary assemblies of Consultative Committees must observe the provisions of Nos. 627 and 628 of the Nairobi Convention, 1982.

E Publication of the final texts of conferences or meetings

18 In principle, the final texts approved by conferences or meetings, whatever their method of reproduction, shall be published by the General Secretariat in their usual place of publication and with the minimum of cost;

19 however, this rule may be disregarded in recognized cases of urgency and at the special request of the conference or meeting;

20 apart from the final texts distributed to the persons concerned as a conference document, no copy shall be supplied free of charge to participants in the conference or meeting.

F CCI Plenary Assemblies and Study Groups

21 The provisions of this Resolution shall apply to CCI Plenary Assembly and Study Group meetings, for which the Secretary-General, in agreement with the Director of the CCI concerned, has to make the necessary administrative and financial arrangements.

The Council,

considering

a) Resolution 145 (Antalya, 2006), on participation of observers in conferences, assemblies and meetings of the Union;

b) Resolution 58 (Rev. Guadalajara, 2010), on strengthening of relations between ITU and regional telecommunication organizations,

the decision of the Plenipotentiary Conference (Marrakesh, 2002) to make Council more transparent and inclusive to the membership,

taking into account

the Rules of Procedure of the Council (Rule 7.4), whereby observer Sector Members shall have neither the right to vote nor to submit contributions, whether written or oral,

¹ Information documents may be provided on paper format to persons with disability upon request.

conscious

- a) of the imperative to proceed cautiously in order to avoid impeding the important work of Council, given its broad and complex agenda and the serious constraints on its time and resources;
- b) of the need to respect Council's distinct characteristic, i.e., that it is the elected governing body of the Union in the interval between plenipotentiary conferences and, of the importance of ensuring accountability of the ITU Council to the Member States of the Union;
- c) of the need to avoid introducing divisive or competitive dynamics to Council sessions or eroding the integrity of the decision-making hierarchy within each Sector;

The Council,

considering

the amendment made by the Plenipotentiary Conference (Marrakesh, 2002) to No. 60A of the ITU Convention concerning Member State observers at Council,

considering further

Resolution 109 (Marrakesh, 2002) concerning the review and consolidation of provisions regarding observers which *inter alia* instructs Council to allow Member State observers to address meetings of Council at the invitation of the Chairman of the Council,

noting

that, consistent with No. 61B of the Convention, Council is responsible for aligning its Rules of Procedure with the text of the Constitution and Convention,

taking into account

Council Rules of Procedure (Rule 11) which requires that the admission of observers of Member States and their conditions of participation be applied to all meetings of Council, its committees and working groups,

recognizing

1 that, pursuant to Rule 12, Member States which are not Member States of Council may submit written contributions to Council;

2 that Council 2003 accepted the criteria set out by the Chairman for a procedure to implement, on a provisional basis, the instruction from Resolution 109 (Marrakesh, 2002) to allow observer Member States to address meetings of Council;

3 these criteria have been applied, fulfilling the instruction to Council of the Plenipotentiary Conference (Marrakesh, 2002),

- d) the duration of such statements will be limited according to the number of requests made and the total amount of time allocated with respect to the work to be accomplished;

3 to reference these decisions in its Report to the Plenipotentiary Conference 2006 on its follow-up to the decisions of PP-02 and to note in that Report that Council will re-examine its Rules of Procedure at a future session of Council after having taken into account the results of PP-06,

instructs the Secretary-General

to issue and post the modified Rule 7 as a single revision to the Rules of Procedure of the Council and to notify Member States of the change in the circular letters associated with the convening of Council 2006.

DECISION 540 (C06)

Creation of a single Standing Committee on Administration and Management

The Council

in view of

Article 4 of the Convention of the International Telecommunication Union setting out the responsibilities of Council and, in particular, No. 61B specifying its mandate to adopt its own rules of procedure,

considering

the need to address the important human and financial resource issues of the Union in the most effective and coherent manner possible,

recognizing

that the oversight of the administration and management of the Union and its activities is the key function and responsibility of the Council and the imperative of ensuring that staff matters are addressed as resources vital to success in achieving the Union's mission,

recognizing further

that the 1998 and 2002 Plenipotentiary Conferences successfully combined the consideration of personnel and financial matters in a single committee,

decides

to combine the standing Committee of Council on Finance and the Standing Committee on Staff Matters to create a single Standing Committee on Administration and Management effective as at the 2007 Ordinary Session of Council,

further decides

to modify the relevant Rules of Procedure as follows:

- Rule of Procedure 11: “The Council may set up committees and working groups, in the work of which all councillors, their advisers and observers shall be entitled to take part. During Council sessions, one standing committee on the Administration and Management of the Union shall consider staff and financial matters. Observers designated....”
- Rule of Procedure 12.2: “The standing committee shall meet immediately after the inaugural plenary meeting, for a length of time decided by the inaugural plenary meeting in the light of the previous Council's recommendations.”
- Rule of Procedure 12.4: “The standing committees shall consider the documents allocated to it by the inaugural plenary meeting, such as the reports by the Secretary-General and the Directors of the Bureaux, the draft budget, the annual report to the Members of the Union, and contributions by Members of the Council, as well as contributions submitted by other Members of the Union where the Council has requested such contributions. The standing committee shall prepare draft resolutions and draft decisions and, where necessary, shall prepare reports for consideration by the plenary meeting of the Council. Working groups shall submit their conclusions to the bodies by which they were established, except if it is decided otherwise.”
- Rule of Procedure 12.5: “The standing committee and working groups shall make every effort to achieve a consensus on the matters submitted to them for consideration; failing this, the chairman of the standing committee or working group in question shall prepare, for consideration by the plenary, a brief report setting out the views expressed by the various participants.”
- Rule of Procedure 12.6: “The standing committees shall not meet during a plenary meeting.”
- Rule of Procedure 13.1: “The summary records of plenary meetings and meetings of the standing committee shall be drawn up in concise form by the secretariat of the Council.”

DECISION 556 (C10, last amended C16)

Submission and publication of documentation for Council sessions and Council working group meetings

The Council,

considering

- a) Article 10 of the Constitution and Article 4 of the Convention which specify the roles and responsibilities of Council on a wide range of governance and policy issues;
- b) Rule 20 of the Rules of Procedure of the Council concerning the preparation of documents;
- c) the requirements under said Rule 20 that a preparatory document shall be published on each item on the draft agenda of an ordinary or extraordinary session, as soon as possible and, in principle, not later than four weeks before the opening of the session;
- d) the further stipulation in Rule 20 that any important document issued after this time limit will be examined at the next session of the Council, unless the Council decides otherwise,

recalling

- a) Resolution 165 (Guadalajara, 2010) of the Plenipotentiary Conference, on deadlines for the submission of proposals and procedures for the registration of participants for conferences and assemblies of the Union;
- b) Resolution 154 (Rev. Busan, 2014), on use of the six official languages of the Union on an equal footing,

bearing in mind

the rules of procedure and working methods adopted by the competent conference or assembly of the Telecommunication Standardization Sector, the Radiocommunication Sector and the Telecommunication Development Sector outlining requirements for the timely submission of contributions in support of the work of the respective Sectors,

recognizing

- a) the need for stricter compliance with submission deadlines, and that the secretariat should continue to pursue the ongoing operational objective of maintaining and enhancing timely delivery and publication of Council and Council working group documents;
- b) the importance of the timely submission of contributions, not only to ensure that translation deadlines are respected and to minimize significant cost overruns, but also to ensure that meeting participants have sufficient time to consider the nature of the issues raised in such contributions,

taking into account

- a) that the late submission of many contributions from Member States to the Council places a serious burden on the ITU secretariat to ensure their translation, as well as difficulties for the Member States of Council to give proper consideration to the issues and proposals contained therein;
- b) that the late submission of ITU secretariat documents calling for a decision of the Council or a Council working group prevents the Member States from submitting their comments and proposals on those documents in a timely manner,

decides

1 that, taking into account the nominal deadlines for the preparation of documents specified in Rule 20 of the Rules of Procedure of the Council, all contributions should be submitted no later than 14 calendar days before the opening of a Council session or a Council working group meeting in which work is to be conducted in all six official languages of the Union, to ensure timely translation and their thorough consideration during that Council session;

2 that documents intended for consideration at Council working group meetings working in one language without translation should be submitted no later than 12 calendar days before the opening of the meeting;

3 that ITU secretariat documents calling for a decision of the Council or a Council working group should be posted on the relevant page of the website no later than 30 calendar days before the opening of the Council session or Council working group meeting;

4 that all other documents submitted to a Council session or a Council working group meeting should be posted on the relevant page of the website no later than seven calendar days before the beginning of the meeting. This deadline shall not extend to administrative documents or reports on events that have taken place less than 21 calendar days before the start of the meeting, nor to proposals from Chairmen and convenors of ad-hoc groups, compilations of proposals prepared by the Chairman or secretariat, or contributions specifically requested by the meeting;

5 that reports on events that have taken place less than 21 calendar days before the start of the meeting should be posted on the relevant page of the website no later than two calendar days before the beginning of the discussion of the item in question at the meeting, unless otherwise agreed by the meeting.

- 2 that the current Chairmen and Vice-Chairmen of a CWG shall be eligible for reelection to the same position;

- a) Resolution 77 (Rev. Bucharest, 2022) of the Plenipotentiary Conference, which instructs the Council “at each ordinary session, to schedule its next three ordinary sessions in June-July and to review the Council’s schedule on a rolling basis”;
- b) Resolution 111 (Rev. Busan, 2014) of the Plenipotentiary Conference, which resolves “that the Union and the Member States of the Council should make every effort, as far as practicable, in order that the planned period of any Council session not be scheduled during a period which is considered a major religious period by a Member State of the Council”;
- c) Decision 619 on Headquarters Premises adopted at the additional 2019 session of the Council,

recalling

Council Decision 635 (C23) confirming the dates and duration for the 2024, 2025, and 2026 sessions of the Council, along with the cluster of Council Working Groups and Expert Groups for the same period,

considering

the need to schedule ordinary sessions of the Council as much as possible around the same time-frame each year in order to facilitate the arrangement of other ITU events,

considering further

the need to organize the ordinary session of the Council taking place in a plenipotentiary conference (PP) year early enough to allow any Council reports intended to be further considered at PP to be published reasonably far in advance,

emphasizing

that scheduling the clusters of Council Working Groups and Expert Groups (CWGs & EGs), over the next three years, would not only improve the overall planning of ITU events, but also reduce the risk of overlapping,

mindful

of Decision 11 (Rev. Bucharest, 2022) of the Plenipotentiary Conference on the creation and management of Council Working Groups, referring to Annex 2 to Decision 5 (Rev. Bucharest, 2022) of the Conference on options for reducing expenses,

decides

3 that the 2027 session of the Council will open in Geneva for a period of seven working days, and will hold its clusters of CWGs & EGs as follows:

- First cluster: from Monday, 18 January to Friday, 29 January 2027;
- **Council-27: from Tuesday, 8 June to Friday, 18 June 2027;**

4 GENERAL SECRETARIAT

RESOLUTION 1110 (C-1997)

Role of the ITU in the GMPCS-MoU

The Council,

having considered the report of the Secretary-General on the Memorandum of Understanding concerning Global Mobile Personal Communications by Satellite presented in Document C97/68 and the proposal from the United States of America presented in Document C97/97,

having further considered the decisions taken at the 1997 session with respect to cost recovery for ITU products and services,

noting that the ITU Member States and Sector Members provided voluntary financial contributions to support the first World Telecommunication Policy Forum in October 1996,

further noting that the funds remaining from these voluntary contributions are now supporting the work of the GMPCS-MoU Group, and that voluntary contributions are being sought to support the implementation of WTPF Opinion No. 5,

resolves

- 1 that the ITU Secretariat shall continue to provide support to the GMPCS-MoU activities on the basis of full cost recovery recognizing that this is an acceptable role for the ITU Secretariat;
- 2 that the ITU Secretariat shall provide an accounting of the use to date of voluntary financial contributions to the first WTPF;
- 3 that the funds remaining from these voluntary contributions shall be used to support follow-up activities to the first policy forum-related activities for the next year;
- 4 that if additional funds are needed to support these activities, the Signatories to the GMPCS-MoU, as well as other interested parties, shall be requested by the ITU Secretariat to provide additional financial support to continue their work and to support the role of the ITU Secretariat in these activities.

Ref.: Documents C97/130 and C97/138.

RESOLUTION 1116 (C-1998)

Implementation of the GMPCS-MoU arrangements

The Council,

considering the conclusions of the first World Telecommunication Policy Forum on Global Mobile Personal Communications by Satellite (GMPCS), held in October 1996, and the related Memorandum of Understanding and Arrangements developed since then,

noting that the above Arrangements have been developed by a provisional group of Signatories of the Memorandum of Understanding and that that group remains acting as the “GMPCS-MoU Group”,

recalling Resolution 1110 adopted by the Council at its 1997 session, which resolved, *inter alia*, that the ITU secretariat should continue to provide support to the GMPCS-MoU activities on the basis of full cost recovery, recognizing that this was an acceptable role of the ITU secretariat,

considering further

a) that the role of ITU as depositary of the GMPCS-MoU and its Arrangements is identified as part of the goals, and is consistent with the vision for ITU, contained in the draft Strategic Plan 1999-2003;

b) that this role, while it will benefit the GMPCS industry and users worldwide, will also contribute to the relevance of the Union to the future of global telecommunications,

taking account of Recommendation 8 adopted by the World Telecommunication Development Conference (Valletta, 1998) entitled *Timely Implementation of GMPCS*, which notes the need for global implementation of the Arrangements so that the benefits of GMPCS services can be extended to all countries in a timely fashion,

resolves

1 to instruct the Secretary-General:

1.1 to act as depositary of the GMPCS-MoU and its Arrangements and to make available the information supplied by the Signatories implementing the Arrangements;

1.2 to act as the registry for type-approval procedures that administrations and/or competent authorities have notified to ITU as having been used to approve terminals;

1.3 to act as the registry of terminal types once administrations and/or competent authorities have notified to ITU that terminals have been granted type approval;

1.4 to authorize the use¹ of the abbreviation “ITU” as part of the GMPCS-MoU mark on the understanding that ITU shall be protected against liability from such use;

¹ The conditions of this use will be reviewed in the light of the results of Resolution 1117.

2 that action under *resolves* 1.1 to 1.4 above shall be carried out in accordance with the Arrangements on the basis of full cost recovery, the details relating to the use of contributions by the Signatories being defined in consultation between them and the Secretary-General.

5 SECTORS

5.1 General

RESOLUTION 1115 (C-1997)

International Harmonization of Technical Requirements for Legal Interception of Telecommunications

The Council,

noting

- a) that many Member countries of the ITU permit their law enforcement and national security agencies, under controlled conditions, to intercept telecommunications services;
- b) that the law enforcement and national security agencies of a significant number of ITU member countries have agreed on a generic set of requirements for legal interception (the International Requirements for Interception, IUR);
- c) that the costs of legal interception capability and associated disruptions can be lessened by providing for the capability at the design stage; and
- d) that such reduction of costs and disruptions could lead to more efficient provision and development of telecommunications infrastructure,

considering

- a) that the provision of a technical capability for interception in relevant standards would not intrude on the sovereign right of countries to decide whether and under what conditions they will permit legal interception; and
- b) that the consideration of requirements for legal interception could fall within the responsibility of both the ITU-R and the ITU-T,

further noting

that some countries are in urgent need of results in this area,

requests the ITU-R and the ITU-T

to give priority to questions on the subject which administrations request them to study.¹

Ref.: Documents C97/135 and C97/138.

¹ It is understood that all ITU-T and ITU-R studies will be based on contributions by administrations.

5.2 Radiocommunication (ITU-R)

RESOLUTION 1148 (C-1999)

Status of the members of the Radio Regulations Board

The Council,

considering

- a) the provisions of Articles 8 (No. 56), 9 (No. 63), 12 (No. 82) and 14 (Nos. 93 to 101) of the Constitution (Geneva, 1992) and those of Articles 2 (Nos. 20 to 22) and 10 (Nos. 139 to 147) of the Convention (Geneva, 1992), as amended by the Kyoto (1994) and Minneapolis (1998) Plenipotentiary Conferences;
- b) that the members of the Radio Regulations Board (RRB) are elected by the Plenipotentiary Conference as custodians of an international mandate;
- c) that they can therefore not be considered as “experts” within the meaning of No. 1001 of the Convention;
- d) that the Headquarters Agreement does not establish a special status for RRB members;
- e) that RRB members are bound by the Convention to participate in radiocommunication conferences, radiocommunication assemblies and, in the case of the chairperson and vice-chairperson of RRB, in the Plenipotentiary Conference, whether these conferences and assemblies are held at or away from headquarters;
- f) that the Plenipotentiary Conference (Minneapolis, 1998) decided that the Council should consider the appropriate means to provide RRB members with the rights and immunities necessary to carry out their duties, on the basis of a report by the Secretary-General following consultation of the host country (Document PP-98/271),

having examined the report drawn up by the Secretary-General (Document C99/61) in response to the decision by the Plenipotentiary Conference (Minneapolis, 1998),

having taken cognizance of the memorandum by the Radio Regulations Board (Document C99/66) transmitted to it by the Secretary-General,

resolves to instruct the Secretary-General

- 1 to continue to apply, in respect of RRB members, Article 17 of the Agreement between the Swiss Federal Council and the Union concerning the organization’s legal status in Switzerland and to identify, in cooperation with the Swiss authorities, ways and means of improving the situation of RRB members in order to facilitate the exercise of their duties;
- 2 to provide RRB members with an ITU document attesting to their status as elected members of RRB and setting forth those provisions of the headquarters agreement that apply to them;
- 3 to see to it that the agreements concluded between the Union and the host countries of conferences or meetings in which the members, chairperson and vice-chairperson of RRB have a duty to participate (No. 141 of the Convention) contain provisions granting RRB members the privileges and immunities necessary for the exercise of their duties at the said conferences or meetings;
- 4 to report to the Council on the measures taken,

requests the competent authorities of the countries of which elected RRB members are nationals to offer facilities, in particular with regard to the type of travel documents they issue, enabling RRB members to travel without hindrance in the exercise of their duties for the Union,

instructs the Director of BR to provide the linguistic, computer and other facilities that are necessary in order for RRB to perform its functions.

DECISION 535 (C05, last amended C14)

Cost-allocation methodology

The Council,

considering

the new cost-allocation methodology that has been elaborated in view of the linkage between the ITU Financial Plan and the ITU Strategic Plan for the period 2016-2019,

decides

to adopt the cost-allocation methodology described in annex hereto, and that it will enter into force on 1 January 2016.

ANNEX

New cost-allocation methodology

The cost allocation methodology consists in a 4-step process to allocate the costs from the organizational units to the Goals of the Union. The whole process is summarized in the diagram provided in Appendix.

As a preliminary phase of the cost-allocation methodology, direct costs, which include planned expenses and documentation costs (translation, typing and reprography), are directly assigned to the Outputs, Bureaux and Departments for which they were planned.

Step 1

The costs of the General Secretariat centralized services are distributed to the three Bureaux (BR, TSB, BDT) and the Intersectoral activities through a cost-allocation driver.

The General Secretariat centralized services include:

- Centralized support services, such as building facilities, Conference support services, IS support to meetings and conferences;
- Centralized administrative services, such as Financial and Human resources management, Legal Affairs.

Step 2

The costs of the three Bureaux and Intersectoral activities are reallocated to the Outputs based on a Time survey.

The costs of the Bureaux and Intersectoral activities include: their respective planned costs, documentation costs, and the costs received from the reallocation of the General Secretariat centralized services.

Step 3

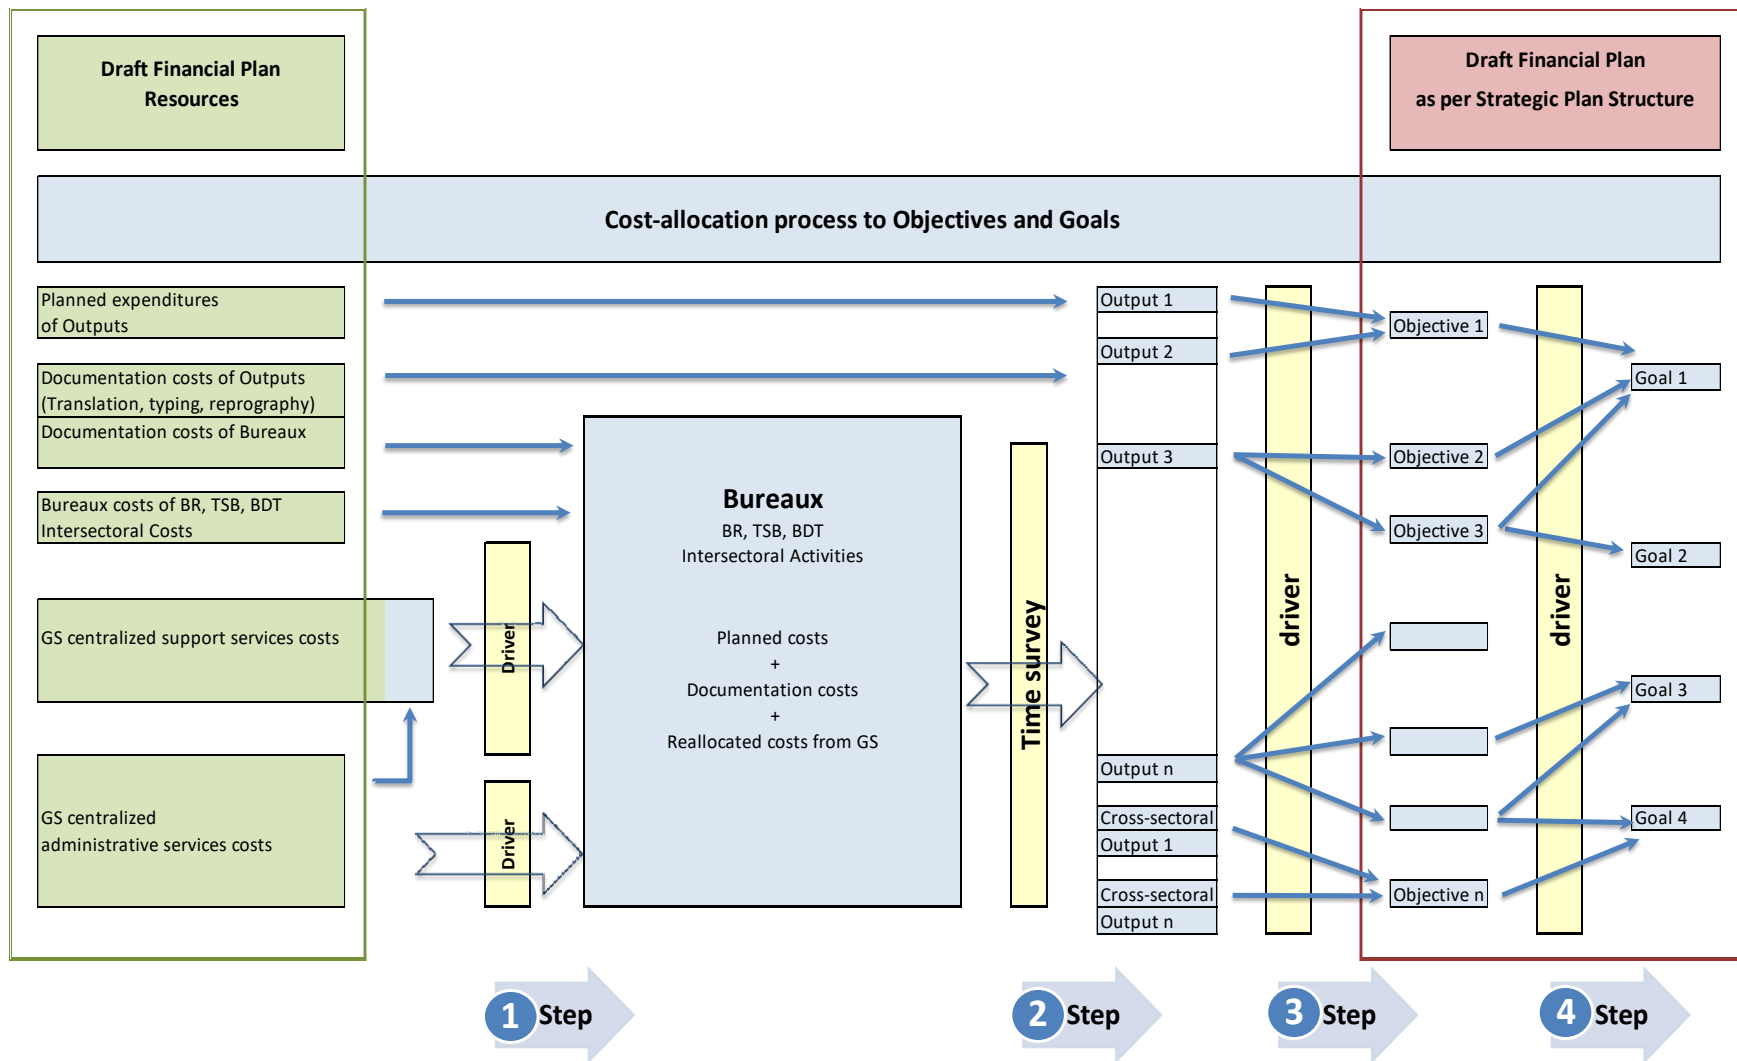

The costs of the Outputs are distributed to the Strategic Objectives of the ITU Strategic Plan based on a cost-allocation driver.

The costs of the Outputs include: their respective planned costs, documentation costs, and the costs received from the three Bureaux and Intersectoral activities.

Step 4

recognizing the need to optimize the use of available resources to satisfy urgent requirements,

resolves to organize the regional presence as follows:

A. For Africa

- a regional office for West Africa and Central Africa in Dakar (Senegal);

- c) Resolution 5 of the World Telecommunication Development Conference (Valletta, 1998);
- d) Council Resolution 1114 (Geneva, 1997),

recalling Resolution 25 (Kyoto, 1994) of the Plenipotentiary Conference,

reaffirming

- a) the importance of regional presence for achieving the purposes of the International Telecommunication Union;
- b) that the regional presence is a structural option for pursuing the purposes of the Union in the field in order to meet the needs of the membership;
- c) that if it is to play a pre-eminent role in the development of telecommunication networks and services worldwide, ITU must meet the needs of its membership,

emphasizing that the regional presence, as an integral part of the Union's overall activities, should reflect a "project management" approach based on operational processes that are coordinated between headquarters and the regional offices,

noting with satisfaction that steps have been taken to implement Resolution 25 (Minneapolis, 1998) as indicated in Document C99/14,

noting further that it is important for the regional offices to draw up their draft operational plans within the framework of the BDT operational plan, the guidelines as laid down in the strategic plan and the specific conditions of each region,

aware

- a) that Resolution 74 (Minneapolis, 1998) calls for the review and improvement of the management, functioning and structure of ITU and that this review will encompass the regional presence;
- b) that it is important to address the immediate needs of Member States and Sector Members,

resolves

1 that the role of the regional presence is to help fulfil the purposes of the Union in order to meet the needs of its membership through work in the field with telecommunication administrations and regulatory bodies, in particular those in the developing countries, including through collaboration with national, subregional and regional institutions, organizations and other entities;

2 that the regional presence, as an integral part of ITU, should support implementation of the decisions, recommendations, actions, programmes and projects approved by the Union through direct and ongoing collaboration with competent national authorities and regional and subregional organizations;

3 that the regional presence shall serve, as necessary, to represent the Secretary-General or the Bureau Director of one of the three Sectors;

4 that the functions of the regional presence stemming from ITU's dual role as a United Nations specialized agency and executing agency must be clarified, and that the activities described in Resolution 71 (Minneapolis, 1998) must be made clear and implemented e.g. by assigning to the regional presence the generic activities listed in Annex A to this Resolution;

5 that the regional presence, acting within the framework of the relevant international organizations, should serve as an advocate for the ITU's perspectives on telecommunication development;

6 that the involvement and participation of the developing countries and Sector Members in the regional presence and in all the activities of the Union, including the activities of ITU-R and ITU-T, should be enhanced,

instructs the Director of the Telecommunication Development Bureau, in close collaboration with the Secretary-General and the Directors of BR and TSB:

1 to establish closer contacts with Member States, Sector Members and various telecommunication operators from each region in order to gain a clearer understanding and take account of what they expect from the regional presence;

2 to set quantified objectives for the implementation of the operational plan, setting out specific constraints in terms of quality, allocated resources and/or time-frames, in consultation with TDAG;

3 to determine appropriate performance measurement systems for monitoring the activities referred to in *resolves* 4 (adapting them to the specific characteristics of the regional context), as well as those relating to the various programmes which come under the regional presence;

4 to prepare a report to the 2000 session of the Council on the extent to which the above objectives have been met and on planned objectives for 2001;

5 to implement gradually the decisions taken by the Council in its Resolution 1114 (Geneva, 1997);

7 to report annually on the progress made in implementing the operational plan drawn up with each regional office, on the basis of quantified and measurable objectives;

8 to make the necessary adjustments to BDT's structure, both at headquarters and in the field, in order to balance the strengthening of regional resources (including through the transfer of resources from headquarters to the regional offices) with improved competence in the areas of backstopping, monitoring and coordination at headquarters;

9 to define and improve, both at headquarters and in the field, the operational processes pertaining to the regional presence, in order to ensure more effective utilization of resources and avoid duplication,

instructs the Secretary-General and the Directors of BDT, BR and TSB to proceed with the appropriate delegations, bearing in mind the specific circumstances and priorities in each region, with a view to enhancing the effectiveness of the regional presence,

instructs the Directors of BR and TSB to prepare for the 2000 session and subsequent sessions of the Council a report on the involvement and effective participation of members in the regions in the activities of their respective Sectors and on the measures taken to strengthen that involvement and participation,

further instructs the Secretary-General to report back to the 2000 session and subsequent sessions of the Council pursuant to Resolution 25 (Minneapolis, 1998).

ANNEX

Terms of reference for an external consultant to review ITU's Regional Presence

1. Purpose

ITU intends to conduct a review of the organization's regional presence, in accordance to the requirements and provisions of Resolution 25 (Rev. Dubai, 2018).

From this perspective it is crucial to assess whether the organization and functioning of field offices is contributing substantively towards bringing ITU institutional activities closer to its membership.

The goal of this review is to develop and implement an action plan that will allow:

- a) to be able to measure the performance of a Regional Office (RO) under the new set of rules;
- b) to develop an effective Risk Management (ERM) process, including the risk assessment (RA) of the activities carried out at the RO level;

- c) to develop instruments that facilitate effective coordination between Headquarters and ROs;
- d) to ensure that the ROs comply with the rules and procedures issued by Headquarters relating to financial management, projects and procurement;
- e) to ensure the proper implementation of all the recommendations of the Internal Auditor, the External Auditor and the ITU Independent Management Advisory Committee (IMAC), in particular those related to the lack of internal controls identified in the recent fraud case.

The review should take into consideration of the following elements:

- a) the extent of fulfilment of the provisions of Resolution 25 (Rev. Dubai, 2018) by the Telecommunication Development Bureau, the General Secretariat, and the other two Bureaux, as appropriate;
- b) all the recommendations of the External Auditor, the Internal Auditor and IMAC, providing advice on the need for substantially improved management oversight and internal control in the light of the weaknesses revealed by the recent fraud case in a regional office; and especially the need to establish a culture of transparency and collaboration leading to stronger individual management responsibility and effective accountability;
- c) how further decentralization could ensure greater efficiency at lower cost, taking into consideration accountability and transparency;
- d) the result of past surveys of the level of satisfaction of Member States, Sector Members, and regional telecommunication/ICT organizations with ITU's regional presence;
- e) assistance for developing countries to participate in ITU activities;
- f) the extent of possible duplication between the functions of ITU headquarters and the regional offices;
- g) the extent of fulfilment of the provisions of Resolution 17 (Rev. Buenos Aires, 2017) of the World Telecommunication Development Conference;
- h) the degree of autonomy in decision-making currently accorded to regional offices, and whether greater autonomy could enhance their efficiency and effectiveness;
- i) the effectiveness of collaboration and coordination between the ITU regional offices, regional telecommunication/ICT organizations and other regional and international development and financial organizations;
- j) how regional presence and the organization of activities in the regions can enhance the effective participation of all countries in ITU work;
- k) the resources currently made available to the regional offices for reducing the digital divide;
- l) the optimal overall structure of the ITU regional presence, including the location and number of regional and area offices.

2. Functional requirements

- 7) Identify measures to enhance the level of internal controls in Regional and Area Offices, in order to prevent other cases of fraud similar to the one detected, and ensure prompt implementation to the outstanding recommendations made by the Internal Auditor, the External Auditor and the IMAC;
- 8) Assist in redesigning the role of Regional Directors as supervisors of the implementation of projects and initiatives and as managers of financial resources at the local level;
- 9) Assess the engagement of ITU's regional presence with the different partners in the ICT ecosystem in order to facilitate discussions on regional matters;

6 EXTERNAL RELATIONS

6.1 ITU Membership

RESOLUTION 88 (C-1948, last amended C-1976)

Relations of the General Secretariat of the Union with States or administrations which are not Members of the Union

The Council,

considering that it is advisable to give precise instructions to the Secretary-General in regard to the attitude he must adopt in the event of receiving communications from States or administrations which are not Members of the Union, and also in regard to the dispatch of documents of the Union that such States or administrations might request,

resolves that

- 1 with the exception specified below, the Secretary-General may correspond with, or forward documents to, Members;
- 2 the Secretary-General is authorized to correspond with States or administrations not mentioned in paragraph 1 above, with a view to informing them on accession to the Union and the implementation of the Convention or Regulations, or in the case of formal requests to accede, transmitted in accordance with the procedure laid down in the Convention;
- 3 in respect of any other communication he may receive from a State or administration which is not a Member, the Secretary-General shall take the following steps:
 - a) if the communication concerns a matter of policy that the Council should normally consider and resolve, or in the case of doubt, he shall restrict himself to acknowledging it, informing the sender that it will be referred to the Council;
 - b) if the communication is clearly of a factual nature, connected with the telecommunication services, the Secretary-General shall acknowledge it, informing the sender that a copy will be sent to the Members of the Union for their information, and shall take action accordingly in each case;
- 4.1 in cases referred to in paragraph 3 b) above, the Secretary-General shall publish the communication received under the heading: "Information received from sources outside the Union", followed by a note to the effect that the publication of the information in question does not imply recognition of the status of the sender in relation to the Union;
- 4.2 however, if the nature of the information received is such as to warrant its inclusion in official documents, it shall not be published separately, but shall be incorporated in the appropriate documents, under the title and with the explanatory note referred to in paragraph 4.1;
- 5.1 requests for documents, public sale of which is authorized, may be complied with in return for payment;

5.2 all Notifications, communications and circular letters distributed gratis by the Secretary-General to Members of the Union shall be furnished by him to any private individual or to any organization on request in return for payment at a price to be fixed by the Secretary-General;

RESOLUTION 177 (C-1950)

Circular telegrams to administrations

The Council,

considering that the practice of circulating by telegram to all administrations communications emanating from an administration throws heavy burden on all administrations and private operating agencies, which is justified only in cases of urgent necessity for the services of the Union,

recommends

1 the administrations of the Union to refrain, insofar as possible, from requesting that their communications to the Union should be forwarded by circular telegram, restricting such requests to strictly indispensable cases;

2 that the Secretary-General, when he receives a communication from a Member of the Union with the request that he should forward it to all the other Members, by circular telegram, should comply only if he judges that the matter is urgent and of fundamental importance to the services of the Union, which might be prejudiced if telegraph is not used;

3 that in all other cases, he shall use the post, informing the administrations in question accordingly and referring to the present Resolution. If the administrations should insist on a circular telegram, the Secretary-General shall comply with the request.

RESOLUTION 216 (C-1951, last amended C-1984)¹

in view of the provisions of Nos. 2 to 6 of the Nairobi Convention, 1982, regarding applications for Membership of the Union,

considering

- a) that there is no provision in the Convention limiting the number of applications for admission which may be made by any one country;
- b) that the Secretary-General is not qualified to express an opinion upon the status of a country or the Government thereof having submitted an application,

resolves

- 1 that in accordance with No. 11 of the Nairobi Convention, 1982, Members which have signed and ratified the Convention or have acceded hereto are permitted to vote on the admission of a new Member (see also No. 178 of the Convention);
- 2 that applications for admission as Member sent to the Secretary-General, as well as the results of the consultations communicated by the Secretary-General to the applicant governments, must be sent through diplomatic channels and through the intermediary of the Swiss Government;
- 3 that a country of which the application for Membership has been declared unsuccessful may at any time make further application for Membership;
- 4 that the procedure for treatment of an application, whether it is made for the first time or following one or more unsuccessful applications, shall be as follows:
 - a) upon receipt of an application, the Secretary-General shall, as soon as possible, inform by telegram all countries listed in Annex 1 to the Convention and countries which have acceded to that Convention;
 - b) the telegram shall specify that the countries called upon to give an opinion on the request for admission are those which have ratified or acceded to the Convention, together with those which ratify the Convention before the end of the consultation period provided that, at that time, they have not lost their right of vote under No. 117 of the Convention;
 - c) the text of the telegram shall be confirmed by letter;

RESOLUTION 2426 (XXIII)⁴

IMPLEMENTATION OF THE DECLARATION ON THE GRANTING OF INDEPENDENCE TO COLONIAL COUNTRIES AND PEOPLES BY THE SPECIALIZED AGENCIES AND THE INTERNATIONAL INSTITUTIONS ASSOCIATED WITH THE UNITED NATIONS

The General Assembly,

having considered the item entitled “Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations”,

recalling the Declaration on the Granting of Independence to Colonial Countries and Peoples contained in General Assembly Resolution 1514 (XV) of 14 December 1960,

recalling its Resolution 2311 (XXII) of 14 December 1967 and other relevant General Assembly Resolutions,

taking into account the relevant reports submitted by the Secretary-General, the Economic and Social Council and the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples concerning the implementation of the Declaration by the specialized agencies and international institutions associated with the United Nations,

bearing in mind that the national liberation movements in several colonial Territories, and particularly in Africa, require the urgent assistance of the specialized agencies, particularly in the field of education, health and nutrition, in their struggle to attain freedom and independence,

noting with regret that some of the specialized agencies and international institutions associated with the United Nations, and in particular the International Bank for Reconstruction and Development and the International Monetary Fund, have not so far implemented Resolution 2311 (XXII) and other relevant Resolutions,

considering that, by virtue of the Charter of the United Nations, in particular Chapters IX and X, the United Nations shall make recommendations for the coordination of the policies and activities of the specialized agencies,

1 *reiterates its appeal* to the specialized agencies, the International Atomic Energy Agency and the international institutions associated with the United Nations to extend their full cooperation to the United Nations in the achievement of the objectives and provisions of General Assembly Resolution 1514 (XV) and other relevant Resolutions,

⁴ See Resolution 765/CA30 (1975).

2 *expresses its appreciation* to the Office of the United Nations High Commissioner for Refugees and to those specialized agencies and international institutions which have cooperated with the United Nations in the implementation of the relevant General Assembly Resolutions,

3 *recommends* that the specialized agencies and international institutions concerned should assist the peoples struggling for their liberation from colonial rule and, in particular, should work out, within the scope of their respective activities and in cooperation with the Organization of African Unity and, through it, with the national liberation movements, concrete programmes of assistance to the oppressed peoples of Southern Rhodesia, Namibia and the Territories under Portuguese domination,

4 *appeals once again* to all the specialized agencies and international institutions and, in particular, the International Bank for Reconstruction and Development and the International Monetary Fund, to take all necessary steps to withhold from the Governments of Portugal and South Africa financial, economic, technical and other assistance until they renounce their policies of racial discrimination and colonial domination,

5 *recommends* that the International Bank for Reconstruction and Development should withdraw the loans and credits which it has granted to the Governments of Portugal and South Africa, which are being used by those Governments to suppress the national liberation movements in the Portuguese colonies and in Namibia, and against the African population of the Republic of South Africa,

ANNEX 4

RESOLUTION 2465 (XXIII)⁵

IMPLEMENTATION OF THE DECLARATION ON THE GRANTING OF INDEPENDENCE TO COLONIAL COUNTRIES AND PEOPLES

The General Assembly,

recalling the Declaration on the Granting of Independence to Colonial Countries and Peoples contained in its Resolution 1514 (XV) of 14 December 1960,

recalling its Resolutions 1654 (XVI) of 27 November 1961, 1810 (XVII) of 17 December 1962, 1956 (XVIII) of 11 December 1963, 1970 (XVIII) of 16 December 1963, 2105 (XX) of 20 December 1965, 2189 (XXI) of 13 December 1966 and 2326 (XXII) of 16 December 1967,

recalling also its Resolutions 2288 (XXII) of 7 December 1967 and 2425 (XXIII) of 18 December 1968 concerning the item entitled “Activities of foreign economic and other interests which are impeding the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples in Southern Rhodesia, Namibia and Territories under Portuguese domination and in all other Territories under colonial domination and efforts to eliminate colonialism, *apartheid* and racial discrimination in southern Africa”,

recalling further its Resolutions 2311 (XXII) of 14 December 1967 and 2426 (XXIII) of 18 December 1968 concerning the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations,

taking into account the Final Act of the International Conference on Human Rights, held at Teheran from 22 April to 13 May 1968,

noting with grave concern that eight years after the adoption of the Declaration many Territories are still under colonial domination,

deploring the failure of those colonial Powers, especially Portugal and South Africa, which have not complied with the Declaration and relevant Resolutions on the question of decolonization, particularly those relating to the Territories under Portuguese domination, Southern Rhodesia and Namibia, and gravely concerned about the attitude of those Member States which have not fully cooperated in the implementation of the above-mentioned Resolutions,

bearing in mind that the continuation of colonialism and its manifestations, including racism and *apartheid*, and the attempts of some colonial Powers to suppress national liberation movements by repressive activities against colonial peoples are incompatible with the Charter of the United Nations, the Universal Declaration of Human Rights and the Declaration on the Granting of Independence to Colonial Countries and Peoples,

deploring the attitude of certain States which, in disregard of the pertinent Resolutions of the Security Council, the General Assembly and the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples, continue to cooperate with the Governments of Portugal and South Africa and with the illegal racist minority régime in Southern Rhodesia, which are continuing to repress the African peoples,

⁵ See also Resolution 765/CA30 (1975).

gravely concerned about the development in southern Africa of the *entente* between the Governments of Portugal and South Africa and the illegal racist minority régime in Southern Rhodesia, the activities of which endanger international peace and security,

convinced that further delay in the speedy and effective implementation of the Declaration remains a source of international conflicts and differences, which are seriously impeding international cooperation and endangering world peace and security,

stressing once again the need for the large-scale and continuous publicizing of the work of the United Nations in the field of decolonization, of the situation in the colonial Territories and of the continuing struggle for liberation being waged by the colonial peoples,

recalling that the year 1970 will be the tenth anniversary of the adoption of the Declaration,

1 *reaffirms* its Resolution 1514 (XV) and all of its other Resolutions on the question of decolonization,

2 *notes with satisfaction* the work accomplished by the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and expresses its appreciation to the Special Committee for its efforts to secure the complete and effective implementation of the Declaration,

3 *approves* the report of the Special Committee covering its work during 1968, including the programme of work envisaged by the Committee during 1969, and urges the administering Powers to give effect to the recommendations contained in that report for the speedy implementation of the Declaration and the relevant United Nations Resolutions,

4 *reiterates* its declaration that the continuation of colonial rule threatens international peace and security and that the practice of *apartheid* and all forms of racial discrimination constitutes a crime against humanity,

5 *reaffirms* its recognition of the legitimacy of the struggle of the colonial peoples to exercise their right to self determination and independence and notes with satisfaction the progress made in the colonial Territories by the national liberation movements, both through their struggle and through reconstruction programmes, and urges all States to provide moral and material assistance to them,

6 *urges* all States to comply strictly with the provisions of its various Resolutions and those of the Security Council concerning the colonial Territories, and in particular to give the necessary moral, political and material support to the peoples of those Territories in their legitimate struggle to achieve freedom and independence,

7 *requests* all States, as well as the specialized agencies and international institutions, to withhold assistance of any kind from the Governments of Portugal and South Africa and from the illegal racist minority régime of Southern Rhodesia until they renounce their policy of colonial domination and racial discrimination,

8 *declares* that the practice of using mercenaries against movements for national liberation and independence is punishable as a criminal act and that the mercenaries themselves are outlaws, and calls upon the Governments of all countries to enact legislation declaring the recruitment, financing and training of mercenaries in their territory to be a punishable offence and prohibiting their nationals from serving as mercenaries,

9 *requests* the colonial Powers to dismantle their military bases and installations in colonial Territories and to refrain from establishing new ones and from using those that still exist to interfere with the liberation of the peoples in colonial Territories in the exercise of their legitimate rights to freedom and independence,

10 *once again condemns* the policies, pursued by certain colonial Powers in the Territories under their domination, of imposing non-representative régimes and constitutions, strengthening the position of foreign economic and other interests, misleading world public opinion and encouraging the systematic influx of foreign immigrants while displacing, deporting and transferring the indigenous inhabitants to other areas, and calls upon those Powers to desist from such maneuvers,

11 *requests* the Special Committee to continue to perform its task and to seek suitable means for the immediate and full implementation of the Declaration in all Territories which have not yet attained independence,

12 *requests* the Special Committee to make concrete suggestions which could assist the Security Council in considering appropriate measures under the Charter of the United Nations with regard to developments in colonial Territories which are likely to threaten international peace and security, and recommends that the Council take such suggestions fully into consideration,

13 *requests* the Special Committee to continue to examine the compliance of Member States with the Declaration and with other relevant Resolutions on the question of decolonization, particularly those relating to the Territories under Portuguese domination, Southern Rhodesia and Namibia, and to report thereon to the General Assembly at its twenty-fourth session,

14 *invites* the Special Committee to pay particular attention to the small Territories and to recommend to the General Assembly the most appropriate methods and also the steps to be taken to enable the populations of those Territories to exercise fully their right to self-determination and independence,

RESOLUTION 800 (C-1977, last amended C-1984)

Telecommunications, an important factor in economic and social development: role of the ITU in this domain

The Council,

having examined the note by the Secretary-General entitled, “Telecommunications, an important factor in economic and social development: role of the ITU in this domain” (Document 5073/CA32),

noting

- a) that in all countries, regardless of their level of development, the existence of an adequate telecommunication infrastructure is of vital importance for economic and social development in different areas and that in consequence many international organizations, in addition to the ITU, are interested in one or more aspects of telecommunication development;
- b) that not all international organizations are sufficiently aware of the role of the ITU in the regulation and standardization of telecommunications or of the activities of the Union in preparing reports and recommendations relating to the planning and exploitation of the telecommunication infrastructure and services;
- c) the request addressed to the Director-General of UNESCO by the General Assembly of the United Nations, in its Resolution A/RES/31/139, to report, in cooperation with the specialized agencies concerned, on progress achieved in the development of mass communication systems, this report to be considered at the 33rd Session (1978) of the Assembly,

considering

- a) that the International Telecommunication Union is recognized by the United Nations as the specialized agency responsible for taking such action as may be appropriate under its basic instrument for the accomplishment of the purposes set forth therein;
- b) that article 4 of the International Telecommunication Convention, Nairobi, 1982, states the purposes of the Union as being:
 - to maintain and extend international cooperation between all Members of the Union for the improvement and rational use of telecommunications of all kinds, as well as to promote and to offer technical assistance to developing countries in the field of telecommunications;
 - to promote the development of technical facilities and their most efficient operation with a view to improving the efficiency of telecommunications services, increasing their usefulness and making them, so far as possible, generally available to the public;
 - to harmonize the actions of nations in the attainment of those ends;
- c) that through its organs, as specified in Article 5 of the International Telecommunication Convention, the action of the Union in the domain of telecommunications extends from regulation and standardization to the completion of technical studies leading to intergovernmental agreements on the planning, operation and maintenance of telecommunication services of all kinds, including telecommunication transmission systems and tariffs intended for mass communications;

d) that the ITU participates fully in the United Nations Development Programme as the executing agency for telecommunication projects,

recognizing that, in seeking to harmonize national and international efforts in the development of telecommunications, the Union is bound to maintain contact with other international organizations dealing with communications in order to be informed of their activities and to inform these organizations of existing regulatory and standardization provisions as well as past and present activities of the Union having a bearing on their work,

invites all Members of the Union

1 to provide national delegations attending meetings of the United Nations, the specialized agencies and other international organizations, where items concerning communications will be discussed, with a briefing on the role and responsibilities of the Union in the domain of telecommunications;

2 to bring this Resolution to the notice of these national delegations,

instructs the Secretary-General

1 to bring this Resolution to the notice of the Secretary-General of the United Nations and to the heads of the UN specialized agencies and of all other international organizations having an interest in the development of telecommunications;

2 to cooperate fully with the Director-General of UNESCO in the preparation of the report requested by the General Assembly in its Resolution A/RES/31/139 and to report on the progress achieved to the 33rd session of the Council;

3 to further the purposes of the Union by continuing to participate in the work of the United Nations and other international organizations in matters concerning telecommunications; in these forums, to emphasize the role and activities of the International Telecommunication Union in the domain of telecommunication development.

The Council,

recalling its Resolution 816 (amended), entitled “ITU Centenary Prize”,

noting that the Members of the Council are in favour of using the available funds, originally contributed for the construction of an ITU Centenary monument, for the upgrading and modernization of the ITU Central Library,

considering that as a part of the Union's effort to ensure more efficient interaction and exchange of information available at the Headquarters, the computerization of the Library would certainly result in quantitative and qualitative improvements in services rendered to the ITU Members and in particular to the Least Developed Countries,

resolves to use the Centenary Prize Funds for the modernization of the ITU Central Library, subject to approval of the donors,

instructs the Secretary-General

- 1 to seek the approval of Administrations which have contributed to the Fund;

DECISION 619 (C19, last amended C21)

Headquarters Premises

The ITU Council,

recalling

Resolution 212 (Dubai, 2018) on the Union's future headquarters premises over the long term and Council Decision 588 on Headquarters Premises,

recalling further

noting with appreciation

the efforts made by the ITU management and the BPD (Building Project Division) to optimise costs in order to reduce the overall cost of the new ITU Headquarters,

having considered

the report of the Secretary-General contained in document C19-ADD/2,

mindful

of the concerns of Member States with moving meetings of the ITU outside of Geneva for the duration of the demolition and early construction phase as national representations in Geneva have the human resources to attend ITU meetings while such resources are not necessarily available in all countries, and similar concerns expressed by ITU Staff who should not be expected to relocate outside of their Geneva homes for extended periods in order to cover the high number of meetings scheduled by the ITU but possibly hosted outside Geneva,

decides

1 to approve continuing the project to replace the Varembe building and Tower with a new building which, with the existing Montbrillant building, will form the new Geneva Headquarters of the Union;

2 to approve the final direct project cost of CHF 170 139 000, as described in C19-ADD/2, financed entirely by the available funding of CHF 150 000 000 host country loan, CHF 15 140 000 sponsorships and donations, and CHF 5 000 000 new building fund;

3 to provide an additional financial cushion for the non-mitigated risks up to CHF 12 600 000, which represents the cumulative limit of 8% of the current estimates of direct costs described in C19-ADD/2, through the creation of a Risk Register Fund to be financed by subsequent Council decisions beginning in 2020, in accordance with the Financial Regulations and Financial Rules;

4 that, as of the date of adoption of this decision, any future sponsorships or donations will only be accepted by ITU after:

- the proposed change order to the design is evaluated by the ITU management and BPD to assess the amount of all indirect costs (including Architect's fees, Building Management Consultant fees, General Contractor fees, etc.), all net direct costs, and the impact on the project schedule;
- the prospective sponsor agrees to pay for all these increased direct and indirect project costs as part of its sponsorship or donation; and
- BPD determines that the sponsorship or donation will not create further delays to the project;

5 to approve the funding to cover indirect project costs of up to CHF 2,275,000 for the period 2021-2023 through measures outlined in the Financial Regulations and Financial Rules and recommend PP-22 to include CHF 2,315,000 within the draft financial plan for the period 2024-2027 for the Capital Fund;

6 to apply all proceeds from the sale of the Tower as per Resolution 212 *recalling* c) v),

instructs the Secretary-General

1 to proceed with the request, to relevant Swiss authorities, for the second part of the CHF 150,000,000 loan;

2 to establish the Risk Register fund in *decides* 3 above noting that any monies left in this account at the end of construction will be placed in the Reserve Account;

3 to address the need for temporary conference and meeting facilities during the demolition and early construction phase of the project by producing a list of the needs, including dates of conferences and meetings during this period and report to MSAG on the progress thereof;

4 to continue the implementation of Council Decisions regarding the preservation of a Popov Room, including providing financial and legal analysis of options presented in paragraph 2.2.18.13 of the Summary record of the ninth and last Plenary Meeting of the 2019 ordinary session of Council (Document [C19/120](#));

ITU's role in ICTs and the empowerment of women and girls

The Council,

considering

- a)* the Convention on the Elimination of all Forms of Discrimination Against Women, adopted on 18 December 1979 by the UN General Assembly, often described as an international bill of rights for women. Consisting of a preamble and 30 articles, it defines discrimination against women and sets up an agenda for national action to end such discrimination;
- b)* the Plenipotentiary Conference of the International Telecommunication Union Resolution 70 (Rev. Guadalajara, 2010) "Gender mainstreaming in ITU and promotion of gender equality and the empowerment of women through information and communication technologies";
- c)* the United Nations General Assembly Resolution 64/289, on system-wide coherence adopted on 21 July 2010, that established the United Nations Entity for Gender Equality and the Empowerment of Women, known as "UN Women" with the mandate to promote gender equality and the empowerment of women;
- d)* the Millennium Development Goal 3 "Promote Gender Equality and Empower Women" calling to eliminate gender disparity in primary and secondary education, preferably by 2005, and in all levels of education no later than 2015. The Millennium Declaration and Millennium Development Goals were embraced by all UN Member States;
- e)* the United Nations Secretary-General during the sixty fourth General Assembly declared that "equality for women and girls is not only a basic human right it is a social and economic imperative. Where women are educated and empowered, economies are more productive and strong. Where women are fully represented, societies are more peaceful and stable.",

considering further

- a)* the progress made by ITU, and in particular the Telecommunication Development Bureau (BDT), in the development and implementation of actions and projects that use ICTs for the economic and social empowerment of women and girls, as well as in increasing awareness of the links between gender issues and ICTs within the Union and among Member States and Sector Members;
- b)* the results achieved by the Working Group on Gender Issues in promoting gender equality,

recognizing

- a) that society as a whole, particularly in the context of the information and knowledge society, will benefit from equal participation of women and men in policy-making and decision-making and equal access to communication services for both women and men;
- b) that information and communication technologies (ICTs) are tools through which gender equality and women's empowerment can be enhanced, and are integral to the creation of societies in which both women and men can substantively contribute and participate;
- c) that the outcomes of the World Summit on the Information Society (WSIS), namely the Geneva Declaration of Principles, the Geneva Plan of Action, the Tunis Commitment and the Tunis Agenda, outlined the concept of the information society and that continued efforts must be undertaken in this context to bridge the gender digital divide;
- d) that there are a growing number of women in the ICT field with decision-making power, including in relevant ministries, national regulatory authorities and industry, who could promote the work of ITU so as to encourage girls to choose a career in the field of ICT and foster the use of ICTs for the social and economic empowerment of women and girls,

recognizing further

- a) the progress achieved in raising awareness, both within ITU and among Member States, of the importance of integrating a gender perspective in all ITU work programmes and of increasing the number of women professionals in ITU, especially at the senior management level, while at the same time working towards the equal access of women and men to posts in the General Service category;
- b) the considerable recognition given to the work of ITU in gender and ICT within the UN family of organizations,

noting

- a) that Resolution 70 (Rev. Guadalajara, 2010) instructs the ITU Council to consider adopting the theme "Women and girls in ICT" to mark World Telecommunication and Information Society Day in 2012;

The ITU Council,

considering

- a) Resolution 70 on “Mainstreaming a gender perspective in ITU and promoting gender equality and the empowerment of women and girls through telecommunications/information and communication technologies”;
- b) Resolution 70/1 of the United Nations General Assembly (UNGA), on Sustainable Development Goal (SDG) 5 “Achieve gender equality and empower all women and girls”;
- c) Resolution 7 (Valletta, 1998) of the World Telecommunication Development Conference (WTDC) by the Plenipotentiary Conference in its Resolution 70 (Minneapolis, 1998), in which the conference resolved, inter alia, to incorporate a gender perspective in the implementation of all programmes and plans of ITU;
- d) Resolution 55 (Rev. Geneva, 2022) of the World Telecommunication Standardization Assembly, which encourages mainstreaming a gender perspective in the activities of the ITU Telecommunication Standardization Sector (ITU-T);

- e) Resolution 55 (Rev. Kigali, 2022) of WTDC, resolving that the Telecommunication Development Bureau (BDT) should maintain close links and collaborate, as appropriate, with the ITU Gender Task Force, set up by the Secretary-General to support gender mainstreaming in the Union's activities, with the aim of eliminating inequalities in access to and use of telecommunications/information and communication technologies (ICTs);
- f) Resolution 1327 adopted by the ITU Council at its 2011 session, on ITU's role in ICTs and the empowerment of women and girls;
- g) Resolution 1187 adopted by the ITU Council at its 2001 session on Gender Perspective in ITU Human Resource Management, Policy and Practice;
- h) the United Nations Economic and Social Council (ECOSOC) Agreed Conclusions 1997-2, and ECOSOC Resolution 2012/24, on incorporating and mainstreaming a gender perspective into all policies and programmes in the United Nations system, which welcomed the development of the United Nations System-wide Action Plan on Gender Equality and the Empowerment of Women (UN-SWAP);
- i) UNGA Resolution 70/125, on the outcome document of the UNGA high level meeting on the overall review of the implementation of the outcomes of the World Summit on the Information Society (WSIS), as well as the preamble to the WSIS+10 Statement on the implementation of WSIS outcomes, which reaffirmed the importance of promoting and maintaining gender equality and the empowerment of all women and girls and guaranteeing the inclusion of women in the emerging global ICT society, taking into account the mandate of the United Nations Entity for Gender Equality and the Empowerment of Women (UN Women);

- k) the Report of the Secretary-General “Our Common Agenda”, on taking measures of serious and urgent social and regulatory questions with respect to the “exacerbation of gender bias and male default thinking when women do not have an equal role in designing digital technologies, as well as digital harassment that has particularly targeted women and girls and pushed many women out of the public conversation”;
- l) the Road map for Digital Cooperation: implementation of the recommendations of the High-level Panel on Digital Cooperation (A/74/821), on the call upon the private sector, civil society, national Governments, multilateral banks and the United Nations to adopt specific policies to support full digital inclusion and digital equality;
- m) the agreed conclusions adopted by the Commission on the Status of Women at its sixty-seventh session, on innovation and technological change, and education in the digital age for achieving gender equality and the empowerment of all women and girls,

taking into account

that the Plenipotentiary Conference (Bucharest, 2022) adopted Resolution 70 (Rev. Bucharest, 2022) on “Mainstreaming a gender perspective in ITU and promoting gender equality and the empowerment of women and girls through telecommunications/information and communication technologies”, which instructs the Council:

- 1) “to accord high priority to monitoring the implementation of Gender Equality and Mainstreaming Policy (GEM), so that ITU can integrate a gender perspective throughout the organization and leverage the power of telecommunications/ICTs to empower women, girls, men and boys”;
- 2) “to continue and expand existing initiatives, and to accelerate the gender mainstreaming process, including through affirmative measures when necessary, in ITU as a whole, within existing budgetary resources, so as to ensure capacity building, skills development and the appointment of women to senior-level positions, including ITU elected positions, and also in recruitment for internships”;
- 3) “to allocate resources within ITU's budget to facilitate the implementation of this resolution to the fullest extent possible”;
- 4) “to examine the possibility for ITU, in close collaboration with relevant regional organizations, to take appropriate measures to establish a regional platform for women, devoted to using ICTs in order to promote gender equality and empowerment of women and girls”;

recalling

a) that ITU has already set up an internal task force on gender issues in 1998 (Resolution 7 adopted in the WTDC in La Valetta) that was tasked, amongst other things, with “ensuring that the benefits of telecommunications and the emerging information society are made available to all women, girls, men and boys in developing countries on a fair and equitable basis”, “encouraging the recruitment, employment, training and advancement of women and girls”;

b) that ITU also created the position of Senior Gender Affairs Officer (SGAO) and adopted in 2013 a Gender Equality and Mainstreaming Policy (GEM) that provides for a framework architecture in the organization,

acknowledging the need

a) for gender equality and the empowerment of all women and girls and women’s full, equal, effective and meaningful participation and decision-making in the context of innovation and technological change in the digital age and freedom from violence against women and girls in the digital contexts as essential to achieve sustainable development;

- b) for strengthening the gender architecture (Under Resolution 70 (Rev. Bucharest, 2022) the Council is tasked with “monitoring the implementation of GEM, so that ITU can integrate a gender perspective throughout the organization and leverage the power of telecommunications / ICTs to empower women, girls, men and boys”. It also requests the ITU Council to “continue and expand existing initiatives, and to accelerate the gender mainstreaming process, including through affirmative measures when necessary”;
- c) for a leadership that promotes gender equality and women and girl’s empowerment as an integral part of their appointment and performance assessment, and reinforcement of an institutional ‘gender equality culture’ that fosters a safe and welcoming environment for all employees and partners;
- d) for increasing senior management accountability to the Council and demonstrate a One-ITU approach to both external and internal gender related activities;
- e) for improving the accessibility of data and statistics disaggregated by income, gender, age, race, ethnicity, migratory status disability geographic location and other characteristics as described in SDG 17.18 through a new data policy guideline that will allow for a better monitoring and evaluation of the situation of all women across their lifecycles and on the multiple and intersecting forms of discrimination as obstacles to the achievement of gender equality and the empowerment of all women and girls in the context of innovation and technological change, and education in the digital age;
- f) to ensure the full, equal and meaningful participation and leadership of women in the digital and technology sectors and the development and implementation of policies to support of women led enterprises to reduce the gender digital divide;
- g) for adopting gender-responsive age- and disability-inclusive approaches for technology design, development of infrastructure, products and services based on accessibility, safety, sustainability, inclusivity, affordability and availability and catering to the needs of all women and girls throughout course of their lives,

recalling

- a) the importance of ensuring the mainstreaming a gender perspective within the budgetary matters, in particular of increasing the budget for the support of GEM and the SGAO;
- b) that in the process of gender mainstreaming, it is important to address the issue of harassment in the workplace, including sexual harassment, bearing in mind that it impedes the achievement of gender parity in the United Nations system and in the ITU and can have a negative impact on the achievement of gender equality;
- c) that disaggregation of data by social and economic factors including but not limited to income, gender, age, race, ethnicity, migratory status, disability, geographical location and other relevant characteristics in order to facilitate better understanding of the impact of telecommunications/ICTs on the achievement of gender equality and be able to identify the root causes of gender disparities in ICT access and digital participation;

d) that gender-inclusive language was encouraged by the PP-22 in the work of the Union, to the extent practicable,

decides

1 to request ITU to elaborate a Gender Action Plan to be presented to the Member States taking into account best practices in the United Nations system, that will include a reporting and coordination mechanism on all three sectors within ITU on gender related activities to the Member States;

2 to create a functional unit on gender equality and empowerment of women and girls in the Executive Office of the Secretary-General using existing resources, working in collaboration with the other Bureaux staff and competencies, and by inviting Member States to make voluntary contributions through existing programs, with the goal of supporting the Secretary-General on gender equality and social inclusion in the institution, institutional capacity for gender based analysis, analysis of key emerging ICT related gender issues, and gender mainstreaming, the implementation of a gender perspective in ITU and promoting gender equality and the empowerment of all women and girls in, within, and through telecommunications / information and communication technologies,

recommends

1 to use gender mainstreaming through the ITU project cycle and that the next WTDC studies this question in more detail including how ITU programming can address the digital gender gaps in, within and through STEAMD (Science, Technology, Engineering, Arts, Mathematics and Design) education, careers and entrepreneurship; strengthen women's leadership development in the governance of international telecommunications, and prevent and address all forms of misuse of digital technologies and the spectrum, whether on land in the air on the sea or in space, in any way that leads to sexual and gender based violence, abuse and harassment, discrimination or violation of the rights of all women and girls, as these act as an impediment to leadership, participation and access for women and girls in ICTs and in all spheres of the digital age; developing targeted capacity-building programs that address the specific knowledge and skills needs and challenges faced by women in the ICT sector, particularly in developing countries;

2 to encourage, to the extent practicable, the adoption of gender-inclusive language in the work of the Union,

invites the Secretary-General

1 to coordinate the development of a new Gender Action Plan for the organization based on prior consultation with Council Member States, and taking into account best practices in the UN system, build on prior strategic documents and focus on key issues, and provide a detailed set of policies within ITU including capacity building, skills development and human resources;

2 to include in the Gender Action Plan procedures to address immediately and urgently the lack of gender-balanced representation in ITU staff, especially in the professional and senior categories, and to submit the said Gender Action Plan and procedures, together with information on their implementation, to Council 2024 to evaluate effectiveness, provide comments and further instructions;

3 to put in place a reporting and coordination mechanism with detailed information and reports to be submitted back to the Council in order for Member States to be able to evaluate performance.
