

Prof. Dr. Toni Janevski

Toni Janevski, Ph.D., is a Professor at the Faculty of Electrical Engineering and Information Technologies, Ss. Cyril and Methodius University, Skopje, Macedonia. He is with the University since 1999, while in the period between 1996 and 1999 he was working for the mobile operator Mobimak (now T-Mobile, Macedonia). Also, he was a Commissioner of the Agency for Electronic Communications of the Republic of Macedonia during the period 2005-2008. During the periods 2008-2012 and 2012-2016 he was an elected member of the Senate of the Ss. Cyril and Methodius University in Skopje. In 2009 he has established Macedonian ITU Centre of Excellence and serves as its head/coordinator since then. He is the author of the book "Traffic Analysis and Design of Wireless IP Networks", published in 2003 by Artech House, USA. In April 2014 appeared his book "NGN Architectures, Protocols and Services", published by John Wiley & Sons, UK. He is also author of the book "Internet Technologies for Fixed and Mobile Networks", published in November 2015 by Artech House, USA. He has published over 200 papers and has led several research and application projects. In 2012 he has won "Goce Delchev" award, the highest award for science in Macedonia (can be received once in a lifetime). Also, he received Best Scientists Award of the Ss. Cyril and Methodius University in Skopje for 2013 (can be received once in a lifetime). Prof. Janevski has tutored and coordinated 18 e-learning courses on the ITU Academy since 2009. His interests include Internet Technologies, Mobile/Wireless and Multimedia Networks and Services, QoS and its Regulation, Design and Modeling of Telecommunication Networks, Next Generation Networks, Cloud Computing, and Future Networks.
