

## ACTIVITIES TOWARDS GIRLS IN ICT EVENT 2024

### 1. HACKATHON COMPETITION

Hackathon Competition was organized by the Tanzania Communications Regulatory Authority (TCRA) with the aim of equipping female students with skills to design technological solutions to address societal challenges. The hackathon focused on equipping girls from Tanzania Higher Learning Institutions with the ability to use big data tools to drive solutions on ICT leadership opportunities according to the GICT Day theme for 2024, “Leadership” (Location: University of Dodoma – Tanzania).

Girl students participate in a solution-based ICT innovation hackathon organised by Tanzania Communications Regulatory Authority (TCRA) as part of activities related to Girls in ICT Day 2024.

Future ICT leaders in the making! Bright young minds participate in a solution-based hackathon organized by the Tanzania Communications Regulatory Authority (TCRA) in celebration of Girls in ICT Day 2024.

## 2. WEBSITE AND APPLICATION DEVELOPMENT - PEMBA

Instructors guided eager primary school girls from Pemba – Zanzibar, through a computer science lesson, in a classroom surrounded by desktop computers. These young learners are being introduced to the fundamentals of website and application development. This educational initiative prepared by the Tanzania Communications Regulatory Authority (TCRA) is especially focused on empowering girls with digital skills, aligning with celebration of the International Girls in ICT Day 2024 and fostering inclusivity in digital innovation. (Location: Institute of Professional and Innervational Development (IPID)).

The Tanzania Communications Regulatory Authority (TCRA) is enhancing the tech skills of young women in Pemba, Zanzibar, by offering fundamental training in website and app development. This initiative aligns with the #GirlsInICT 2024 commemorative activities

The Tanzania Communications Regulatory Authority (TCRA) fosters digital empowerment among girls in Pemba, Zanzibar by providing foundational training in website and app development. This initiative was conducted as a component of the 2024 #GirlsInICT commemoration.

### 3. WEBSITE AND APPLICATION DEVELOPMENT - UNGUJA

Instructors guided eager primary school girls from Unguja – Zanzibar, through a computer science lesson, in a classroom surrounded by desktop computers. These young learners are being introduced to the fundamentals of website and application development. This educational initiative prepared by the Tanzania Communications Regulatory Authority (TCRA) is especially focused on empowering girls with digital skills, aligning with celebration of the International Girls in ICT Day 2024 and fostering inclusivity in digital innovation. (Location: State University of Zanzibar (SUZA)).

An attentive ICT instructor provides personalised, hands-on instruction to her engaged Primary School students at the State University of Zanzibar (SUZA) in Unguja. This dedicated training session reflects TCRA's commitment to empowering young women in technology. As girl students come together in the computer lab, they are not just celebrating Girls in ICT Day 2024, they are actively shaping a more inclusive and equitable future in the tech industry.

Practical training to primary school girls at the State University of Zanzibar, Unguja, showcasing the Tanzania Communications Regulatory Authority (TCRA)'s commitment to fostering young female tech talent as part of the 2024 Girls in ICT commemoration week.
