ITU-T Recommendation:

Number T.88

Title JBIG2

Licensing declaration

The Patent Holder believes to hold granted patents and/ or pending applications, whose use would be required to implement the above ITU-T Recommendation and hereby declares in accordance with the statement on TSB Patent Policy (WTSC 96, Resolution 1, Appendix I), that (check one box only).

- ☐ 1 The Patent Holder is prepared to grant - on the basis of reciprocity for the above ITU-T Recommendation - a free license to an unrestricted number of applicants on a worldwide, non-discriminatory basis to manufacture, use and/or sell implementations of the above ITU-T Recommendation.
- ☒ 2 The Patent Holder is prepared to grant - on the basis of reciprocity for the above ITU-T Recommendation - a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on reasonable terms and conditions to manufacture, use and/ or sell implementations of the above ITU-T Recommendation.
- Such negotiations are left to the parties concerned and are performed outside the ITU-T.
- ☐ 3 The Patent Holder is unwilling to grant licenses according to the provisions of either 1 or 2 above. In this case, the following information must be provided as part of this declaration:
- patent registration/application number;
 - an indication of which portions of the Recommendation are affected.
 - a description of the patent claims covering the Recommendation;

Patent Information (voluntary information)

No.	Registration Number/ Country	Title/ Inventor	Status [granted/ pending]
1	Patent No. 5,884,014 / U.S.	"FONTLESS STRUCTURED DOCUMENT IMAGE REPRESENTATIONS FOR EFFICIENT RENDERING" (Huttenlocher, Rucklidge)	granted

Xerox is currently aware of only one U.S. Patent which may affect implementations of the ITU T.88 (JBIG2) standard. U.S. Patent No. 5,884,014 ("FONTLESS STRUCTURED DOCUMENT IMAGE REPRESENTATIONS FOR EFFICIENT RENDERING") is owned by Xerox Corporation.

Should the ITU T.88 standard be formally adopted, Xerox is prepared to make the following commitments:

To the extent that Xerox's existing intellectual property rights under U.S. Patent No. 5,884,014 may impact the implementation of a product capable of compliance with the ITU T.88 standard, Xerox agrees to provide, upon request, a royalty-free, non-exclusive license on reasonable and non-discriminatory terms and conditions under decoding-related claims 13 and 14 of the above-identified patent, for the purpose of making, having made, using, selling, offering for sale, or otherwise disposing of a product implementing the ITU T.88 standard, and only to the limited extent necessary for the product to comply with the ITU T.88 standard.

Furthermore, to the extent that the ITU T.88 standard cannot be practiced without using Xerox's existing intellectual property rights set forth in the foregoing patent or another patent or patents, Xerox agrees to provide, upon request, a non-exclusive license on reasonable and non-discriminatory terms and conditions under the necessary claims of such patent or patents, for the purpose of making, having made, using, selling, offering for sale, or otherwise disposing of a product implementing the ITU T.88 standard, and only to the limited extent necessary for the product to comply with the ITU T.88 standard.

Any license granted by Xerox under this Statement shall be subject to the following condition: any party receiving such a grant from Xerox must agree to grant Xerox, upon request, a license under that party's patents relating to the ITU T.88 standard, on terms and conditions no less favorable than those granted by Xerox to that party.
