# Evolution of the Number of Employees

## Sustainable Innovation Platform

Research

Robust synergy leading to positive economic, environmental and social outcomes

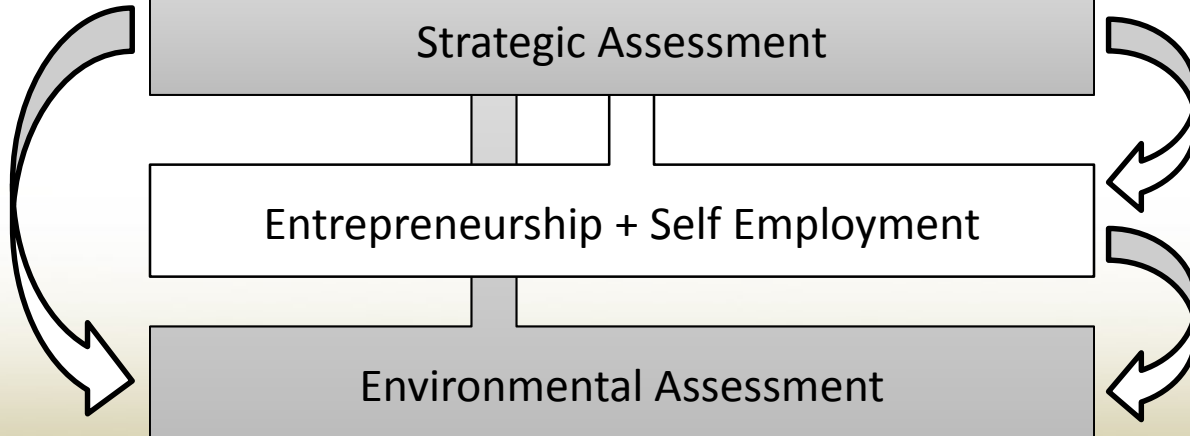

Academia

IT industry

Strategic Assessment

Entrepreneurship + Self Employment

Environmental Assessment

# The path to innovation

## Analogies with the Domino Effect

- ✓ Incremental construction
- ✓ Risk increases as you are getting closer to the objective
- ✓ Win first take all

# Objectives

## In a couple of lines

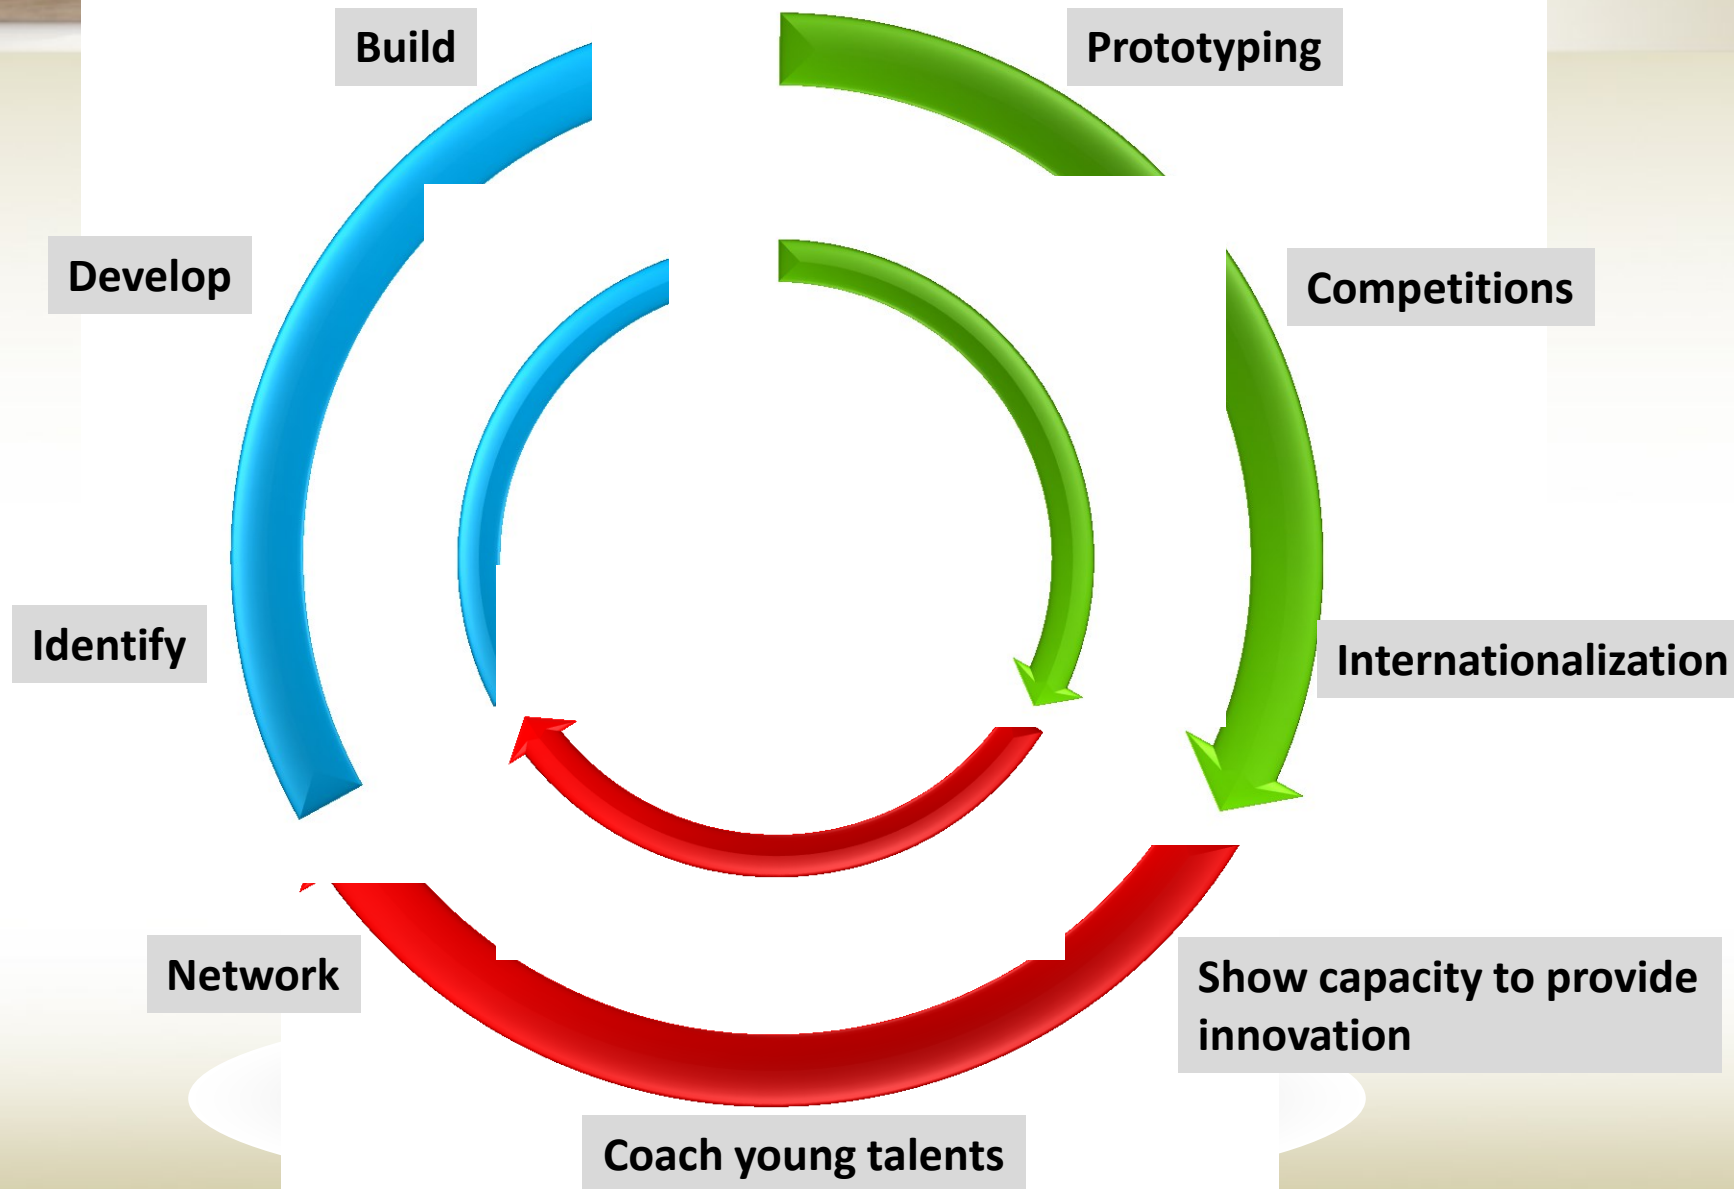

Improving innovation  
readiness

Reducing investments in  
soft skills

# Interaction of the Individual with the Innovation Ecosystem

# **Core component: Volunteers in different technical fields**

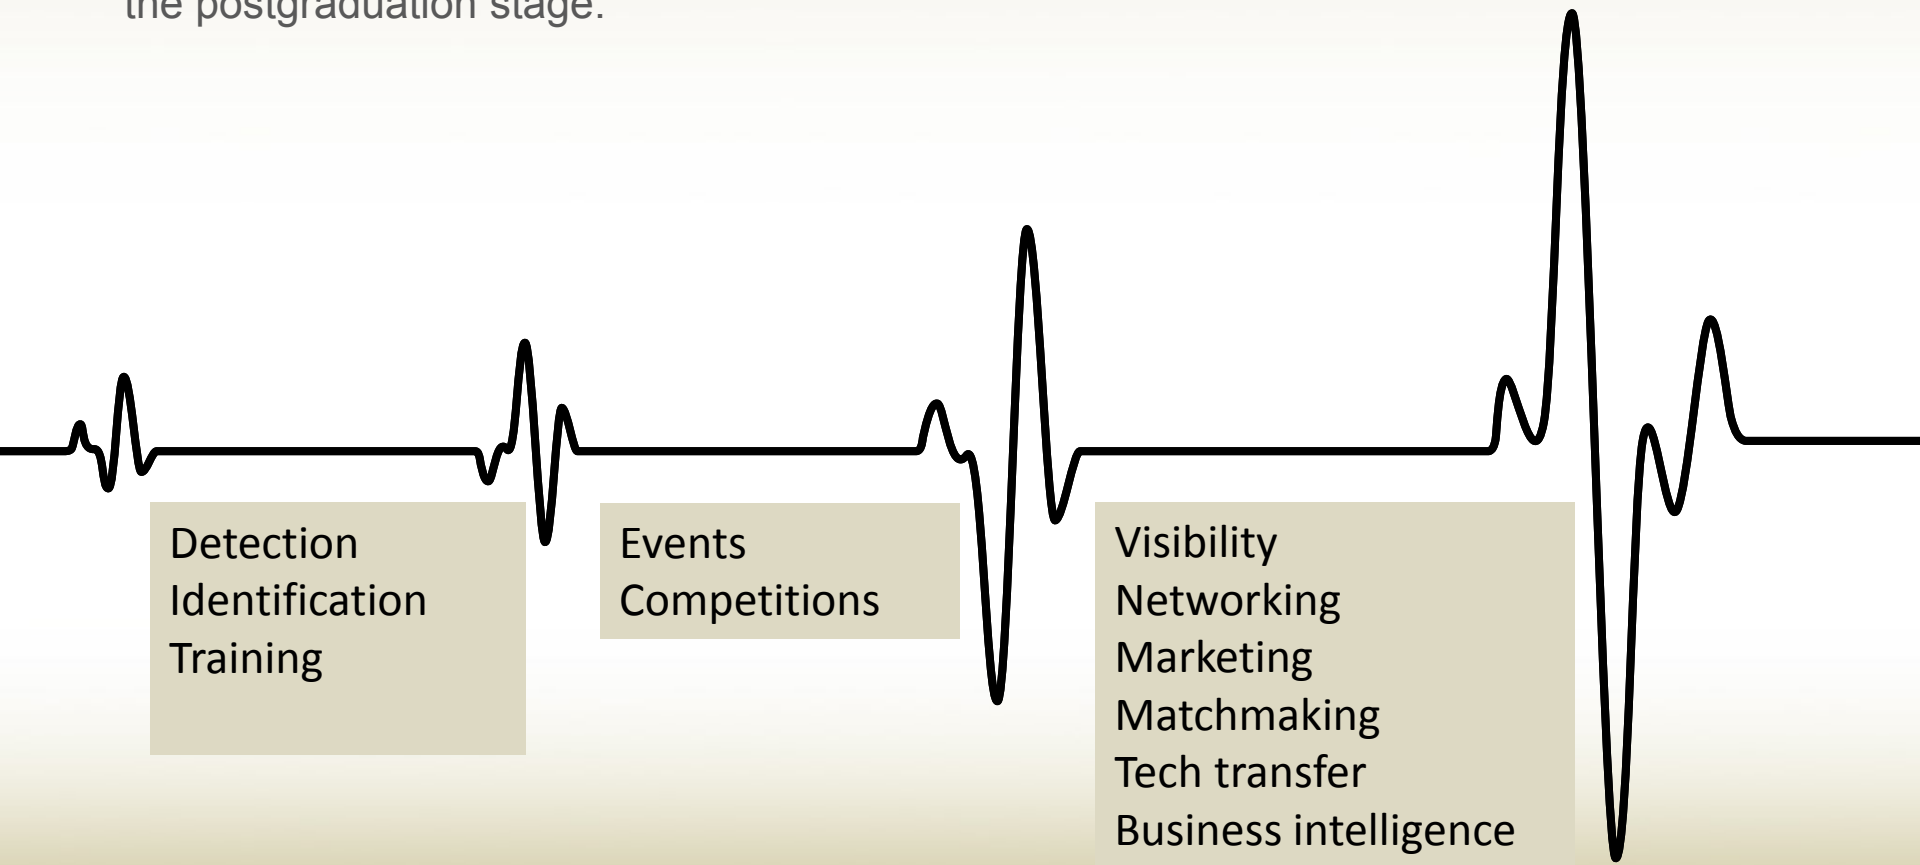

# Amplification of the Innovation Potential

Based on the knowledge and experience available at Elgazala Technopark, the individual talents can be gradually amplified so as to reach the maturity level at the postgraduation stage.
