6 December
09:30 - 11:00
Room 5

Objectives

The primary objectives of the first DCAD meeting is to approve a "Declaration" addressed to IGF authorities, other Dynamic Coalitions and all stakeholders, stating the core views and proposals related to policies in the field of accessibility and disability in Internet, in particular "Internet accessibility" and how to improve it. DCAD will then assist, through this declaration, the IGF in making themselves accessible in future meetings. The declaration will also state what DCAD objective is and who the DCAD Partners are. In addition this meeting will discuss and approve an Action Plan for future activities and will provide a venue to discuss and interact with experts on accessibility for persons with disabilities.
