Subject: Invitation to the “14th Cybersecurity Technical Training Event – Regional Cyberdrill for Americas”

Dear Sir/ Madam:

I am pleased to invite your organization to participate in the **“14th Cybersecurity Technical Training Event – Regional Cyberdrill for Americas”** to be held from 23 to 27 September 2024 in Lima, Peru. This event is organized jointly by the International Telecommunication Union (ITU), the National Telecommunications Research and Training Institute of the National University for Engineering (INICTEL-UNI), the Ministry of Transportation and Communications, the Secretariat of Government and Digital Transformation of the Republic of Peru and the General Secretariat of the Andean Community.

The cybersecurity sessions, technical trainings, and simulation scenarios are intended for **Administrations, institutions, and/or national CIRT/CERT/SOC and/or national cybersecurity team with technical officials and/or management-level officials**. The event will take place over five days and includes various technical sessions, discussions about the cybersecurity situation in Peru and in the region, keynote speakers, specialized technical trainings and simulated scenarios oriented to incident handling. The simulation scenario and specialized technical training sessions have limited space; therefore, early registration is recommended.

Each participant must meet the Peruvian entry requirements and cover their own travel and accommodation costs. If you require a visa to enter Peru, consider the necessary time for its approval, and the possibility of requesting a letter of invitation from the Government to be presented to the Peruvian consulate in your country.

For more details, please visit the [event’s website](#). Please note that [online registration](#) is required to participate in the five-day event.

If you require more information, please do not hesitate to contact Mr. Pablo Palacios (Pablo.Palacios@itu.int), Programme Officer, ITU Area Office for South America, Santiago, Chile; Mrs. Isabel Guadalupe Sifuentes (iguadalupe@inictel-uni.edu.pe), Coordinator of Technology Transfer of the National Telecommunications Research and Training Institute of the National University for Engineering; or Mr. Diego Caicedo (dcaicedo@comunidadandina.org), General Secretary of the Andean Community.

We look forward to your active participation in this training event.

Yours faithfully,
