ITU WORK IN DEVELOPMENT

COMMITTED TO CONNECT SIDS

PP - RESOLUTION 30
(Rev. Guadalajara, 2010)

WTDC - RESOLUTION 16
(Rev. Dubai, 2014)

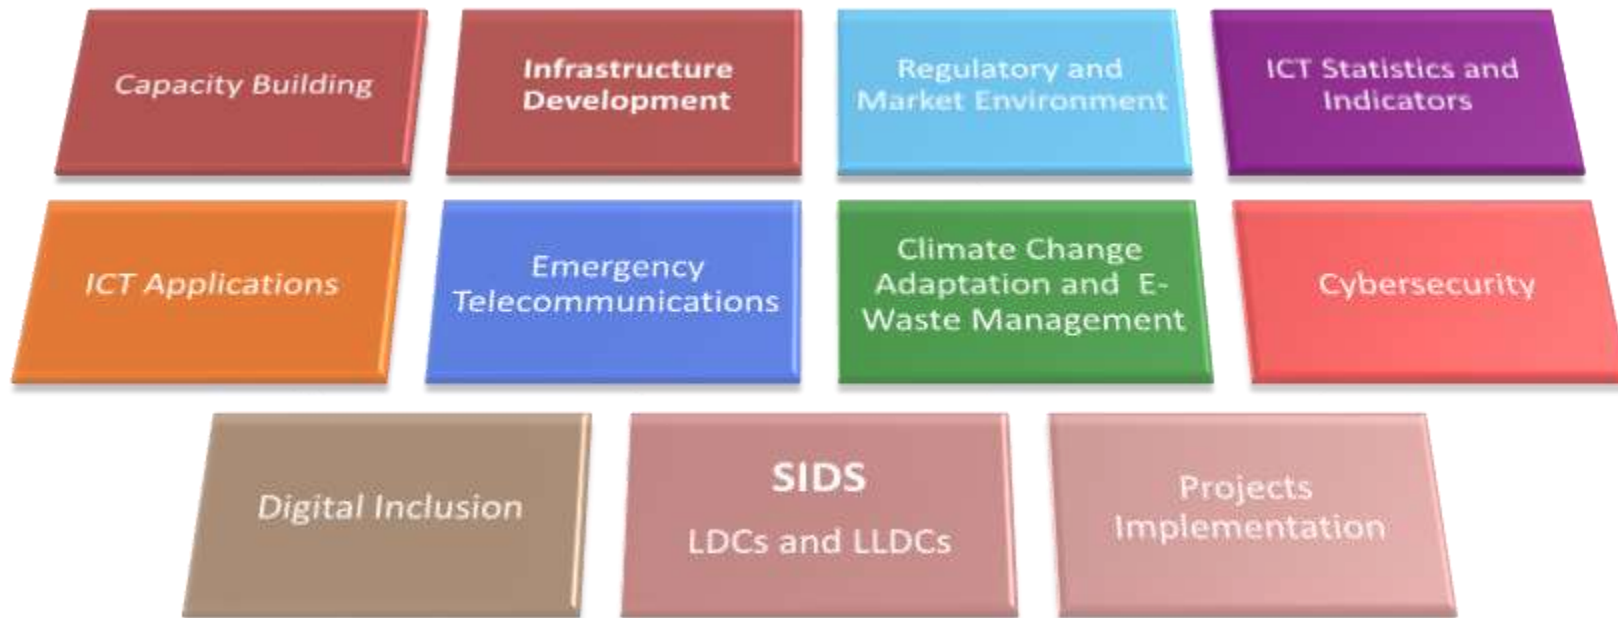

RESOLUTION PLEN/1 (DUBAI, 2012)
Special measures for landlocked
developing countries and small island
developing states for access to
international optical fibre networks **The
World Conference on International
Telecommunications (Dubai, 2012)**

*Article 40 of the ITU Constitution
addresses the "priority of
telecommunications concerning safety
of life"*

THE DUBAI ACTION PLAN FOR SIDS,
LDCs, LLDC's, COUNTRIES IN SPECIAL
NEED, EMERGENCY
TELECOMMUNICATIONS AND CLIMATE-
CHANGE ADAPTATION,

UNITED NATIONS RESOLUTION 67/207
- Follow-up to and implementation of
the Mauritius Strategy for the Further
Implementation of the Programme of
Action for the Sustainable Development
of Small Island Developing States

ITU WORK IN DEVELOPMENT

MAURITIUS PoA

Climate change and sea-level rise
(paras 16-20)

Natural and environmental disasters
(para 21)

Management of wastes
(paras 22-25)

Coastal and marine resources
(paras 26-32)

Freshwater resources
(paras 33-37)

Land resources
(paras 38-45)

Energy resources
(paras 46-49)

Tourism resources
(paras 50-52)

Biodiversity resources
(paras 53-54)

Transport and communication, including the development of ICTs and community multimedia centers (paras 55-59)

Science and technology
(paras 60-63)

Graduation from least developed country status
(paras 64-65)

Trade: globalization and trade liberalization
(paras 66-69)

Sustainable capacity development and education for sustainable development
(paras 70-72)

Sustainable production and consumption
(para 73)

National and regional enabling environments, including involving youth in visioning sustainable island living (para 74)

Health, including support to address HIV/AIDS
(paras 75-78)

Knowledge management and information for decision-making
(paras 79-81)

Culture, the development and implementation of national cultural policies and legislative frameworks, and measures to protect cultural heritage (para 82)

Implementation
(paras 83-104)

LEVERAGING BROADBAND

ITU STRATEGY IN ASSISTING SIDS IN
THE NEXT DECADE

DIGITAL OPPORTUNITIES ARE IN BROADBAND

“In the 21st century, affordable broadband access to the Internet is becoming as vital to social and economic development as networks like transport, water and power”

– Dr Hamadoun Touré, ITU Secretary-General

Making broadband policy universal.

All countries should have a national broadband plan or strategy or include broadband in their Universal Access / Service Definitions.

Making broadband affordable

Entry-level broadband services should be made affordable in developing countries through adequate regulation and market forces (amounting to less than 5% of average monthly income).

Connecting homes to broadband

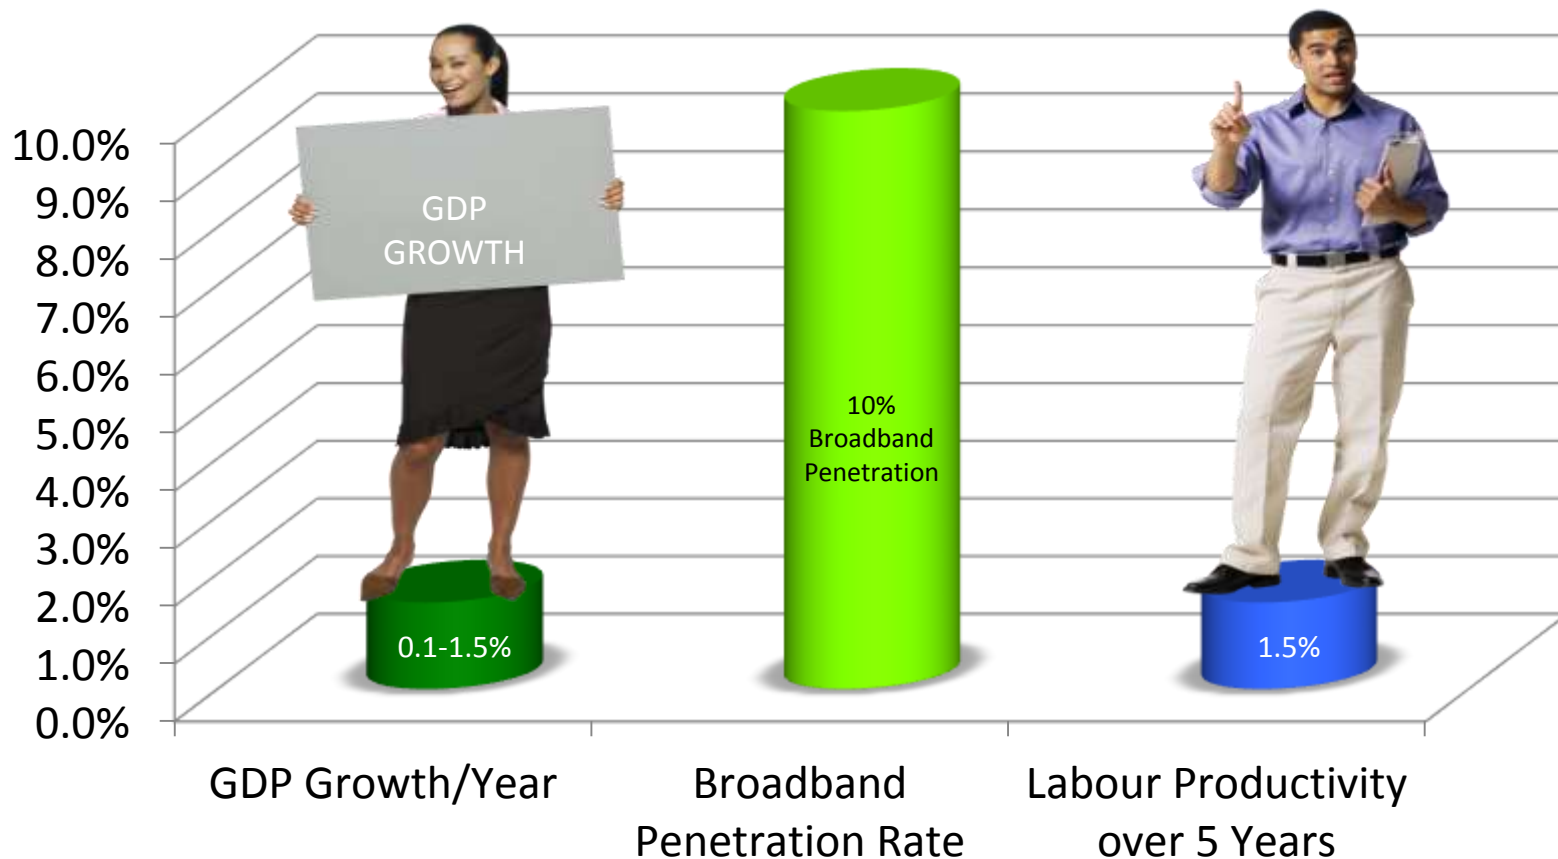

40% of households in developing countries should have Internet access.

Enhancing access to broadband

Internet user penetration should reach 60% worldwide, 50% in developing countries and 15% in LDCs.

BROADBAND BOOSTS ECONOMY

CONNECTING SIDS THROUGH PROJECTS

PROJECT 1: CONNECTIVITY FOR SIDS IN PACIFIC

PROJECT AIM

DEVELOPING LOW COST, RELIABLE, DIVERSE SATELLITE COMMUNICATIONS CAPACITY
FOR THE SOCIO-ECONOMIC DEVELOPMENT AND EMERGENCY TELECOMMUNICATION
