Digital Security

maintaining a healthy virtual presence in
9 simple steps

Jed Adao | Project Coordinator | TechSoup Asia-Pacific

What is Digital Security?

overall
protection of

virtual
presence

devices

files

Why should we worry?

Year 2014 by the numbers

28 B spam messages daily

496 K web attacks blocked daily

1 M mobile apps were
actually malicious software

Easy security Tips for your:

virtual
presence

devices

files

Protecting Your Virtual Presence

make log in
difficult

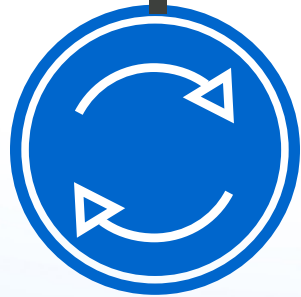

review your
privacy
settings

log out & delete
history in public
computers

Protecting Your Devices

always keep
your apps /
software
up-to-date

avoid
pirated
software

always check
website
certificates

Protecting Your files

keep backups
both online &
offline

prefer to
transfer files
via Cloud
tools instead

scan files, drives
& your computer
regularly

Remember:

**Tools only
compliment
behaviour**
