ITU-T Recommendation:

Number: ITU-T P.862.2

Title: Wideband PESQ

Licensing declaration

The Patent Holder believes to hold granted patents and/or pending applications, whose use would be required to implement the above ITU-T Recommendation and hereby declares, in accordance with the Statement on ITU-T Patent Policy (see ITU-T website), that (check one box only).

☐ 1 The Patent Holder is prepared to grant – on the basis of reciprocity for the above ITU-T Recommendation – a free license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and under other reasonable terms and conditions to make, use and sell implementations of the above ITU-T Recommendation.

Negotiations are left to the parties concerned and are performed outside the ITU-T.

Also mark here ____ if the Patent Holder reserves the right to license on reasonable terms and conditions (but not for free) to applicants who are only willing to license their patent claims, whose use would be required to implement the above ITU-T Recommendation, on reasonable terms and conditions (but not for free).

☒ 2 The Patent Holder is prepared to grant – on the basis of reciprocity for the above ITU-T Recommendation – a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on reasonable terms and conditions to make, use and sell implementations of the above ITU-T Recommendation.

Negotiations are left to the parties concerned and are performed outside the ITU-T.

☐ 3 The Patent Holder is unwilling to grant licenses according to the provisions of either 1 or 2 above. In this case, the following information must be provided as part of this declaration:

- patent registration/application number;
- an indication of which portions of the Recommendation are affected;
- a description of the patent claims covering the Recommendation.

Free: The word "free" does not mean that the Patent Holder is waiving all of its rights with respect to the essential patent. Rather, "free" refers to the issue of monetary compensation; *i.e.*, that the Patent Holder will not seek any monetary compensation as part of the licensing arrangement (whether such compensation is called a royalty, a one-time licensing fee, etc.). However, while the Patent Holder in this situation is committing to not charging any monetary amount, the Patent Holder is still entitled to require that the implementer of the ITU-T Recommendation sign a license agreement that contains other reasonable terms and conditions such as those relating to governing law, field of use, reciprocity, warranties, etc.

Reciprocity: As used herein, the word "reciprocity" means that the Patent Holder shall only be required to license any prospective licensee if such prospective licensee will commit to license its essential patent(s) or essential patent claim(s) for implementation of the same ITU-T Recommendation for free or under reasonable terms and conditions.

Patent Information (desired but not required)			
No.	**Registration Number/ Country**	***Title/ Inventor***	**Status** [granted/ pending]
1	2,215,366 / Canada	Signal quality determining device and method / J.G. Beerends	Granted
2	ZL 96193745.9 / China	Signal quality determining device and method / J.G. Beerends	Granted
3	0815705 / Austria	Signal quality determining device and method / J.G. Beerends	Granted
4	0815705 / Belgium	Signal quality determining device and method / J.G. Beerends	Granted
5	0815705 / Switzerland and Liechtenstein	Signal quality determining device and method / J.G. Beerends	Granted
6	0815705 / Germany	Signal quality determining device and method / J.G. Beerends	Granted
7	0815705 / Denmark	Signal quality determining device and method / J.G. Beerends	Granted
8	0815705 / Spain	Signal quality determining device and method / J.G. Beerends	Granted
9	0815705 / Finland	Signal quality determining device and method / J.G. Beerends	Granted
10	0815705 / France	Signal quality determining device and method / J.G. Beerends	Granted
11	0815705 / United Kingdom	Signal quality determining device and method / J.G. Beerends	Granted
12	0815705 / Greece	Signal quality determining device and method / J.G. Beerends	Granted
13	0815705 / Ireland	Signal quality determining device and method / J.G. Beerends	Granted
14	0815705 / Italy	Signal quality determining device and method / J.G. Beerends	Granted
15	0815705 / Luxembourg	Signal quality determining device and method / J.G. Beerends	Granted
16	0815705 / The Netherlands	Signal quality determining device and method / J.G. Beerends	Granted
17	0815705 / Portugal	Signal quality determining device and method / J.G. Beerends	Granted
18	0815705 / Sweden	Signal quality determining device and method / J.G. Beerends	Granted
19	1009691 / Hong Kong	Signal quality determining device and method / J.G. Beerends	Granted
20	527291 / 1996 Japan	Signal quality determining device and method / J.G. Beerends	Pending
21	2004-113335 Japan	Signal quality determining device and method / J.G. Beerends	Pending
22	6,041,294 / US	Signal quality determining device and method / J.G. Beerends	Granted
