CCITT Patent Statement for p x 64 kbit/s video coding

In case the p x 64 kbit/s video coding is made the subject of a CCITT Recommendation, Philips is willing to grant a non-exclusive, non-transferable license on reasonable and non-discriminatory terms and conditions under patents that Philips hold, but

- only to the extent they cover features contained in this CCITT Recommendation,
- only for use in equipment fully complying with this CCITT Recommendations, and
- on the condition that any requesting party express willingness to grant to Philips licenses on no less favourable terms and conditions under its patents, if any, for use in complying with this CCITT Recommendation.

With kind regards

(Dr. J. Speidel)
