Licensing declaration:

The Patent Holder believes that it holds granted patents and/or pending applications, the use of which would be required to implement the above document and hereby declares, in accordance with the Statement on the Common Patent Policy for ITU-T/ITU-R/ISO/IEC, that (check one box only):

☐	1. The Patent Holder is prepared to grant a <u>free</u> license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and under other reasonable terms and conditions to make, use, and sell implementations of the above document. Negotiations are left to the parties concerned and are performed outside the ITU-T, ITU-R, ISO or IEC. <i>Also mark here ___ if the Patent Holder's willingness to license is conditioned on reciprocity for the above document.</i> <i>Also mark here ___ if the Patent Holder reserves the right to license on reasonable terms and conditions (but not for free) to applicants who are only willing to license their patent claims, whose use would be required to implement the above document, on reasonable terms and conditions (but not for free).</i>										
X	2. The Patent Holder is prepared to grant a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on reasonable terms and conditions to make, use and sell implementations of the above document. Negotiations are left to the parties concerned and are performed outside the ITU-T, ITU-R, ISO, or IEC. <i>Also mark here <u>X</u> if the Patent Holder's willingness to license is conditioned on reciprocity for the above document.</i>										
☐	3. The Patent Holder is unwilling to grant licenses in accordance with provisions of either 1 or 2 above. In this case, the following information must be provided as part of this declaration: - granted patent number or patent application number (if pending) - an indication of which portions of the above document are affected; - a description of the patent claims covering the above document.										
Free: The word "free" does not mean that the Patent Holder is waiving all of its rights with respect to the essential patent. Rather, "free" refers to the issue of monetary compensation; <i>i.e.</i>, that the Patent Holder will not seek any monetary compensation as part of the licensing arrangement (whether such compensation is called a royalty, a one-time licensing fee, etc.). However, while the Patent Holder in this situation is committing to not charging any monetary amount, the Patent Holder is still entitled to require that the implementer of the above document sign a license agreement that contains other reasonable terms and conditions such as those relating to governing law, field of use, reciprocity, warranties, etc. Reciprocity: As used herein, the word "reciprocity" means that the Patent Holder shall only be required to license any prospective licensee if such prospective licensee will commit to license its essential patent(s) or essential patent claim(s) for implementation of the same above document for free or under reasonable terms and conditions.
