GENERAL INFORMATION

Lists annexed to the ITU Operational Bulletin

Note from TSB

A. The following Lists have been published by TSB or BR as Annexes to the ITU Operational Bulletin (OB):

OB No.

- 1154 Status of Radiocommunications between Amateur Stations of Different Countries (In accordance with optional provision No. 25.1 of the Radio Regulations) and Form of Call Signs assigned by each Administration to its Amateur and Experimental Stations (Position on 15 August 2018)
- 1125 List of Signalling Area/Network Codes (SANC) (Complement to Recommendation ITU-T Q.708 (03/99)) (Position on 1 June 2017)
- 1125 List of terrestrial trunk radio mobile country codes (Complement to Recommendation ITU-T E.218 (05/2004)) (Position on 1 June 2017)
- 1117 List of mobile country or geographical area codes (Complement to Recommendation ITU-T E.212 (09/2016)) (Position on 1 February 2017).
- 1114 List of Recommendation ITU-T E.164 assigned country codes (Complement to Recommendation ITU-T E.164 (11/2010)) (Position on 15 December 2016)
- 1111 Mobile Network Codes (MNC) for the international identification plan for public networks and subscriptions (According to Recommendation ITU-T E.212 (09/2016)) (Position on 1 November 2016)
- 1109 List of International Signalling Point Codes (ISPC) (According to Recommendation ITU-T Q.708 (03/99)) (Position on 1 October 2016)
- 1096 Legal time 2016
- 1088 List of Issuer Identifier Numbers for the International Telecommunication Charge Card (In accordance with Recommendation ITU-T E.118 (05/2006)) (Position on 15 November 2015)
- 1060 List of ITU Carrier Codes (According to ITU-T Recommendation M.1400 (03/2013)) (Position on 15 September 2014)
- 1015 Access codes/numbers for mobile networks (According to ITU-T Recommendation E.164 (11/2010)) (Position on 1 November 2012)
- 1002 List of Country or Geographical Area Codes for non-standard facilities in telematic services (Complement to ITU-T Recommendation T.35 (02/2000)) (Position on 15 April 2012)
- 1001 List of the national authorities designated to assign ITU-T Recommendation T.35 terminal provider codes (Position on 1 April 2012)
- 1000 Service Restrictions (Recapitulatory list of service restrictions in force relating to telecommunications operation) (Position on 15 March 2012)
- 994 Dialling Procedures (International prefix, national (trunk) prefix and national (significant) number) (In accordance with ITU-T Recommendation E.164 (11/2010)) (Position on 15 December 2011)
- 991 Call-Back and alternative calling procedures (Res. 21.PP-2006)
- 980 List of Telegram Destination Indicators (In accordance with ITU-T Recommendation F.32 (10/1995)) (Position on 15 May 2011)
- 978 List of Telex Destination Codes (TDC) and Telex Network Identification Codes (TNIC) (Complement to ITU-T Recommendations F.69 (06/1994) and F.68 (11/1988)) (Position on 15 April 2011)
- 977 List of Data Network Identification Codes (DNIC) (According to ITU-T Recommendation X.121 (10/2000))
- 976 List of Data Country or Geographical Area Codes (Complement to ITU-T Recommendation X.121 (10/2000)) (Position on 15 March 2011)
- 974 List of Names of Administration Management Domains (ADMD) (In accordance with ITU-T F.400 and X.400 series Recommendations) (Position on 15 February 2011)
- 955 Various tones used in national networks (According to ITU-T Recommendation E.180 (03/98)) (Position on 1 May 2010)
- 669 Five-letter Code Groups for the use of the International Public Telegram Service (According to ITU-T Recommendation F.1 (03/1998))

B. The following Lists are available online from the ITU-T website:

Approval of ITU-T Recommendations

A. By AAP-44, it was announced that the following ITU-T Recommendations were approved, in accordance with the procedures outlined in Recommendation ITU-T A.8:

- ITU-T L.1450 (09/2018): Methodologies for the assessment of the environmental impact of the ICT sector

B. By TSB Circular 114 of 18 September 2018, it was announced that the following ITU-T Recommendations were approved, in accordance with the procedures outlined in Resolution 1:

- Recommendation ITU-T X.1361 (09/2018): Security framework for Internet of Things based on the gateway model

Telephone Service (Recommendation ITU-T E.164)

Botswana (country code +267)

Communication of 27.IX.2018:

The *Botswana Communications Regulatory Authority (BOCRA)*, Gaborone, announces the updated national numbering plan of Botswana.

National Numbering Plan (NNP)

First digit	Second digit									
	0	1	2	3	4	5	6	7	8	9
0	Int'l ^(a)	Short international dialling in region								
1	Short codes									
2	NG ^(b)	Geographic numbering (Francistown region)								
3	NG	Geographic numbering (Gaborone)								
4	NG	Geographic numbering (Palapye region)								
5	NG	Geographic numbering (south-east region)								
6	NG	Geographic numbering (north and west regions)								
7	Personal and mobile numbering									
8	Non-geographic numbering (freephone, etc.)									
9	PRS ^(c)	Reserved								Em ^(d)

(a) Int'l: international access code

(b) NG: non-geographic numbering

(c) PRS: premium rate services (non-geographic)

(d) Em: emergency code(s) (999, 998, 997)

Other communications

Ukraine

Communication of 21.IX.2018:

Ukraine expresses its strong disagreement about inclusion, upon request of the Russian Federation, in the ITU Operational Bulletin No. 1127 dated 1 July 2017 (https://www.itu.int/dms_pub/itu-t/opb/sp/T-SP-OB.1127-2017-OAS-PDF-E.pdf) of illegal National Destination Codes “365” and “869” allocated by the Russian Federation under the Country Code “+7”, which is not Ukraine’s Country Code, for public telecommunication in the temporarily occupied part of the territory of Ukraine – the Autonomous Republic of Crimea and the city of Sevastopol (hereinafter “Crimea”).

In this regard, it is necessary to recall that the UN General Assembly in its resolutions 68/262 of 27 March 2014, 71/205 of 19 December 2016 and 72/190 of 19 December 2017 confirmed the sovereignty, political independence, unity and territorial integrity of Ukraine within its internationally recognized borders. By these resolutions, the UN General Assembly also condemned the ongoing temporary occupation of Crimea by the Russian Federation and reaffirmed the non-recognition of its annexation.

It is also essential to recall the Agreed statement by the ITU Secretary-General at the 2014 Plenipotentiary Conference (Busan, 2014), published in Document PP-14/174, Annex B (<https://www.itu.int/md/S14-PP-C-0174/en>), through which the Union expressed its serious concerns about situation in Crimea and reaffirmed, inter alia, that the ITU should take into account the relevant provisions of the United Nations General Assembly resolution 68/262 of 27 March 2014 “Territorial integrity of Ukraine” calling upon all specialized agencies of the United Nations “not to recognize any alteration of the status of the Autonomous Republic of Crimea and the city of Sevastopol and to refrain from any action or dealing that might be interpreted as recognizing any such altered status”.

In the above mentioned Agreed statement the ITU Secretary-General further confirmed that the same principles should also apply in respect of any actions that might be required of the General Secretariat and the three Bureaux in order to assist its Member States and, in particular, Ukraine to ensure the use of all its international telecommunication services and resources as well as of any actions that might be taken by future ITU conferences and assemblies pertaining to Ukraine’s requirements in regard to use of the frequency spectrum and numbering codes on its territory.

Such unilateral actions by the Russian Federation aimed at changing the National Numbering Plan of Ukraine in the temporarily occupied part of the territory of Ukraine gravely violate international telecommunications law and create significant obstacles to the exercising by Ukraine of its sovereign right to regulate its telecommunication and to use its numbering resource within internationally recognized borders of Ukraine, including Crimea. They have also compromised the integrity of international public telecommunication numbering plan as defined by the ITU-T Recommendations E.164 (11/2010), E.212 (05/2008) and proper traffic routing by public telecommunication networks.

In accordance with the provisions of the ITU Constitution and Convention (Geneva 1992), as amended by the Plenipotentiary Conferences (Kyoto 1994, Minneapolis 1998, Marrakesh 2002, Antalya 2006, Guadalajara 2010), as well as relevant ITU Recommendations on allocation and management of international numbering resource, the Country Code “+380” and Mobile Country or Geographical Area Code “255” shall be used for the identification of calling line and for the provision of international telecommunication services within internationally recognized borders of Ukraine, including temporarily occupied part of its territory. In this regard, Ukraine calls upon all telecommunication operators in their respective countries to refrain from routing in the telecommunication public networks of the outgoing / incoming international traffic, which can be received in the indices of numbers of the numbering plan of the Russian Federation, allocated for the use in the territory of Crimea, by telecommunications operators of the Russian Federation, and under the international mobile country identification code of land-based networks with radio access “250” (MCC) identification codes (MNC): 32; 33; 34; 60.

Secretary-General of ITU:

Having considered the above communication of Ukraine, I wish to express my serious concern about the situation described in the above communication.

As stated by my predecessor at the 16th plenary meeting of the 2014 Plenipotentiary Conference (Busan), I hereby reaffirm that all ITU Member States have to respect the fundamental principles set forth in the instruments of the Union, in particular the sovereign right of each Member State, amongst which is Ukraine, to regulate its telecommunications within its internationally recognized borders.

As a Specialized Agency, the Union will fully continue, as it has always done it, to take into account requests handed down by the United Nations General Assembly; that includes the call addressed to Specialized Agencies in the UNGA Resolution 68/262 (2014) *“not to recognize any alteration of the status of the Autonomous Republic of Crimea and the city of Sevastopol”* and *“to refrain from any action or dealing that might be interpreted as recognizing any such altered status”*, as well as relevant provisions related to such status of the UNGA Resolutions 71/205 (2016) and 72/190 (2017).

The same principles shall also apply in respect of any actions that may be required of the General Secretariat and the three Bureaux, including the ITU publications and databases publishing, in order to assist Ukraine to ensure the use of all its international telecommunication services and resources as well as of any actions that may be taken by ITU conferences and assemblies pertaining to Ukraine’s requirement in regard to use of the frequency spectrum and numbering codes on its territory.

National Numbering Plan (According to Recommendation ITU-T E.129 (01/2013))

Web: www.itu.int/itu-t/inr/nnp/index.html

Administrations are requested to notify ITU about their national numbering plan changes, or to give an explanation on their webpage concerning the national numbering plan as well as their contact points, so that the information, which will be made available freely to all administrations/ROAs and service providers, can be posted on the ITU-T website.

For their numbering website, or when sending their information to ITU/TSB (e-mail: tsbtson@itu.int), administrations are kindly requested to use the format as explained in Recommendation ITU-T E.129. They are reminded that they will be responsible for the timely update of this information.

From 15.IX.2018, the following countries/geographical areas have updated their national numbering plan on our site:

<i>Country/ Geographical area</i>	<i>Country Code (CC)</i>
Israel	+972
Myanmar	+95
Vanuatu	+678
Zambia	+260
