Dear Dr. Irmer:

Motorola, Inc. is pleased that the standardization in relation to H.223/Annex B-Multiplexing Protocol for Low Bitrate Mobile Multimedia Communication over Moderate Error-Prone Channels, H.324/Annex C - Multimedia Telephone Terminals Over Error-Prone Channels, and H.263/Annex K, Slice Structured Mode, have been decided, respectively.

Motorola, Inc. hereby declares that it is prepared to license its patents, both granted and pending, which are necessary to manufacture, use and sell implementations of the proposed H.223 standard, H.324 standard, and H. 263 standard, respectively.

Motorola, Inc. hereby also declares that it is aware of the rules governing inclusion of patented items in international standards, as described by the Statement on TSB Patent Policy, and in particular that it is willing to grant a license to an unlimited number of applicants throughout the world under reasonable terms and conditions that are demonstrably free of any unfair competition.

Regards,

  
James J. Mikulski  
Motorola
