

Mr. Sanny R. Jegillos - BIO DATA

Regional Programme Coordinator - Capacity Building for Sustainable Recovery & Risk Reduction in Tsunami Affected Countries

Area of Work: Natural Disaster Reduction, Recovery

Sanny leads the regional tsunami project effort to provide strategic guidance on risk reduction and sustainable recovery in tsunami affected countries. Sanny liaises among UN agencies, contributes to the design of the International Recovery platform, documents and shares lessons learned from the regional programme, and develops alliances with regional partners.

Sanny brings a broad range of disaster risk management experience to UNDP. Immediately following the Indian Ocean tsunami, Sanny joined the IFRC to provide advice in needs assessment and planning for the regional programme and national disaster reduction plans for Thailand and Indonesia. Sanny previously advised and consulted on disaster risk management for UNDP in Bangladesh, Yemen and Lao PDR, with UNICEF in Vietnam, WFP in Cambodia, with UNCRD in Japan, and ADB in Afghanistan among others.
