Mr. Trevor JENNER – BIO DATA

Mr. Trevor Jenner has held the position of Manager Capability Policy - Transport and Communications at Emergency Management Australia for the past four years. During that time he has been responsible for the development and implementation of capability policy in all areas of the disaster communications including information and communications technology, radio, satellite, and telecommunications.

Trevor represents the Australian emergency management community on a number of communications-related committees including the Asia Pacific Telecommunity's Disaster Management Communications Systems Expert Group, the Australian Radiocommunications Study Group, and the United Nations Asia Pacific Humanitarian Partnership.
