

## **Mr. Khalid HUSAIN - BIO DATA**

As part of its activities, UNESCAP draws on its regional mandate to promote cooperation in Asia and Pacific in the area of disaster management. In the aftermath of the Indian Ocean tsunami, a multi-donor voluntary trust fund on tsunami early warning system arrangements in the Indian Ocean and Southeast Asia was established, for which UNESCAP is the administrator.

Mr. Khalid Husain, the Programme Officer for the Fund, will make a short presentation on the Fund. Prior to UNESCAP, Mr. Husain worked at UNDP in New York on the energy and development trust fund as well as on broader global climate change and energy policy issues.
