The Patent Holder is prepared to grant a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on reasonable terms and conditions to make, use and sell implementations of the above ITU-T Recommendation   ISO/IEC International Standard.</p> <p>Negotiations are left to the parties concerned and are performed outside the ITU-T   ISO/IEC.</p> <p><i>Also mark here <u>   </u> if the Patent Holder's willingness to license is conditioned on reciprocity for the above ITU-T Recommendation   ISO/IEC International Standard.</i></p>

<p><b>Free:</b> The word "free" does not mean that the Patent Holder is waiving all of its rights with respect to the essential patent. However, while the Patent Holder in this situation is committing to not charging any monetary amount, the Patent Holder is still entitled to require that the implementer of the ITU-T Recommendation   ISO/IEC International Standard sign a license agreement that contains other reasonable terms and conditions such as those relating to governing law, field of use, reciprocity, warranties, etc.</p> <p><b>Reciprocity:</b> As used herein, the word "reciprocity" means that the Patent Holder shall only be required to license any prospective licensee if such prospective licensee will commit to license its essential patent(s) or essential patent claim(s) for implementation of the same ITU-T Recommendation   ISO/IEC International Standard for free or under reasonable terms and conditions.</p>
