

ITU REGIONAL DEVELOPMENT FORUM

# Pre Forum Session:

## Inclusive Connectivity

3 November 2020  
1000-1100 (BKK/JKT GMT+7)

# Supporting ICT connectivity planning

Aamir Riaz - International Telecommunication Union – Regional Office for Asia and the Pacific

[itu.int/go/RDF-ASP2020](https://itu.int/go/RDF-ASP2020)

#RDFASP2020

**ITURDF**  
ASIA-PACIFIC REGION  
ONLINE 2020

# Scope

01

Defining the  
situation in  
ASP

02

Areas of  
Intervention

03

Tools &  
Initiatives

04

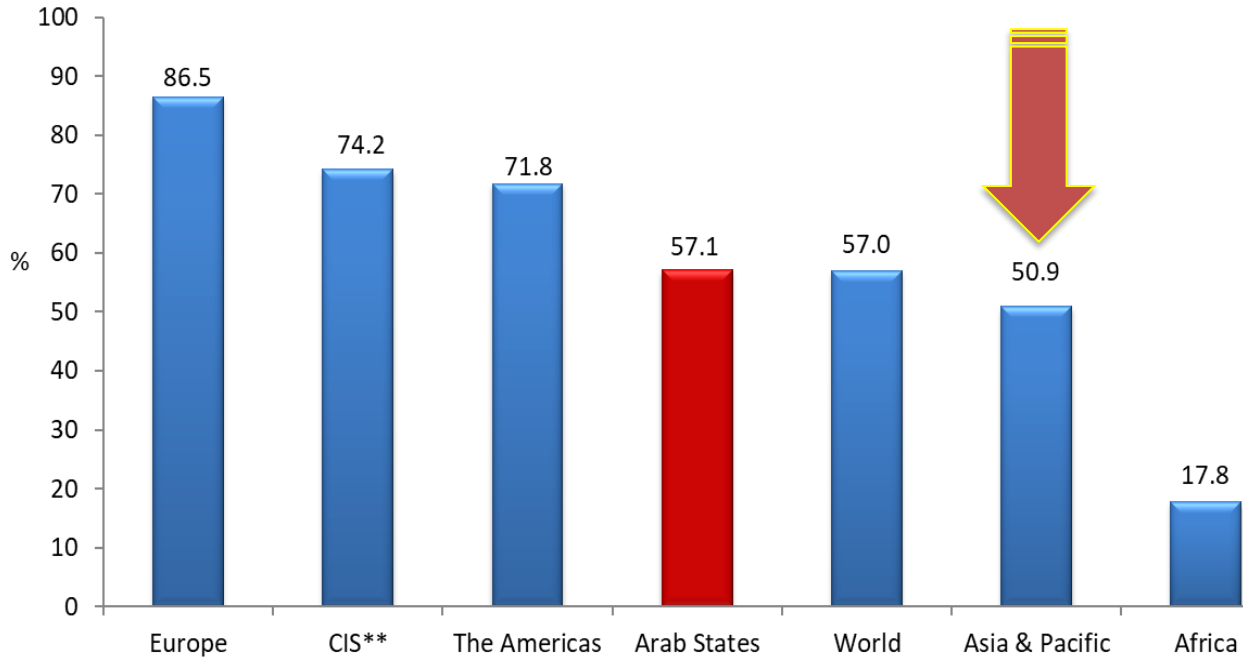

Impactful  
Partnerships:  
Example

05

Conclusion

# Our Problem Graphically: Connectivity

### Percentage of households with Internet, by region, 2019\*

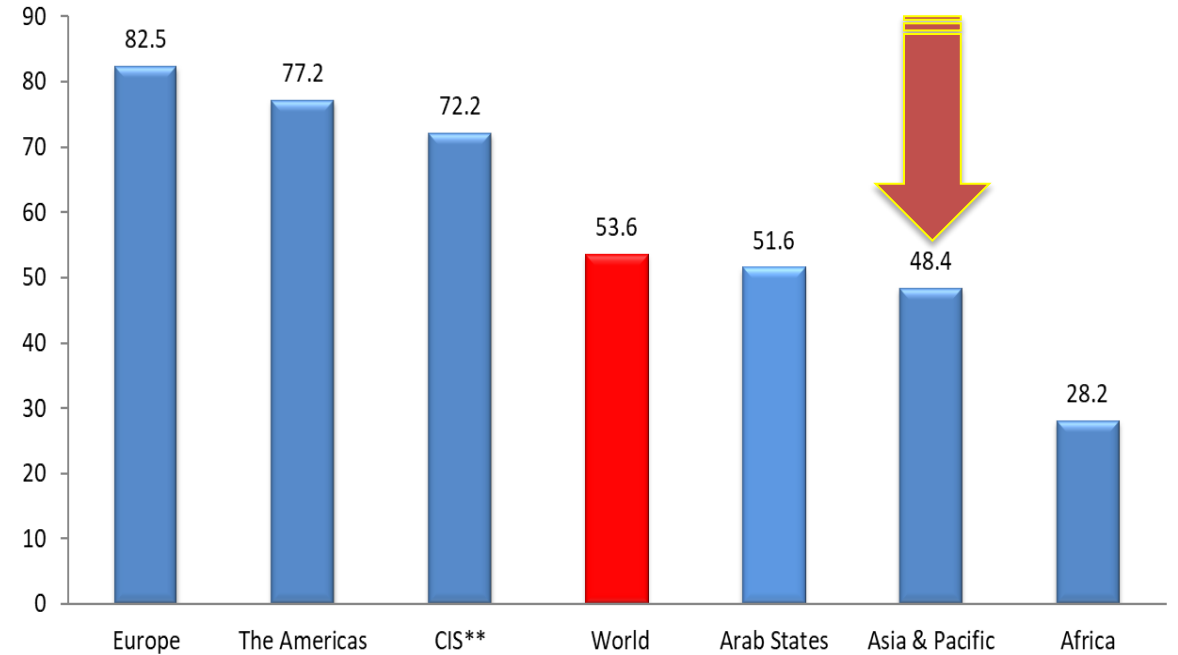

Regions are based on the ITU BDT Regions, see: <http://www.itu.int/en/ITU-D/Statistics/Pages/definitions/regions.aspx>

Note: \* Estimate \*\* Commonwealth of Independent States

Source: ITU World Telecommunication/ICT Indicators database

### Individuals using the Internet per 100 inhabitants, 2019\*

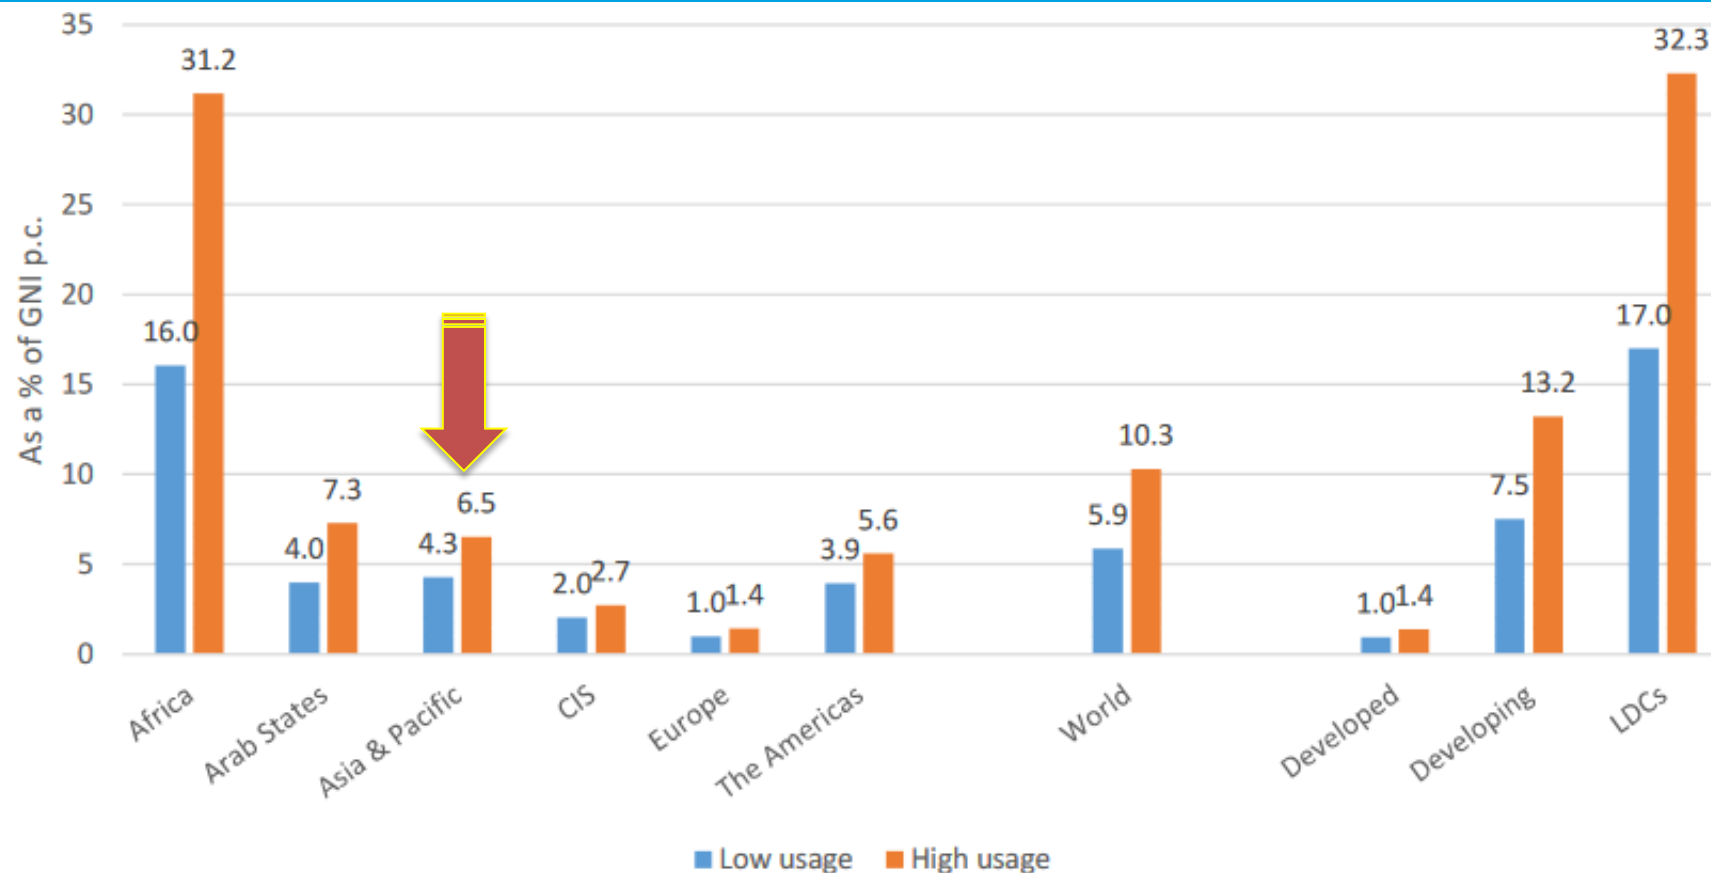

Regions are based on the ITU BDT Regions, see: <http://www.itu.int/en/ITU-D/Statistics/Pages/definitions/regions.aspx>

Note: \* Estimate \*\* Commonwealth of Independent States

Source: ITU World Telecommunication/ICT Indicators database

# Our Problem Graphically: Affordability

## Mobile-data-and-voice baskets as a % of GNI, 2019

Note: Simple averages. Based on 182 economies for high-usage data and voice baskets and 179 economies for low-usage data-and-voice baskets for which data on prices of mobile-data-and-voice baskets in PPP\$ are available for the year 2019.

Source: ITU. GNI p.c. data are from the World Bank.

# Possible interventions for Solutions

## Resilient Infrastructure

- Where to achieve most Impact?
- How Capex and which technology?
- Roll out issues
- Spectrum availability?

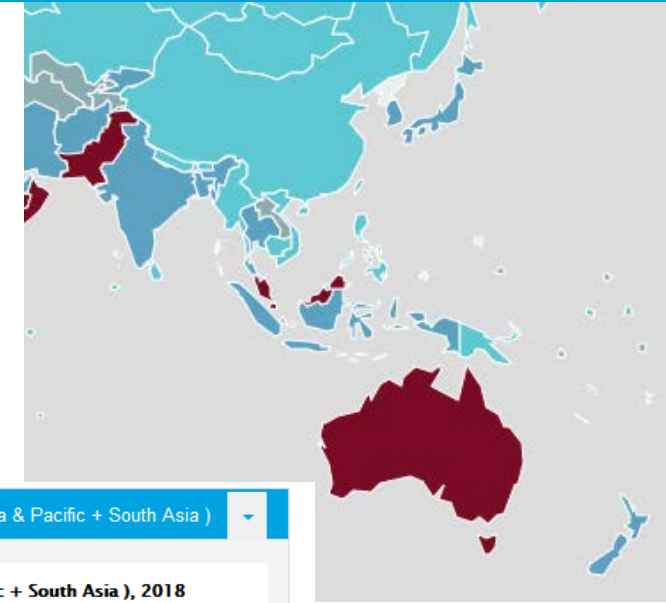

- Tools
- Partnerships
- Spectrum harmonization
- Regulatory regime
- Policy Interventions

## Affordability

- Competition and market of scales
- Taxation, affordable devices
- Rural connectivity
- Best practices

- Policy Interventions
- Regulatory regime
- USOF
- Guidelines
- Capacity building

# Current situation Asia-Pacific: ICT Regulatory tracker

<p><b>Nb of countries in G4 in 2018</b></p> <ul style="list-style-type: none"> <li>• Australia</li> <li>• Malaysia</li> <li>• Pakistan</li> <li>• Singapore</li> </ul> <p><b>4</b> out of <b>38</b> (or 10%)</p>	<p><b>First country to reach G4</b></p> <p><b>Australia, 2008</b></p>	<p><b>Gap between the highest and lowest scoring country</b></p> <p>Lowest: <b>Micronesia, 8</b></p> <p>Highest: <b>Australia, 94.5</b></p>

**ONE SIZE FITS ALL SOLUTION?**

**Targeted interventions needed  
based on  
Best Practices/Guidelines**

# ITU Broadband Transmission Maps

In partnership with ESCAP,  
National backbone connectivity, including: Optical fibres

- **Microwaves**
- **Satellite Earth Stations**
- **Mobile Coverage**
- **IXPs**
- **Other key metrics**

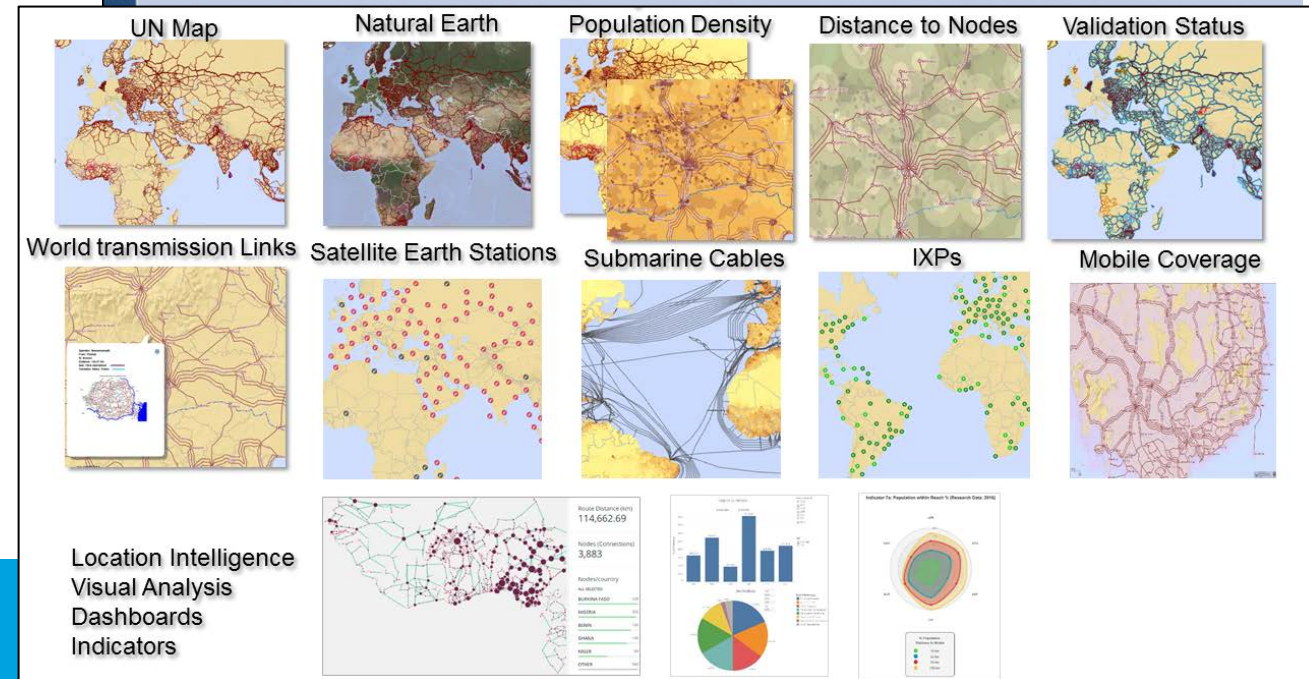

## Location Intelligence - Data Visualization

### Business Plan for ICT network deployment

- **GIS tools for ICT Development**
- **Infrastructure cost estimation\***

### Public access to the Maps

– <https://itu.int/go/map-public>

# Mobile Coverage - Distance to Nodes - Kazakhstan

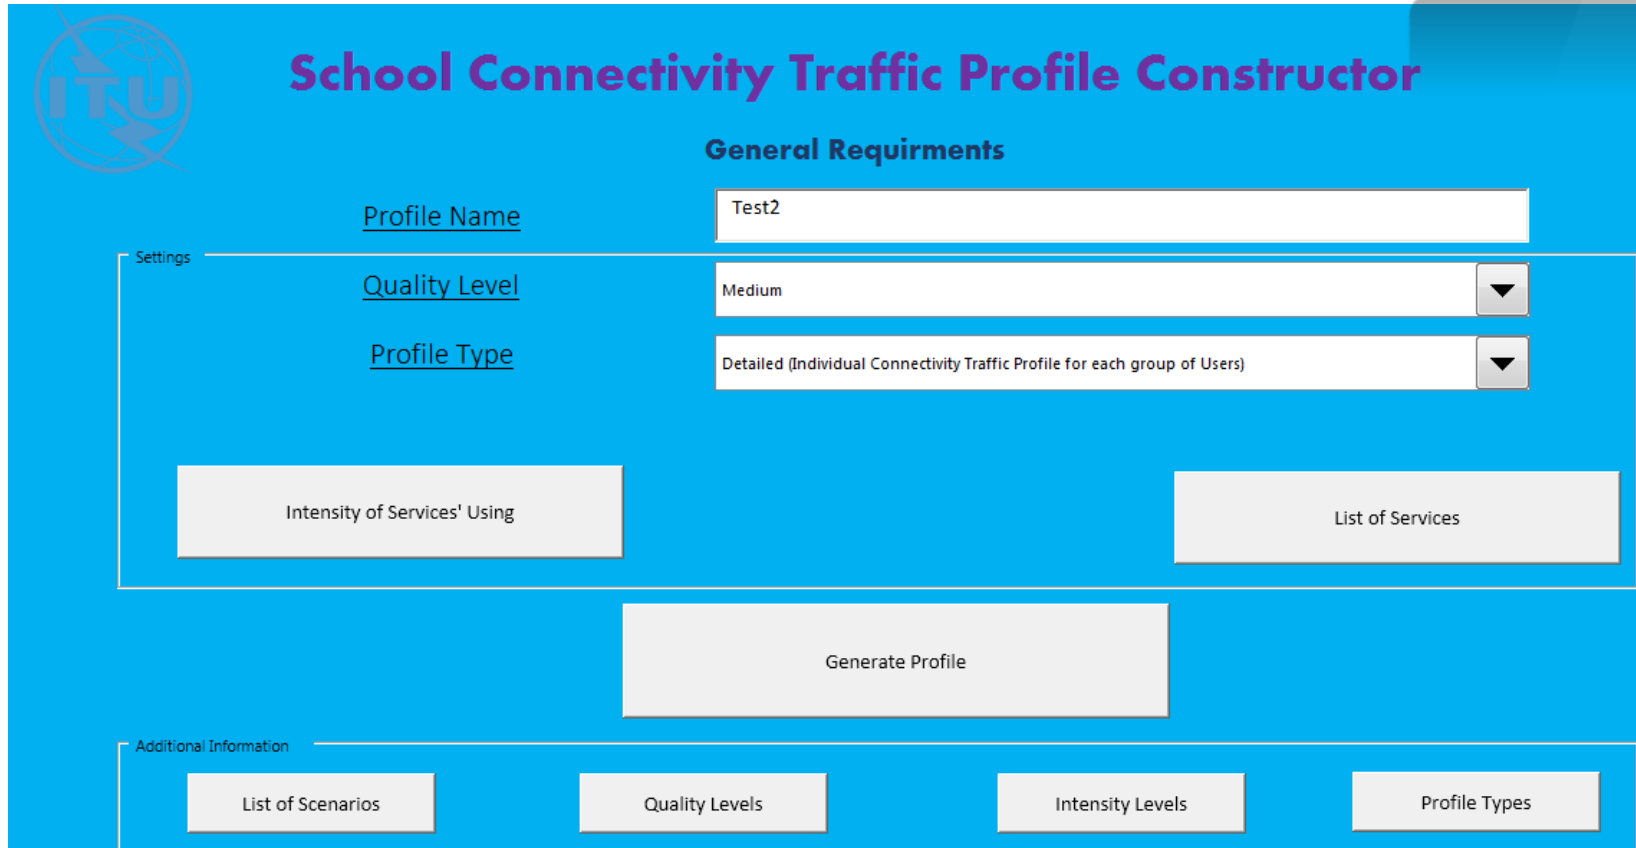

- Kazakhstan\_Nodes
- Schools\_2G
- Distance to Nodes
- Schools-No coverage

An umbrella for various Last Mile Connectivity resources including:

- ITU Last Mile Internet Solutions Guide ( October 2020)
- ITU Broadband Diagnostic Tools (October-December 2020)
- ITU courses on building, maintaining and monitoring a Last Mile network (Q2 2021)
- Additional resources on last mile connectivity from ITU and from various partners (December 2020)

Coordination and collaboration on Last Mile Connectivity resources, projects and initiatives (Q1 2021)

The screenshot displays the 'School Connectivity Traffic Profile Constructor' web application. The interface is set against a blue background and features the ITU logo in the top left corner. The main heading is 'School Connectivity Traffic Profile Constructor' in a purple font. Below the heading, the 'General Requirments' section is visible, containing three input fields: 'Profile Name' with the value 'Test2', 'Quality Level' set to 'Medium', and 'Profile Type' set to 'Detailed (Individual Connectivity Traffic Profile for each group of Users)'. A 'Settings' box encloses these fields. Below the settings are two buttons: 'Intensity of Services' Using' and 'List of Services'. A large 'Generate Profile' button is centered below these. At the bottom, an 'Additional Information' section contains four buttons: 'List of Scenarios', 'Quality Levels', 'Intensity Levels', and 'Profile Types'.

# Supporting Giga in ASP through ITU OP and RIs

unicef  
for every child

**Map** schools to identify connectivity gaps

Build affordable and sustainable **Finance** models

Implement fit-for-purpose infrastructure to **Connect** schools and ultimately every community and every citizen

**Empower** learning and other skills and services via appropriate Digital Public Goods

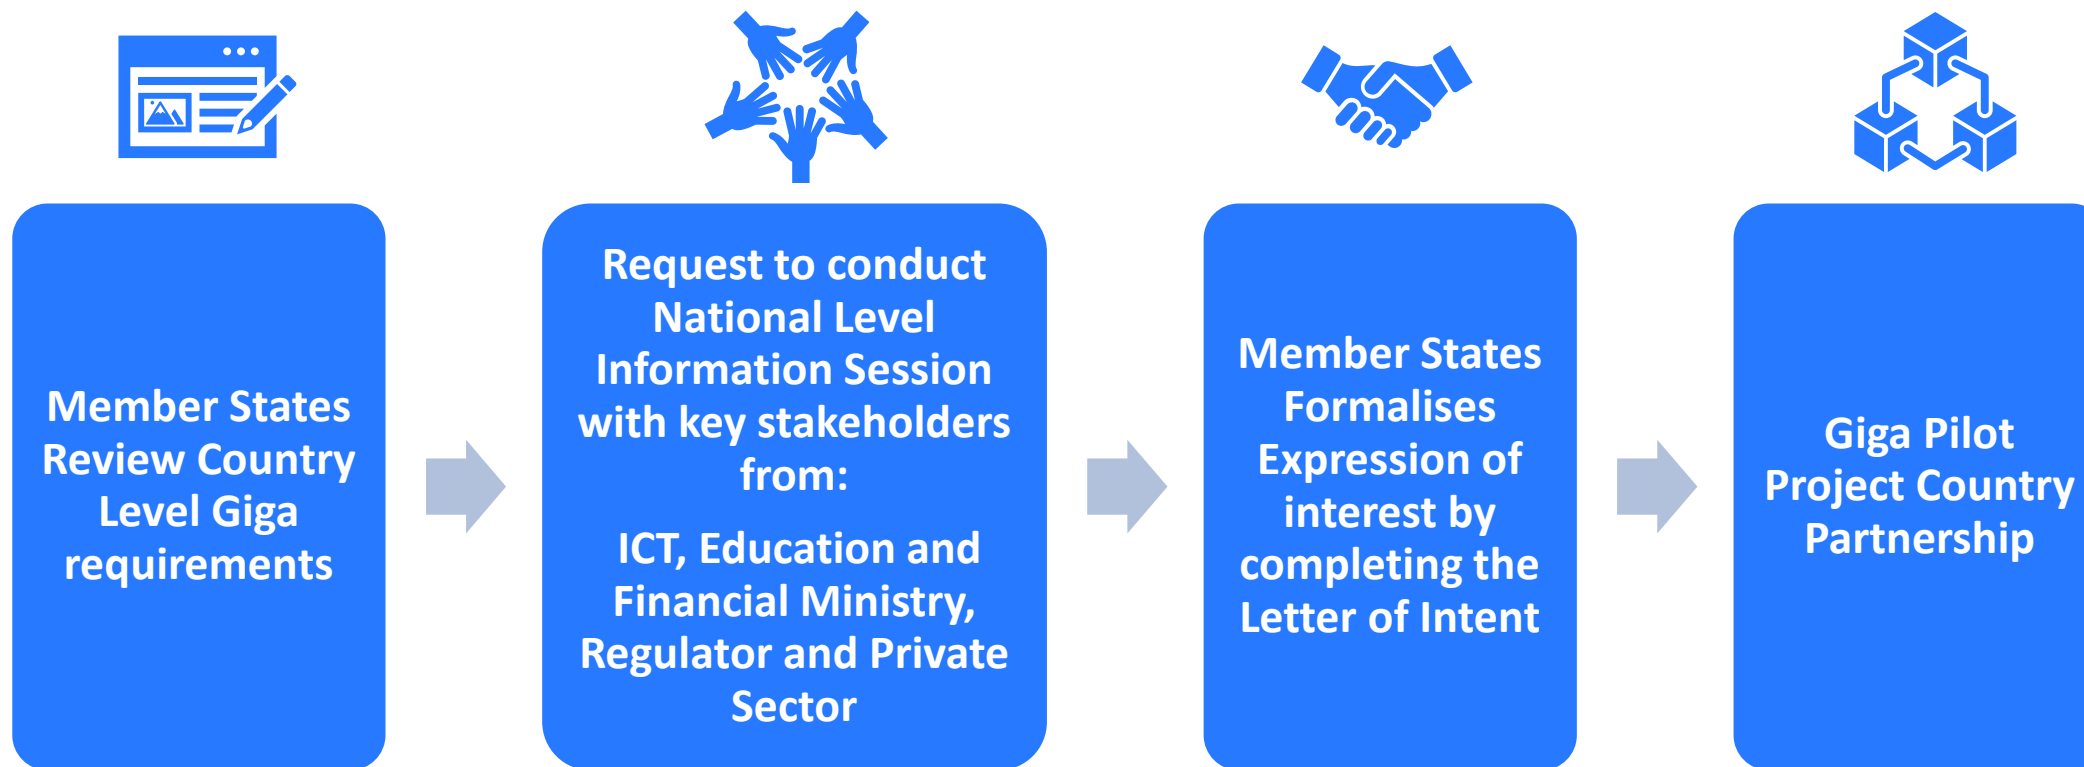

Working with partners to mobilise funds

More Information at : <https://www.itu.int/en/ITU-D/Initiatives/GIGA/Pages/default.aspx>

# Giga in ASP: Moving Forward

**For more information:**  
**ITU HQ: Alex Wong [alex.wong@itu.int](mailto:alex.wong@itu.int);**  
**ASP: Sean Doral- [sean.doral@itu.int](mailto:sean.doral@itu.int);**

**Interested countries In ASP**  
Pakistan, Bhutan, Bangladesh,  
Mongolia, Vanuatu, Philippines, PNG.

# Supporting Giga through ITU Tools and Publications

## The 2020 Child Online Protection Guideline

The new guidelines propose a response to the global challenge of Child Online Protection

## Digital Skills Assessment Guidebook

Comprehensive and practical step-by-step tool for national digital skills assessments

## Building Smart Villages: A Blueprint

A comprehensive Whole-of-Government approach for Rural Digital Transformation

## ITU Last Mile Connectivity Toolkit (Launching Soon)

Identifying specific solutions for localities identified as unserved and underserved in terms of telecommunications service.

# Conclusions

- ✓ Improving connectivity in Asia-Pacific is a challenge but real solution is **Affordable connectivity**
- ✓ **Tools**, best practices and guidelines help in **planning and strategizing investments** to create the biggest impact
- ✓ **Partnerships** are needed to deliver
