Title: **Patent Statement Relating to Draft New ITU-T Recommendation G.983 –
High speed optical access systems based on Passive Optical Network**

Northern Telecom Limited, for itself and its subsidiaries (hereinafter called "Nortel") will grant licenses under its Patents on a non-exclusive basis and on non-discriminatory, fair and reasonable terms to all parties solely for their use in complying with the Standard, but on condition that any such party grants to Nortel and its corporate affiliates similar licenses under such party's Patents, if any, for use in complying with the Standard.

The grant by Nortel will be for licenses to make, use, sell, lease and import any equipment complying with the Standard.

Any application for a license under Nortel's Patents pursuant to this Patent Statement should be made to:

Brampton, Ontario

Tel: (905) 863-1146 Fax: (905) 863 8431

As used herein:

"Patent" means any patent for an invention made prior to the adoption by the International Telecommunications Union (ITU) of the Standard, the use of which may be technically essential to meeting the Standard, and may include more particularly United States Patents 5,237,593 and 5,321,754, both entitled Sequence Synchronization, and corresponding patents in other countries deriving from the same priority applications.

"Standard" means a standard approved by ITU and corresponding to draft new ITU-T Recommendation G.983 – High speed optical access systems based on Passive Optical Network.
