REF: IPRs statement for G729 annex C, D and E

Dear sir,

As requested in the letter sent by the chairman of WP3 /16, we are very pleased to confirm to ITU that the Université de Sherbrooke is willing to license its Intellectual Property Rights (IPRs) relating to the C code of G729 Annex C, D and E under reasonable terms and conditions for use by purchasers of the related Recommendations.

As you are probably aware, the Université de Sherbrooke is a member of the Consortium G729 created on March 10, 1998 with NTT and France Telecom. Our IPRs related to G729 and its annexes will be available through the Licensing Agent of the Consortium G729. The Licensing Agent of the Consortium G729 is Sipro Lab Telecom Inc. (SLT) ( [www.sipro.com](http://www.sipro.com) / sales mail : [Sales@sipro.com](mailto:Sales@sipro.com) ).

Please do not hesitate to contact me if you have any questions.

Sincerely,

Sylvain Desjardins, Director  
Technology Transfer Office
