# Benefits of Social Governments

Government can communicate information, activities and policies in a more effective, accurate and timely manner

Citizen can interact with their government or among themselves easily and cheaply and on the right context

Building meaningful relationship between government and citizen

# Social Government Communication Model

# Requirements for Social Government

Commitment and Endorsement by Central  
(Local) Government

Good enough internet, mobile, social penetration

Big enough young and middle class group to create  
examples

# Social Governments Challenges

Access to digital devices and internet connection

Skewing voices of citizen to middle class, young, urban groups

Cultural behavior in speaking out
