Mr. Keith Brannon
ISO - ITTF
Case Postale 56
CH-1211 Geneve 20
Switzerland

Dear Mr. Brannon:

Texas Instruments Incorporated ("TI") is aware of and supports the ISO policy regarding licensing of intellectual property rights that are necessary to practice ISO standards. Accordingly, it is TI's intention to grant licenses on reasonable terms and conditions of existing patents, to the extent that such patents necessarily would be directly infringed by the manufacture, sale and implementation of the MPEG Video standard under development as represented by the current Draft International Standards 13818-1, 13818-2, and 13818-3. This undertaking is expressly conditioned upon the receipt by the ISO of similar undertakings from all Working Group members, and/or holders of any blocking intellectual property rights. If it becomes appropriate as the standards-making activity progresses, TI intends to refine the foregoing undertaking by identifying specific patents to be licensed.

Clyde Camp, P. E.
Corporate Standards Director
