Legal time changes

Egypt

Communication of 5.V.1999:

Telecommunications Regulatory Authority (TRA), Cairo, announces that legal time in Egypt is advanced by 60 minutes from 29 April 1999 to 30 September 1999 and thereby corresponds to UTC +3.

Assignment of Signalling Area/Network Codes (SANC) (ITU-T Recommendation Q.708)

Note from the TSB

At the request of the Administrations of the United States and Italy, the Director of the TSB has assigned the following signalling area/network codes (SANC) for use in the international part of the signalling systems No. 7 network of these countries/geographical areas, in accordance with ITU-T Recommendation Q.708:

<i>Country/geographical area or signalling network</i>	<i>SANC</i>
United States of America	3-185
Italy	2-043

SANC: Signalling Area/Network Code.
Code de zone/réseau sémaphore (CZRS).
Código de zona/red de señalización (CZRS).

Bureaufax Service

Canada

Communication of 22.III.1999:

The *Société canadienne des postes (SCP)*, Ottawa, announces that the Bureaufax Service will cease to operate in Canada on 1 June 1999. Consequently, pages 39 and 40 of the Bureaufax Table referring to Canada should be deleted.

Telegram Service

Telex Service

Note from the TSB

Telegram Destination Indicators *ITU-T Recommendation F.32 (previously F.96)*

1. By TSB Circular 179 of 16 October 1995, the TSB announced the approval of ITU-T Recommendation F.32 (previously F.96), in accordance with Section 8 of the WTSC Resolution 1 (Helsinki, 1993), and by TSB Circular 104 of 23 March 1998 it announced the approval of ITU-T Recommendation F.1 "Operational provisions for the international public telegram service", the text of which was revised by ITU-T Study Group 2.
2. TSB accordingly prepared a *List of Telegram Destination Indicators* allocated to countries/geographical areas or networks (first two letters) and assigned to telegraph offices of destination (third and fourth letters), in accordance with ITU-T Recommendation F.32 (10/95). This List also contains special origin indicators and indicators to be used in the preamble line of Government telegrams to designate international organizations pursuant to paragraph A218 of ITU-T Recommendation F.1 (03/98).
3. The new List, published as an Annex to Operational Bulletin No. 692 of 15 May 1999, replaces that published in Annex to Operational Bulletin No. 644 of 15 May 1997. It incorporates the 20 Amendments published in ITU Operational Bulletins from No. 645 of 1.VI.1997 to No. 692 of 15.V.1999.

4. In the interests of keeping the List up to date, administrations/ROAs are requested to check the accuracy of the information it contains – in particular the names of administrations and recognized operating agencies (ROAs) in charge of the telegram network – and to inform TSB as soon as possible of any changes which should be made for its updating (TSB fax No. +41 22 730 5853, or telegraphic address *ITU Genève*, or telex number *421000 uit ch*). Changes will be published in the following ITU Operational Bulletin as Amendments to the List.

5. For information, subscribers may consult the List online (<http://www.itu.int/itudoc/itu-t/ob-lists>) in the ITU-T document database, under the heading "*Operational Bulletin and Lists annexed*".

Saint Vincent and the Grenadines

Communication of 4.V.1999:

Change of telex number of telegram and telex exchange

Cable & Wireless, St. Vincent & the Grenadines, announces that as from 3 April 1999 the telex number/answer-back code "711 CWPTNG VQ" of the C&W St. Vincent & the Grenadines telegram and telex exchange has been changed to "7011 CWPTNG VQ". All telegram and telex traffic as of that date will be routed via the CWC London network which requires the use of telex numbers with four (4) digits.

For all service information, please contact:

Mr. John Melville
Supervisor Data Network Services
Tf: +1 784 457 1901 ext. 175
Fax: +1 784 456 4998

International and domestic carriers operating telegram and telex services are asked to ensure that the new telex number/answer-back code 7011 CWPTNG VQ to be used for routing telegram and telex traffic to Saint Vincent and the Grenadines is activated throughout their networks; they are requested to pass this information on to all departments concerned, particularly switching and international network management.

Tonga

Communication of 7.V.1999:

Cable and Wireless plc, Tonga, Nuku'alofa, announces that owing to the termination of the international telegram and telex services of the Kingdom of Tonga, effective 30 June 1999, the following telegraph office code (ITU-T Recommendation F.32), telex network identification code (ITU-T Recommendation F.69) and telex destination code (ITU-T Recommendation F.68) will be deleted as from 1 July 1999 at 0001 hours UTC:

Telegram

Telegraph office	Office code
Tonga, all destinations	TSYA

Telex

Telex destination code (TDC)	777
Telex network identification code (TNIC)	TS

The two-letter code used as telegram destination indicator and as telex network identification code (TNIC) "TS", and the telex destination code 777 will however remain reserved for the Kingdom of Tonga.

In view of the above changes, Tonga will use the bureaufax and electronic mail services as replacement of the above services.

For any question relating to the service, please contact :

Other communication

Note from the Telecommunication

Standardization Bureau (TSB):

On 4 May 1999, the Telecommunication Standardization Bureau of ITU received by fax from the Federal Minister of Telecommunications of the Federal Republic of Yugoslavia a letter containing the following information on the subject of Beogradska Banka A.D., the new accounting authority of the Federal Ministry of Telecommunications for international telecommunication affairs" (see ITU Operational Bulletin No. 689 of 1.IV.1999, page 11):

(Original text: English – exact quotation from the letter referred to above)

"Taking into account the state of war being in force in the FR of Yugoslavia, we are not in possibility, from technical reasons, to operationally implement the decision on transferring the newly nominated authority the obligations of accounting PTT services in the international PTT traffic.

I would therefore like to inform you that our decision, elaborated in our message of 15th March, 1999, for the time being is to be frozen, until further notice.

Relevant information on the future measures, as well as on the restoration of the decision of this Ministry on the accounting of PTT services in the international PTT traffic, will be submitted to you in due time."

LIST OF TELEGRAM DESTINATION
INDICATORS

(In accordance with ITU-T Recommendation F.32)

(POSITION ON 15 MAY 1999)

Geneva, 1999

LIST OF TELEGRAM DESTINATION INDICATORS

ITU-T Recommendation F.32 (previously F.96)

Note from the TSB

1. By TSB Circular 179 of 16 October 1995, the TSB announced the approval of ITU-T Recommendation F.32 (previously F.96), in accordance with Section 8 of the WTSC Resolution 1 (Helsinki, 1993), and by TSB Circular 104 of 23 March 1998 it announced the approval of ITU-T Recommendation F.1 "Operational provisions for the international public telegram service", the text of which was revised by ITU-T Study Group 2.

TSB accordingly prepared a *List of Telegram Destination Indicators* allocated to countries/geographical areas or networks (first two letters) and assigned to telegraph offices of destination (third and fourth letters), in accordance with ITU-T Recommendation F.32 (10/95). This List also contains special origin indicators and indicators to be used in the preamble line of Government telegrams to designate international organizations pursuant to paragraph A218 of ITU-T Recommendation F.1 (03/98).

2. The new List, published as an Annex to Operational Bulletin No. 692 of 15 May 1999, replaces that published in Annex to Operational Bulletin No. 644 of 15 May 1997. It incorporates the 20 Amendments published in ITU Operational Bulletins from No. 645 of 1.VI.1997 to No. 692 of 15.V.1999.

In addition, Administrations/ROAs are reminded that the new List of Telex Network Identification Codes (TNIC) referred to in paragraph 7.3 of ITU-T Recommendation F.32 (10/95) is published separately as annex to the ITU Operational Bulletin and is regularly updated by amendments.

One of the main objectives of ITU-T Recommendation F.32 (10/95) is to encourage administrations/ROAs to reduce the number of destination indicators allocated to their telegram networks. In recent years, many telegram retransmission centres have been installed and administrations have adopted a single destination indicator (--XX) for all destinations, or have assigned only a very limited number of indicators to their networks. TSB wishes to draw the particular attention of the administrations to Section 6 of ITU-T Recommendation F.32 (10/95), which states that "the office codes (i.e. the third and fourth letters in a destination indicator) allocated for each network code should be kept to a minimum number in each network", and that "Where the destination network is capable of carrying out the national routing without an office code (e.g. by analysing the address part of the telegram as well as the pilot line), a single office code (--XX) is preferred".

3. In the interests of keeping the List up to date, administrations/ROAs are requested to check the accuracy of the information it contains and to inform TSB as soon as possible of any changes which should be made for its updating (TSB fax No. **+41 22 730 5853**, or telegraphic address **ITU Genève**, or telex number **421000 uit ch**). Changes will be published in the following ITU Operational Bulletin as Amendments to the List.

4. For information, subscribers may consult the List online (<http://www.itu.int/itudoc/itu-t/ob-lists>) in the ITU-T document database, under the heading "*Operational Bulletin and Lists annexed*".

5. The designations used and the information presented in the List do not imply the expression of any opinion whatsoever on the part of ITU concerning the legal status of any country or geographical area, or of its authorities.

<p>1) Where possible the Australian Postal Code should be included in the office of destination on the last address line. For example: MELBOURNE(3000), BURWOOD(3125), or RICHMOND(7025) Where the Australian Postal Code is not known by the office of origin it is advisable to include an indication of the State in order to avoid ambiguities. For example : BURWOODVICTORIA, or RICHMONDTASMANIA Telegrams directed to a coast station (for onward transmission to a ship at sea) do not need a postal code or State indication. For example : PERTHRADIO, SYDNEYRADIO</p> <p>2) Also valid for Cocos-Keeling Islands – Indian Ocean. For the record, the former destination indicator (KLID) for Cocos-Keeling Islands – Indian Ocean had been replaced by the destination indicator KLXX "All destinations" (see updating of the TRS/TNIC List by Amendment No. 15, published in Operational Bulletin No. 558 of 28.X.1993, page 10). According to the communication by Australia published on page 2 and 3 of Operational Bulletin No. 584 of 15.XI.1994, the only valid indicator for Cocos-Keeling Islands – Indian Ocean after 31 March 1995 will be AAXX.</p>
