

## ITU/UNU/ISWA Training Workshop on Electronic Waste Statistics

**Zanzibar, Tanzania**

12 April 2018

**Venue:** Sea Cliff Resort and Spa  
**Room (X)**

### DRAFT AGENDA

12 April 2018

**9:00-9:15**      **Opening of the meeting: ITU**

**9:15-9:45**      **Introduction:**

Brief introduction of speakers and trainers, including their backgrounds and brief inventory of knowledge of participants on e-waste and e-waste statistics

**9:45-10:15**    **Addressing the e-waste challenge: better data - better policies**

Brief overview of e-waste, e-waste statistics, the Global Partnership on E-waste Statistics, the 2017 Global E-waste Monitor, and ITU's mandate and role in the area of e-waste

*10:15-10:45*    *Coffee break*

**10:45-11:30**   **Country presentations (countries TBC)**

Two selected countries from the Arab/Africa region will present the work they have carried out in terms of monitoring e-waste, the challenges they have faced and the progress they have made

**11:30-12:00**   **Module 1: General Principles of E-waste Statistics**

- General overview of the key principles and core indicators of E-waste statistics
- "Guidelines on E-waste Statistics" developed by the task group on measuring e-waste of the Partnership for Measuring ICT for Development

*12:00-13:00 Lunch*

**13:00-13:30 Module 2: How to track “sales of electronic equipment”, and how to measure “e-waste generated”**

- Methodological guidance how to obtain data on the two indicators (sales and e-waste generated) of e-waste statistics
- Introduction to an open source software written in R by Statistics Netherlands and United Nations University

**13:30-14:00 Module 3: How to measure e-waste collected and recycled**

- Methodological guidance on classifications and how to obtain data on the one indicators (e-waste collected and recycled) of e-waste statistics

**14:00-14:30 Module 4: How to measure imports and exports of e-waste**

- Methodological guidance on classifications and how to obtain data on imports and exports of e-waste

**14:30-15:00 Module 5: how to use the e-waste toolkit**

- Explanation of an Excel Tool developed by United Nations University that assist countries to compile e-waste statistics

*15:00-15:30 Coffee break*

**15:30-17:00 Group discussion on e-waste statistics in the Arab States countries**

- E-waste challenges
- Legislations status
- E-waste infrastructure
- Potential data sources for each of the indicators
- National coordination between stakeholders
- Expectation for future workshops

**17:00-17:15 Wrap up**

- Questions and answers
