

**Timur Kadyrov**

**ITU Radiocommunication Bureau**

Timur Kadyrov is Radiocommunication Engineer in the Space Services Department (SSD) at the Radiocommunication Bureau of the International Telecommunication Union (ITU), in Geneva (Switzerland). Before joining ITU in 2010, he has been involved in issues related international regulation of orbit-spectrum use for more than 10 years. He received Doctorate Degree in Moscow Technical University of Communications and Informatics in 2005 with research focused on complex assessment of electromagnetic compatibility between non-geostationary satellites systems.

*ITU is the United Nations specialized agency for information and communication technologies – ICTs. We allocate global radio spectrum and satellite orbits, develop the technical standards that ensure networks and technologies seamlessly interconnect, and strive to improve access to ICTs to underserved communities worldwide.*
